Black Boys are Lit Brian L. Wright, Donna Y. Ford, James L. Moore, 2021-11-01 This book of matrices with Black boys as the main character is designed to help gifted and talented education teachers leverage Black boys identities to inform and shape how they plan and deliver curriculum and instruction and manage the multicultural democratic and culturally responsive classroom Ford and colleagues 2005 spoke to the notion of and need for self reflective instruction We argue that all teachers must want to and learn how to legitimize the everyday experiences that are learned and cultivated in the homes and communities of Black boys and how these experiences shape their self identities and contribute to agency Wright Counsell without hope versus hopeful or out of control and dangerous Tatum 2005 p 28 versus developing self control like all other children Wright et al 2018

The Growing Out-of-School Time Field Helen Janc Malone, Tara Donahue, 2017-10-01 The Information Age Publishing new book series Current Issues in Out of School Time is designed with a purpose to disseminate original research and promising practices that further the OST field This first book sets the foundation on which the series rests upon by offering an analysis of the progress made since the 2000s as well as by looking toward the future for areas of considerations Leading OST experts explore latest knowledge intentionally bridging research and practice and propose new areas of inquiry within each of the following six sections 1 OST as a vehicle for young people s development 2 socio cultural dimensions of OST 3 professional development within OST 4 research and evaluation informed field 5 OST advocacy and 6 future directions for the OST field The OST field has grown considerably over the last two decades Today we have the frameworks practice and research based knowledge and tools and burgeoning paths to advance the field across multiple dimensions demographic stakeholder groups contexts systems and sectors and disciplines The hallmark of the OST field has been the ability to remain agile and adaptable to change in a way that complements the field and supports all children and young people in diverse ways This anthology is designed to be a platform for research practice discussions and future directions that could further grow sustain and improve the field We hope this book inspires both reflections and conversations on the OST field Endorsements It has been clear for some time that the so called achievement gap is driven in part by gaps in educational opportunities Providing access to high quality out of school learning experiences is one of the most important measures that can be taken to reduce disparities and level the playing field The authors in this important new book show us not only how to create such programs but why it matters to our collective future Timely relevant and readable this book is an invaluable resource for anyone seeking to close gaps in educational opportunities Pedro A Noguera PhD Distinguished Professor of Education UCLA Graduate School of Education Information Studies As the chair of the NAS NRC committee that wrote the report Community programs to support youth development I am delighted by this book When we wrote the report in 2002 there were few systematic attempts to organize and theorize the emerging field of positive youth development As the editors and chapter authors in this book make very clear a great deal has happened at all levels of

scholarship in this field over the last 15 years Both this volume and the new book series that it is initiating signal the maturing of this field from childhood through adolescence and now into emerging adulthood The breadth of work discussed in this collection is exceptionally broad ranging from psychological theorizing about the impact of youth serving programs in the out of school time period to social policy analyses of how to grow the profession of OST Youth Professionals and create steady funding streams to support OST programming All topics are critically discussed and new directions are suggested I consider this book to be required reading of all students scholars professional and practitioners in the field of positive youth development and OST programming I go even further by suggesting it be read broadly by anyone interested in the education and development of young people around the world There is no better collection available for educators parents community activists and social policy makers concerned with positive youth development I believe this collection lays a very strong foundation for achieving the goal set forth by Karen Pittman for the field to move from Where and when to what and how Jacquelynne S Eccles Distinguished University Professor of Education University of California Irvine The impressive growth of OST programs represents one of the brightest spots on the American educational landscape Importantly as this book portrays what began a series of programs and local initiatives has now grown into a maturing field with standards scholarship organizations policies and funding at the national state and local levels And more than a field OST carries the urgency energy and passion of a movement for social justice The Growing Out of School Time Field offers a comprehensive review of earlier decades of work and points the way forward for the field s future development It should be read not only by those involved in the OST field but by all educators who seek to create inclusive and powerful learning environments Policymakers as well would benefit from deeper knowledge of this movement It holds a key to preparing today s youth for an uncertain future where the nature of work is changing norms of society are shifting and multicultural global perspectives are needed Milton Chen Ph D Senior Fellow Executive Director Emeritus George Lucas Educational Foundation edutopia org Book reviews Journal of Youth Development Book Review of The Growing Out of School Time Field Past Present and Future Youth Today The Growing Out of School Time Field Past Present and Future book review
