Taken together the data presented in this review and work by many other investigators support the notion that DNA excision
repair is important in a tumor cell s resistance to platinum compounds Inhibition of this repair system by combination
chemotherapy with the excision repair inhibitors HU and Ara C produces synergistic cell kills and increased levels and
persistance of DNA interstrand crosslinks The studies with cis DDP and DDP in combination with UV induced thymine dimers
suggest that there may be competition for DNA repair enzymes between the dimer and the platinum lesion Whether the
competing lesion is an intrastrand crosslink interstrand crosslink or platinum monoadduct or all of these lesions cannot be
determined The similarity between an intrastrand crosslink and a cyclobutane dimer suggests that these lesions may
compete for repair However the increased peak levels of interstrand crosslinks and increased persistence of these lesions at
later time points suggest that this lesion may also be a substrate for the repair system These observations may be of clinical
relevance Recently Dr Kathy Albain of our institution has completed a Phase III I study using a 12 hour pretreatment with HU
and Ara C in patients prior to their cis DDP therapy She observed a significant number of responders in this trial 54 She is
currently completing a second Phase IIII study substituting IV HU for the oral formulation We anticipate initiating other
clinical trials based upon these observations *The Theological Role of Paradox in the Gospel of Mark* Laura C.
Sweat,2013-10-10 Scholarship on the Gospel of Mark has long been convinced of the paradoxical description of two of its
primary themes christology and discipleship This book argues that paradoxical language pervades the entire narrative and
that it serves a theological purpose in describing God s activity Part One focuses on divine action present in Mark 4 10 12 In
the first paradox Mark portrays God s revelatory acts as consistently accompanied by concealment The second paradox is
shown in the various ways in which divine action confirms yet counters scripture Finally Mark describes God s actions in
ways that indicate both wastefulness and goodness deeds that are further illuminated by the ongoing yet defeated presence
of evil Part Two demonstrates that this paradoxical language is widely attested across Mark s passion narrative as he
continues to depict God s activity with the use of the three paradoxes observed in Mark 4 Through paradoxical narrative
Mark emphasizes God s transcendence and presence showing that even though Jesus has brought revelation a complete
understanding of God remains tantalizingly out of their grasp until the eschaton 4 22 *Report of the Auditor of the State of*
