Making Peace Possible The Promise Of Economic Conversion:

Making Peace Possible Lloyd J. Dumas, Marek Thee, 1989 In *Making Peace Possible* the editors have presented a range of papers which focus on the theory and practice of economic conversion of military oriented industry to civilian use The book brings together a wealth of information from academic research and from case studies undertaken by individual countries and by the United Nations Covering such diverse topics as the relationship between the level of armament expenditure in the industrialized countries and economic aid to less developed countries the economic impact of ever increasing expenditure on arms and the theory and practical experience of economic conversion projects in the US and Scandinavia *Making Peace Possible* shows that economic conversion from military to civilian use can help form the basis for a more peaceful and economically stable world

The Socio-economics of Conversion from War to Peace Lloyd J. Dumas, Amitai Etzioni, 2016-09-17 This text discusses the economic social and political implications of redirecting labour and capital from a military based to a post Cold War economy

Making Peace Possible Lloyd J. Dumas, Marek Thee, 2014-06-28 In *Making Peace Possible* the editors have presented a range of papers which focus on the theory and practice of economic conversion of military oriented industry to civilian use The book brings together a wealth of information from academic research and from case studies undertaken by individual countries and by the United Nations Covering such diverse topics as the relationship between the level of armament expenditure in the industrialized countries and economic aid to less developed countries the economic impact of ever increasing expenditure on arms and the theory and practical experience of economic conversion projects in the US and Scandinavia *Making Peace Possible* shows that economic conversion from military to civilian use can help form the basis for a more peaceful and economically stable world

Economics of Arms Reduction and the Peace Process W. Isard, C.H. Anderton, 2014-06-28 The subject of peace economics and its ramifications are comprehensively and deeply attacked in this book First of all the book presents a compact survey of significant contributions already made and then it provides a broad theoretical background for examining the subject by evaluating four different approaches those of 1 neoclassical welfare theory 2 Keynesian and modern versions of macroeconomics 3 modern growth theory and 4 political choice theory A number of contributions deal with major questions on issues such as the impact of military cutbacks in the Eastern European economies upon their growth trade between nations arms trade nuclear defense and the benefits and costs of war as highlighted by the recent Gulf War Issues of a more general nature but equally significant are also discussed including the age old negotiations problem of two mature political leaders of major powers in conflict the determinants of military expenditures and the problems of developing countries In the last chapter the findings of the studies reported in the book are summarized and key directions for further research are identified This book is indispensable for any economist or analyst conducting research on peace economics and the peace process or concerned with the impacts of recent arms reduction and conversion by the major powers and the escalation of military expenditures

