Microeconomic Principles and Problems Geoffrey Schneider, 2019-05-29 Microeconomic Principles and Problems offers a comprehensive introduction to all major perspectives in modern economics including mainstream and heterodox approaches Through providing multiple views of markets and how they work it will leave readers better able to understand and analyse the complex behaviours of consumers firms and government officials as well as the likely impact of a variety of economic events and policies Most principles of microeconomics textbooks cover only mainstream economics ignoring rich heterodox ideas They also lack material on the great economists including the important ideas of Adam Smith Karl Marx Thorstein Veblen John Maynard Keynes and Friedrich Hayek Mainstream books neglect the kind of historical analysis that is crucial to understanding trends that help us predict the future Moreover they focus on abstract models more than existing economic realities This engaging book addresses these inadequacies Including explicit coverage of the major heterodox schools of thought it allows the reader to choose which ideas they find most compelling in explaining modern economic realities Written in an engaging style focused on real world examples this ground breaking book brings economics to life It offers the most contemporary and complete package for any pluralistic microeconomics class

Bachelors, Manhood, and the Novel, 1850-1925 Katherine V. Snyder, 1999-09-02 Katherine Snyder's study explores the significance of the bachelor narrator a

prevalent but little recognised figure in premodernist and modernist fiction by male authors including Hawthorne James Conrad Ford and Fitzgerald Snyder demonstrates that bachelors functioned in cultural and literary discourse as threshold figures who by crossing the shifting permeable boundaries of bourgeois domesticity highlighted the limits of conventional masculinity The very marginality of the figure Snyder argues effects a critique of gendered norms of manhood while the symbolic function of marriage as a means of plot resolution is also made more complex by the presence of the single man Bachelor figures made moreover an ideal narrative device for male authors who themselves occupied vexed cultural positions By attending to the gendered identities and relations at issue in these narratives Snyder s study discloses the aesthetic and political underpinnings of the traditional canon of English and American male modernism *Sound-Blind Alex*

Benson,2023-11-14 In the 1880s a new medical term flashed briefly into public awareness in the United States Children who had trouble distinguishing between similar speech sounds were said to suffer from sound blindness The term is now best remembered through anthropologist Franz Boas whose work deeply influenced the way we talk about cultural difference In this fascinating work of literary and cultural history Alex Benson takes the concept as an opening onto other stories of listening writing and power stories that expand our sense of how a syllable a word a gesture or a song can be put into print and why it matters Benson interweaves ethnographies memoirs local color stories modernist novels silent film scripts and more Taken together these seemingly disparate texts by writers including John M Oskison Helen Keller W E B Du Bois F Scott Fitzgerald and Elsie Clews Parsons show that the act of transcription never neutral is conditioned by the histories of race land and ability By carefully tracing these conditions Benson argues we can tease out much that has been left off the record in narratives of American nationhood and American literature [Catalog of Copyright Entries.
