

"Great Expectations" Summary

"Great Expectations" is one of the last novels written by Charles Dickens in 1861. It is also one of his most popular creations and has been frequently staged in theatres and on movie screens. The text was written in Dickens' "mature" years when the author critiqued the dishonest and lavish life many gentlemen of those times had led. The story has a gripping plot, but it's rather grey, sad, and doesn't end happily for most of its characters.

Dickens has incorporated a lot of his own experiences and sorrows into the "Great Expectations" book. Initially, the writer wanted to end the novel in a tragic way, however, Dickens had always been wary of sad endings—his audience appreciated the happy endings much more than the philosophical misfortunes. That's why he didn't dare to end the story on a sad note, even though the whole plot was heading towards a calamity.

"Great Expectations" is a complex literature piece and if you are challenged to read it, but still need that essay, read further for plot overview and themes or simply use our [essay writer service](#).

"Great Expectations" is a story about the life of a simple little boy, who lives through a poor childhood and into a rich adulthood, learning many lessons throughout this process. The book begins with the protagonist introducing himself:

Chapter I "My father's family name being Pirrip, and my Christian name Philip, my infant tongue could make of both names nothing longer or more explicit than Pip. So, I called myself Pip, and came to be called Pip".

Pip is an honest and simple man, but he doesn't find a place for himself in society. Even money and the rich gentleman's life didn't make him happy. Towards the end of the book, Pip will realize that his expectations and desires misled him and ruined his life: he loved a woman (Estella) who couldn't return his feelings, and he was grateful to another woman (Miss Havisham) for becoming wealthy when in fact Miss Havisham did nothing for Pip and only encouraged Estella to hurt him even more. But for now, it is all in the distant future as the story is about to unfold.

The Scriptures of Charles Dickens Vincent Newey, 2016-12-05 This study focuses on Dickens's response to questions of identity conduct and social organization that emerged in an era of major cultural unsettlement and change not least with the decline of religious certainty and the rise of materialism An analysis of *A Christmas Carol* as a paradigm of his concerns and strategies in these fields is followed by close readings of novels from different stages of his career *Oliver Twist* *David Copperfield* *Great Expectations* and *Our Mutual Friend* These and other works by Dickens are seen to reflect ideologies currently at work in his society but also more importantly to participate in the construction of needful value systems and codes for regulating behaviour Liberal humanism and middle class hegemony feature largely in this process of culture formation where Dickens played a crucial role in formulating and promulgating such salient guiding principles as those of sympathy marriage and the family economic responsibility and hierarchy within and between groups His treatment of the self is on one level driven by this project in shaping and stabilizing attitudes among a confederacy of readers in that it offers positive models of development of how to function and fit in yet on another especially in his sustained

imaginative preoccupation with the figure of the outsider or misfit this is one pre eminent area where his writing transcends purposes of enculturation and paradoxically challenges its own ideological positions His female characters in particular as well as more obviously his anti heroes criminals and other dissidents are shown to question and subvert the moulds in which they are formally cast The novels are confirmed not only as great creative achievements an aspect this book consistently salutes nor simply as a primary site of the evolving Victorian dispensation and revolution of ideas but as a territory that predicts engages and illuminates our own complex modernity Reference is made throughout the volume to other contemporary writings including sociological philosophic and medical discourse to recent cognate theory and to traditions like that of Puritan spiritual autobiography which Dickens adapted to new ends