elsewhere **The Politics and Economics of Defence Industries** Efraim Inbar, Ben Zion Zilberfarb, 2013-09-13 This volume provides a policy relevant analysis of the complex web of contemporary economic trends political developments and strategic considerations that are shaping the contours of the new post Cold War world market for weaponry *Towards a Theory of United Nations Peacekeeping* A.B. Fetherston, 1994-12-13 At a time when peacekeepers are struggling to fulfil increasingly demanding mandates and UN peacekeeping is in danger of losing the distinct character that won it the 1988 Nobel Peace Prize this important book argues for a clear theoretical redefinition within a conflict resolution framework and examines the practical implications for training This is a valuable and original contribution to the peacekeeping literature Dr Oliver Ramsbotham Department of Peace Studies University of Bradford Both for the blue helmets on the ground and for the diplomats at UN headquarters conflict resolution skills are essential for conducting peacekeeping operations Betts Fetherstone s excellent study points the way forward to a synthesis between conflict management and peacekeeping Hugh Miall Research Fellow European Programme Royal Institute of International Affairs The prevailing over taxed ad hoc system of peacekeeping does not meet the growing demands posed by the post Cold War world This volume argues that peacekeeping needs to be placed on firm conceptual footing directly congruent with its peaceful third party role The implications of this conceptualisation of peacekeeping for practice are then discussed Training is cited as a key means of translating conceptual understanding into practice Without this foundation work UN has little chance of changing its existing and largely ineffective system of conflict management At a time when peacekeepers are struggling to fulfil increasingly demanding mandates and UN peacekeeping is in danger of losing the distinct character that won it the 1988 Nobel Peace Prize this important book argues for a clear theoretical redefinition within a conflict resolution framework and examines the practical implications for training This is a valuable and original contribution to the peacekeeping literature The Economics of Conflict and Peace Jurgen Brauer, William G. Gissy, 2017-07-05 This work addresses new directions in research on the economic theory of conflict the cost of war and the benefits of peace A collection of 17 papers drawing on contributors from all continents the volume is divided into four sections The first discusses novel ways to think about the economics of conflict and peace from theory perspectives These include discussions of conflict from the perspectives of standard neoclassical analysis and economic geography An especially interesting paper in this section addresses conflict in the context of the emerging theory of international public finance A second section deals with military expenditures economic human development and economic growth in the US and developing nations of Asia and Africa The volume enters new territory in sections three and four Section three contains a set of papers on the economic cost of war and war s aftermath significantly expanding economists rather modest efforts to date Section four is concerned with how the concepts of economics might be operationalized and institutionalized to foster security *The Peacekeeping Economy* Lloyd J. Dumas, 2011-01-01 The idea that military strength is virtually synonymous with security is deeply entrenched and widely held But while the threat or use

of military force may sometimes be necessary it cannot keep us as safe as we would be by building relationships that replace hostility with a sense of mutual purpose and mutual gain Economic relationships says Lloyd J Dumas can offer a far more effective and far less costly means of maintaining security After defining the right kind of economic relationship one that is balanced and nonexploitative emphasizes development and minimizes environmental damage Dumas then addresses some practical concerns in establishing and maintaining these relationships He also considers the practical problems of the transition from military based security arrangements to economic peacekeeping and the effects of demilitarized security on economic development and prosperity

Clinton's Foreign Policy in Russia George A. MacLean, 2017-11-30 Some of Bill Clinton's most basic foreign policy elements democratic peace the post Cold War peace dividend geopolitics and state society relations are epitomized in the US Russian Highly Enriched Uranium HEU Purchase Agreement It was one of the most remarkable initiatives of Clinton's presidency but oddly one of the most obscure that still continues under George W Bush This agreement illustrates how successfully the US and Russia could work together to reduce global nuclear fears but also how a series of decisions pitted global designs over American domestic interests Illustrating one of the most compelling decisions Clinton made as President this remarkable book elucidates the theory of democratic peace and demonstrates a new and more advanced nuclear restraint regime from reduction to elimination The story behind Clinton's decision has repercussions for our understanding of arms control foreign policy decision making and US Russian relations This is a book about the intersection of levels of analysis international security concerns and domestic political economy and as such is ideal as a supplementary text for advanced courses in security and foreign policy

Defense, Welfare and Growth Steve Chan, Alex Mintz, 1992-07-02 First published in 2004 Routledge is an imprint of Taylor Francis an informa company

Nils Petter Gleditsch: Pioneer in the Analysis of War and Peace Nils Petter Gleditsch, 2015-07-18 This book presents Nils Petter Gleditsch a staff member of the Peace Research Institute of Oslo PRIO since 1964 a former editor of the Journal for Peace Research 1983 2010 a former president of the International Studies Association 2008 2009 and the recipient of several academic awards as a pioneer in the scientific analysis of war and peace This unique anthology covers major themes in his distinguished career as a peace researcher An autobiographical critical retrospective puts his work on conflict and peace into a broader context while a comprehensive bibliography documents his publications over a period of nearly 50 years Part II documents his wide ranging contributions on globalization democratization and liberal peace on international espionage environmental security climate change and conflict and on the decline of war and more generally of violence as a tool in conflict

