

Globus- Quiz 2 - Part 2

Quiz 2 - Answers - Part 2

1.

Which one of the following is NOT a way to improve the P/Q rating of a company's brand of UAV drones?

Decreasing the number of models in the company's line-up from 2 to 1

Improving the battery pack to permit more minutes of flying time on a single charge

Offering all buyers of the company's UAV drones a full day of flight training at a nearby independently-operated drone flight training center for a modest extra \$50 charge

Increasing the number of rotors

Improving the caliber and functionality of the camera stabilization device (so that video quality

is not so adversely affected by strong wind conditions)

2. Which one of the following is unlikely to be an attractive and effective way to reduce the design, assembly, marketing, and other costs of UAV drones and help achieve a sizable competitive advantage over rival companies based on lower overall costs per UAV drone sold?

Trying out numerous different combinations of design components, performance enhancements, and extra performance features to be used in the company's UAV drones in

order to discover the lowest cost combination for achieving a competitively appealing P/Q

rating

Spending only modest amounts annually for Corporate Social Responsibility and Citizenship

initiatives

Switching to robot-assisted assembly methods to lower labor costs per drone assembled

Designing, assembling, and selling UAV drones having a P/Q rating of 0.5 stars

Trying to keep the warranty period to 60 days or 90 days (but no more than 120 days), if it is

competitively feasible to do so

3. Which one of the following actions is MOST likely to REDUCE the productivity of camera/drone PATs?

Failing to have a total annual compensation package for camera/drone PAT members

Bipolar Disorder :Am I Bipolar ? How Bipolar Quiz & Tests Reveal The Answers Heather Rose,2013-06-10 What is bipolar disorder Bipolar disorder also commonly referred to as the manic depressive disorder is a brain illness that is associated with abnormal mood swings activity and energy levels as well as the ability of the affected person to perform normal daily activities It can range from the lows of depression to the highs of obsession As a result of the depression one may lose pleasure or interest in a lot of the activities and end up hopeless or sad Whereas your mood may swing into obsession one may feel full of energy or euphoric The symptoms of this condition are severe and are quite different from the normal mood swings you undergo through from time to time These symptoms may result to poor performance in the work place poor performance in school suicide or damage your relationship However it is important to note that bipolar disease can be treated and those suffering from it may regain their normal productive lives This condition is very common in early adults and late teens Although some people develop early signs during their childhood many develop its signs late in their life Symptoms of bipolar disorder People suffering from this disorder often experience abnormal severe emotional states periodically One may experience a joyful period for sometimes and later the mood may change to a depression or an obsession period Another common symptom is the severe changes in activity behavior sleep or energy levels that are associated with the mood swings If you suffer from this condition you may experience periods of hopelessness loss of pleasure and interest in different activities including sex Other behavioral changes that are common include irritability restlessness poor concentration poor memory thinking about death problems sleeping and one is easily distracted Test For Bipolar Disorder The first step during test is a physical examination conducted by talking to a doctor it involves an interview as well as laboratory tests This disorder cannot be identified through a brain scan or a mere blood test however these tests are essential in ruling out other causing factors such as brain tumor or stroke If bipolar disorder is not caused by other illnesses then the physician may conduct a mental health examination The doctor checks on any bipolar disorder history in the patient's family line The test has to be conclusive to avoid mistaking it for the common unipolar disorder which is a major depressive disorder where the affected don't experience obsession Treatment Of Bipolar Disorder Currently there is no cure for this condition however different treatments are administered to help those suffering from this condition to gain much better control of their mood changes as well as the related symptoms Bipolar disorder is long term and recurrent therefore an efficient maintenance treatment plan should be used This treatment plan involves psychotherapy and other medication is essential in preventing relapse as well as minimizing the severity of its symptoms Since different people respond differently to medication then different medications may be used to treat this condition Among these medications include mood stabilizers lithium valproic acid as well as other anticonvulsant medications
