specifically how can teachers cover centuries of American literature with students who don't appreciate why they should read material written centuries ago about people and issues that appear to be irrelevant to life today in a language that seems esoteric. The author of this series of high school teaching guides addresses these issues. *How to Teach American Literature: A Practical Teaching Guide* provides a detailed resource for teachers or anyone interested in an in-depth study of the subject. This second book in the series covers American literature from the Puritan era to contemporary works. Included are suggestions for cultivating a love for literature, teaching techniques, detailed analyses of each work, questions for review and test questions with suggested responses, essay topics, audiovisual aids, classroom handouts, and recommended books that enhance teaching. The author emphasizes two basic reasons for teaching literature: it is instructional and delightful. This book provides a comprehensive methodology for teaching the subject that a teacher could apply to one year's lesson plans without further investment in time. Elizabeth McCallum Marlow has developed quality comprehensive guides for the teaching community based on her thirty-five years of experience and her passion for literature. Teaching professionals will find her tried and true practices to be invaluable. Johnathan Arnold, MBA, M.Ed., D.Ed., Min.