Defense Spending And Economic Growth James E. Payne, 2019-03-13 This book examines the impact defense spending has on economic growth While defense spending was not deliberately invented as a fiscal policy instrument its importance in the composition of overall government spending and thus in determining employment is now easily recognized In light of the collapse of the Soviet Union and the consequent reduction in the threat to the security of the United States

maintaining defense spending at the old level seems indefensible The media has concentrated on the so called peace dividend However as soon as the federal government is faced with defense cuts it realizes the macroeconomic ramifications of such a step Based on studies included in this volume we examine the effects of defense spending on economic growth and investigate how the changed world political climate is likely to alter the importance and pattern of defense spending both for developed and developing countries

Real Security Kevin J. Cassidy,1993-01-01 With the end of the Cold War and the extraordinary military competition that characterized it the meaning of national security is being redefined This book participates in that task by proposing a new demilitarized foreign policy based on collective security and an industrial policy capable of shifting the country's major resources from military purposes to the revitalization of the economy This reduction in military production will also make possible the reversal of the environmental legacy of the Cold War analyzed at length here

Bulletin of the Atomic Scientists ,1989-06 Marek Thee: My Story Marek Thee,Nils Petter Gleditsch,Stein Tønnesson,Marta Bivand Erdal,2022-12-21 Marek Thee was a Jewish Polish journalist scholar and activist This book tells his life from narrowly escaping death in the Holocaust to exile in Palestine where he became attached to the Polish consular service On his return to Poland in 1950 he worked for the Foreign Ministry and later for the Polish Institute for International Affairs He served as Head of the Polish delegation to the International Control Commission in Indochina in the late 1950s In 1968 he lost his job and his Polish citizenship in a nationalistic and antisemitic campaign He was able to move to Norway where he worked for twenty years at the Peace Research Institute Oslo PRIO editing an international quarterly journal Bulletin of Peace Proposals and doing research on the arms race In retirement he continued his research and writing at the Norwegian Human Rights Institute The book vividly relates the drama of his life in Poland Palestine Indochina and Norway This is an open access book

Economic Adjustment After the Cold War Michael Renner,1992 This book looks at the problems and opportunities of a switchover of skills equipment and other resources from military purposes to civilian uses with particular reference to recent events in Eastern Europe In Part 1 the author surveys the extent of the military economy and suggests that its different components imply distinct adjustment needs

Three Plays of Maureen Hunter Hunter, Maureen,2003 Book is clean and tight No writing in text Like New

Military Production and Innovation in Spain Jordi Molas-Gallart,1992 Military Production and Innovation in Spain extends the scope beyond the traditional analysis of arms producers to include components and sub systems manufacturers It combines a description of the changes experienced by Spanish military production with an analysis of its deeply rooted structural characteristics The book provides an in depth exploration of the Spanish military related industry its links with the rest of the economy and its potential role as a technological engine for the Spanish economy

Long-Term Conflict Prevention and Industrial Development Ralf Bredel,2003 After decades of striving to prevent international conflict major armed conflicts in the 1990s have taken place within national boundaries After the series of national independence wars in the 1950s and 1960s and frequent geopolitical

wars in the 1970s and 1980s a category of wars of the third kind prevailed The aim of this book is to consider the root causes of recent internal conflicts and to develop long term conflict prevention strategies from here New insights suggest the central role of politico economic inequalities in ethnic religious and cultural conflict The United Nations system has just started to adjust to this new reality of conflict and make long term conflict prevention a priority issue on international agendas Whereas development practitioners should principally conceive their work through a conflict prevention lens there is a shift in focus to United Nations agencies that deal with the economic characteristics of conflict The unbroken significance of a sustainable industrial development process in developing countries may allow the United Nations Industrial Development Organization UNIDO a particular vantage point and role in the long term prevention of conflict **IPRA Newsletter** ,1990
