Making Sense of It All David H. Lund, 2003 For courses in Introduction to Philosophy and Problems of Philosophy and as a supplementary text for introductory courses in Metaphysics and Philosophy of Mind This brief engaging problems based approach to philosophic inquiry shows students why and how philosophic thought about fundamental problems in epistemology ontology and moral theory can aid in our attempt to make sense of it all It invites students to participate in thinking things through and encourages higher order thought the critical examination of views conceptual analysis integrative thought and the evaluation of arguments to actively engage students in Philosophy *An Introduction to Philosophical Inquiry* Joseph Margolis, 1968 [The Soul of Theological Anthropology](#) Joshua R. Farris, 2016-11-25 Recent research in the philosophy of religion anthropology and philosophy of mind has prompted the need for a more integrated comprehensive and systematic theology of human nature This project constructively develops a theological accounting of human persons by drawing from a Cartesian as a term of art model of anthropology which is motivated by a long tradition As was common among patristics medievals and Reformed Scholastics Farris draws from philosophical resources to articulate Christian doctrine as he approaches theological anthropology Exploring a substance dualism model the author highlights relevant theological texts and passages of Scripture arguing that this model accounts for doctrinal essentials concerning theological anthropology While Farris is not explicitly interested in thorough critique of materialist ontology he notes some of the significant problems associated with it Rather the present project is an attempt to revitalize the resources found in Cartesianism by responding to some common worries associated with it *God, Souls, and Consciousness* Joshua R. Farris, 2025-10-15 This book provides a critique of naturalistic views of subjects and agency arguing that these are conditioned ways of conceiving of the mind and the cosmos It draws on the relevant literature on substance dualism idealism and theism to draw out the implications for a theistic view of the world In contemporary analytic philosophy of mind naturalism is the default position for thinking about the mind in relation to the world This book argues that we should reconsider naturalistic paradigms in favor of a more holistic and bigger picture of the mind It defends a form of theistic dualism in light of varying naturalistic trends that arguably place limiting pressures on our constructive views of humans as ensouled beings The book takes seriously the notion of first person phenomenological perspectives as the starting point for constructing a metaphysical view of the world The author's arguments touch on the topics of consciousness dualism cosmic purpose science and religion and the meaning of life He proceeds to explore the implications of deconditioning on the philosophy of mind theism science and the social sciences *God Souls and Consciousness* will appeal to scholars and graduate students working in the philosophy of mind philosophy of religion religion and science and analytic theology **Making Sense of Education** David Carr, 2005-07-08 *Making Sense of Education* provides a contemporary introduction to the key issues in educational philosophy and theory Exploring major past and present conceptions of education teaching and learning

Making Sense of Nietzsche Richard Schacht, 1995 In these essays by an acclaimed Nietzsche scholar Nietzsche emerges as no mere polemicist and iconoclast but rather as a genuine philosopher one of those rare thinkers whose thought opens the way to new understanding of things of great importance particularly with respect to human life and its enhancement Clearly explains some of the debates in Nietzsche scholarship Schacht does much to avoid professional tunnel vision and invite nonprofessionals to think about Nietzsche Kathleen Higgins author of Nietzsche's Zarathustra An excellent summary and response to the current Nietzsche wars I like the way that Schacht personally attempts to expound and explain Nietzsche and take on various would be experts and mistaken commentators Robert C Solomon Quincy Lee Centennial Professor University of Texas

Philosophical

Inquiry ,2005 Forthcoming Books Rose Arny,2002 **Semantics and Social Science (Routledge Revivlas)** Graham MacDonald,Philip Pettit,2011-03-31 Originally published in 1980 this book examines the major issues in the philosophy of social science paying specific attention to cross cultural understanding humanism versus scientism individualism versus collectivism and the shaping of theory by evaluative commitment Arguing for a cross cultural conception of human beings the authors defend humanism and individualism and reject the notion that social inquiry is necessarily vitiated by an adherence to values Inclusion, Diversity, and Intercultural Dialogue in Young People's Philosophical Inquiry Ching-Ching Lin,Lavina Sequeira,2017-07-20 The ever shifting cultural and linguistic landscapes in contemporary societies create new urgency for an intersectional thematic study of diversity philosophy and education As educators how do we transform the vision of cultural and linguistic diversity into a wealth of resources for learning How do we actively engage cultural and linguistic diversities in philosophical inquiry with young people How do we translate the philosophical notion of cultural and linguistic diversity into pedagogical practices The chapters in this book respond to the task of teaching philosophy in the context of increased mobility in the new global reality By complicating the situated and fluid nature of contemporary classrooms this book challenges the normalizing tendency often associated with philosophy education Each chapter offers a unique perspective in understanding the profound embeddedness of philosophy education in broader sociocultural contexts and prioritizes diversity in the classroom community of inquiry By carefully incorporating a broad range of theoretical perspectives and empirical research this book provides a rich resource for school teachers and educators who wish to engage diverse learners in philosophical inquiry In doing so it reaffirms the value of philosophy education as a proactive approach to democratic education American Book Publishing Record ,2002 **Nineteenth Century Prose** ,2009 Tom Stoppard Daniel Keith Jernigan,2012-11-08 Tom Stoppard is justly famous for his innovative theatrical techniques Daniel Jernigan argues that while much of Tom Stoppard s early work *Rosencrantz and Guildenstern Are Dead* and *The Real Inspector Hound* for instance is postmodern the remainder of his career essentially tracks backward from there becoming late modernist in the 1970s *Travesties* and fully modernist in the 80s and 90s *The Real Thing* and *Arcadia* This pattern also makes sense of Stoppard s recent and uncharacteristic foray into dramatic realism with *The Coast of Utopia* 2002 and *Rock n Roll* 2006 at which point the playwright seems to embrace the more straightforward rhetorical advantages of literary realism Naturalism Beyond the Limits of Science Nina Emery,2023 This volume argues that when coming up with theories about what the world is like philosophers should whenever possible make use of the same methodology that is deployed by scientists Nina Emery s investigation illuminates the complex relationship between philosophy and the sciences showing how philosophers and scientists alike would benefit from a greater understanding of the connections between the two fields **Philosophy and the Study of Education** Tom Feldges,2019-03-26 Combining contributions from international academics and practitioners this new text develops students ability to philosophise as well as learn about philosophy and education It considers issues

concerned with the interface between education and wider society but goes beyond this to explore education and philosophy at a micro level the teacher learner relationship It challenges and empowers students to use philosophy as a tool within education as a set of theories to understand education and as a potential means to develop solutions to problems as they occur within practice Assuming no pre existing philosophical background Philosophy and the Study of Education explores complex topics including encouraging young people to criticise and challenge all authority the limits of a religious based education the desire for alternative facts or truths the second class status of vocational pursuits the inherent struggle in the teacher student relationship the relationship between emotion morality and autonomy in teaching Including discussion questions and further recommended reading this thought providing book will support and inspire all those on Education Studies Childhood Studies and Youth Studies courses in developing a critical perspective and understanding the true value of philosophy within education Marxism Amiya Bagchi,Amita Chatterjee,2015-06-03 This book offers a unique re conceptualization of Marxism in bringing together leading scholars across disciplines history philosophy economics politics sociology and literary and culture studies into one comprehensive corpus It demonstrates the engaging relevance of the perspectives and techniques of the analyses adopted by Karl Marx Frederick Engels and contemporary Marxists and will be immensely useful to scholars and researchers across social sciences as well as general readers interested in Marxism
