Critical Conversations in Philosophy of Education Wendy Kohli, 2013-09-13 Critical Conversations in Philosophy of Education presents a series of conversations expressing many of the multiple voices that currently constitute the field of philosophy of education Philosophy of education as a discipline has undergone several turns the once marginal perspectives of the various feminisms critical Marxism and poststructuralist postmodernist and cultural theory have gained ground alongside those of Anglo analytic and pragmatic thought Just as Western philosophers in general are coming to terms with the end of philosophy pronouncement implicit in postmodernism so too are philosophers of education faced with similar challenges challenges to long held moral political aesthetic and epistemological commitments The contributors take up these challenges through a dialogical structure expressing differing positions without engaging in destructive critique

Critics of Enlightenment Rationalism Revisited Gene Callahan, Kenneth B. McIntyre, 2022-09-10 This book provides an overview of some of the most important critics of Enlightenment rationalism The subjects of the volume including among others Pascal Vico Schmitt Weber Anscombe Scruton and Tolkien do not share a philosophical tradition as much as a skeptical disposition toward the notion common among modern thinkers that there is only one standard of rationality or reasonableness and that that one standard is or ought to be taken from the presuppositions methods and logic of the natural sciences The essays on each thinker are intended not merely to offer a commentary on that thinker but also to place the person in the context of this larger stream of anti rationalist thought

Teaching Manual for Great Catholic Writings J. D. Childs, 2006 Includes an introduction for each writing suggested grade levels related themes review questions and answers suggested activities and discussion ideas

Revisiting God Joseph B. Onyango Okello, 2008-08 Many Christians find it difficult to follow the standard arguments for God's existence Without downplaying the importance of such arguments this book tries to provide alternative reasons for believing in God reasons that could be used as supplements for the standard arguments First it notes that reasons for belief in God can be derived from one unlikely place from the lips of the unbeliever It then considers the phenomenon of answered prayer as another simple reason for belief thereby demonstrating that belief in God can be acquired not only at the theoretical level but also at the experiential level Other avenues are also explored including the state of meaninglessness in which unbelievers find themselves as well as the powerful evidence for the resurrection of Jesus Christ

Taken together these reasons make belief in God's existence quite sensible noting that all of life fundamentally hangs on it. Joseph B. Onyango Okello is the author of *The Case for Miracles: A Defense of God's Action in the World* as well as *The Quest for Truth* a book he co-authored with James W. Gustafson. He holds an MA and a PhD in Philosophy from the University of Kentucky. He also holds a Master of Divinity Degree and an MA in Church Music from Asbury Theological Seminary. He has taught philosophy at Asbury Theological Seminary, Asbury College and the University of Kentucky. In addition to his teaching duties, Joseph is also the pastor of Duncan Chapel at Jimtown in Lexington, Kentucky. He lives in Wilmore, Kentucky with his wife Sophie.

God or Godless? John W. Loftus, Randal Rauser, 2013-04-15. Perhaps the most persistent question in human history is whether or not there is a God. Intelligent people on both sides of the issue have argued sometimes with deep rancor and bitterness for generations. The issue can't be decided by another apologetics book, but the conversation can continue and help each side understand the perspectives of the other. In this unique book, atheist John Loftus and theist Randal Rauser engage in twenty short debates that consider Christianity, the existence of God, and unbelief from a variety of angles. Each concise debate centers on a proposition to be resolved, with either John or Randal arguing in the affirmative and the opponent the negative, and can be read in short bits or big bites. This is the perfect book for Christians and their atheist or agnostic friends to read together and encourages honest, open, and candid debate on the most important issues of life and faith.

Explaining Mormonism Gregory Steven Dundas, 2022-08-04. Explaining Mormonism is a thoughtful and wide-ranging discussion of the Mormon belief system. Unlike previous surveys of Latter-day Saint beliefs, Explaining Mormonism not only outlines Mormon doctrines but provides an in-depth exploration of some of their most distinctive doctrines regarding the nature of God, the purpose of life, the value of suffering, and even human sexuality. The author himself is a self-described skeptic, both by nature and by nurture, who nevertheless converted to Mormonism as a young man. He takes the reader on an exciting journey through one of the world's most controversial and perplexing religions. For Latter-day Saint readers, Explaining Mormonism will aid in strengthening their faith through its in-depth examination of the compelling logic behind the Mormon world view. For the skeptical outsider, it situates Mormon beliefs in a broad context of history, theology, philosophy, and social science and demonstrates Mormonism's ability to provide bold and compelling answers to the most fundamental questions of human existence. And for the serious student of Mormonism, it furnishes insights that only an insider can bring to some of the Latter-day Saints' most peculiar teachings.
