Feel confident and prepared by anticipating manager interview questions based on the knowledge and core competencies, skills, and abilities commonly required for success in a management job.

The knowledge requirements will vary depending on the employer, level and scope of the manager job. However, typical knowledge requirements for **managerial or supervisory jobs** include:

- business and management principles
- strategic planning
- administrative procedures
- operating systems
- cost and financial accounting and financial reports
- budgets
- organizational planning tools
- information processing applications
- relevant software applications
- human resource management principles

**Manager interview questions** around the knowledge requirements are answered by reviewing your resume or CV as they refer directly to your qualifications and work task experience.
