Minority Worlds The main themes include negotiated power agency across contexts and negotiations of identity The chapters show both the heritage of childhood studies particularly within the UK and where it may be going One of the key aims of the book is to add to the limited but growing cross world dialogue that encourages cross cultural learning from research and practice in both Majority and Minority World contexts leading towards a more integrated global approach to childhood studies This book was published as a special issue of Children s Geographies

ambitions through begging Swanson argues that Calhuas s beggars are capable of canny engagement with the forces of change She also shows how frequent movement between rural and urban Ecuador has altered both masculinizing the countryside and complicating the Ecuadorian conflation of whiteness and cities Finally her study unpacks ongoing conflicts over programs to clean up Quito and other major cities noting that revanchist efforts have had multiple effects spurring more dangerous transnational migration for example while also providing some women and children with tourist friendly local spaces in which to sell a notion of Andean authenticity
