Stober,Anthony M. Grant,2010-06-03 The first reference to bring scientifically proven approaches to the practice of personal and executive coaching The Evidence Based Coaching Handbook applies recent behavioral science research to executive and personal coaching bringing multiple disciplines to bear on why and how coaching works A groundbreaking resource for this burgeoning profession this text

presents several different coaching approaches along with the empirical and theoretical knowledge base supporting each. Recognizing the special character of coaching that the coaching process is non medical collaborative and highly contextual the authors lay out an evidence based coaching model that allows practitioners to integrate their own expertise and the needs of their individual clients with the best current knowledge. This gives coaches the ability to better understand and optimize their own coaching interventions while not having to conform to a single rigidly defined practice standard. The Evidence Based Coaching Handbook looks at various approaches and applies each to the same two case studies demonstrating through this practical comparison the methods assumptions and concepts at work in the different approaches. The coverage includes An overview a contextual model of coaching approaches Systems and complexity theory The behavioral perspective The humanistic perspective Cognitive coaching Adult development theory An integrative goal focused approach Psychoanalytically informed coaching Positive psychology An adult learning approach An adventure based framework Culture and coaching Franchise Opportunities Handbook United States. India Investment and Business Guide Volume 1 Strategic and Practical Information IBP, Inc.,2013-08 India Investment and Business Guide Strategic and Practical Information **Hospitality Retail Management** Conrad Lashley,2000 Customers rely on a particular chain of hotels restaurants or pubs to provide the same level of service and environment across the board. This standardised service provides the customer with the security of knowing what to expect from that particular organisation. However this standardisation allows little room for creativity for individual managers to respond to the particular needs of their local market. There is a growing realisation that there is greater profitability if the chain can offer both standardised services across all its retail operations while at the same time allowing local managers the freedom to interpret the needs of its local market as they see fit.
