Simring,Sue Klavans Simring,Gene Busnar,2001 *Making Marriage Work* Rob Pascale,Louis H. Primavera,2016-02-23 Staying happily married has become a difficult proposition in recent times Although the institution is still firmly embedded in our culture divorce rates have steadily climbed since the 1960s While some marriages are truly divorce worthy many other broken marriages can be saved Recent emphasis on personal needs and greater social acceptance of divorce and alternative lifestyles may have weakened the resolve of partners to work through their problems Furthermore many couples may not realize that problems in their current marriages are likely to surface in other relationships Consequently while they may consider divorce a solution it may in fact only be a stepping stone to the next relationship where patterns may repeat Solving marital differences can be difficult They tend to be linked to or caused by other problems and that can make it hard to identify the real reasons for conflicts Without knowing the true nature of their problems couples cannot arrive at solutions that actually work To understand the underlying issues that plague many marriages the authors look to the research conducted on the subject over the past fifty years and to real life stories of success and failure to outline the major issues that detract from marital stability Drawing on Louis Primavera s twenty five years in private practice as a marriage counselor each chapter is peppered with anecdotes that every married person can relate to and that help bring issues to life The authors also propose frank and honest solutions that can help couples have more satisfying relationships Anyone looking to improve their marriage will find suggestions for sussing out the underlying problems they may be experiencing and guidance for addressing those problems **Making Marriage Work** Lynn Toler,2012-08-07 Solid advice for newlyweds golden anniversary celebrants and everybody in between from the Marriage Boot Camp and former Divorce Court star The Augusta Chronicle As the judge starring on two hit television shows Lynn Toler has witnessed en masse the thematic mistakes made in American marriages She herself has also been wed for more than 30 years and has seen both the highs and lows of matrimony in her own marriage as well as the marriages of those close to her Drawing from both her professional career and personal life Toler sees that the biggest impediment to marriage these days is that couples decide to take the plunge based almost entirely on the most irrational criteria falling in love Making Marriage Work doesn t suggest that love has nothing to do with marriage at all rather Toler says that love by itself is simply not enough to make marriages survive Marriage Toler says is a job and it needs to be treated like one This updated manual suggests specific procedures that should be put in place to bridge the gap between head over heels and happily ever after It explains how to phrase things in order to span the great hormonal divide men and women often fall into when trying

to talk to one another It also discusses the very new and real challenges to marriage created in a culture often overwhelmed by the emphasis on and ability to attain instant gratification Replete with simple no nonsense rules Divorce Court anecdotes and stories about Judge Toler s own union Making Marriage Work contains invaluable information couples can use today to secure their marital tomorrow

Life Transitions in America Francesco Duina,2014-02-12 We celebrate talk about and worry a great deal about transitions in life Going to college having a first child losing a job and retiring constitute just a few of the pivotal moments in the lives of many Sociologists and psychologists have devoted considerable attention to life transitions Yet we know very little about whether there exists a common thread to our understandings of life transitions in general How do journalists leading politicians sport icons bestselling authors government agencies Hallmark cards popular TV shows and other voices of popular culture talk about transitions in life Do these voices provide a coherent picture of how we make sense of life transitions In this book Francesco Duina shows how the dominant American discourse articulates two basic approaches to transitions in life The first approach depicts transitions as exciting individualistic opportunities for new beginnings the past is cast aside the future is wide open and the self has the opportunity to recreate itself anew The second paints transitions as having to do with continuity our connections to others and the life cycle with an emphasis on acceptance and adaptation Though contrasting the two approaches ultimately complement each other Their analysis reveals a great deal about American culture and society and will be of great interest to students of the life course and the sociology of culture
