Language And Identity Discourse In The World:

Language and Identity David Evans, 2014-12-18 Language not only expresses identities but also constructs them Starting from that point Language and Identity examines the interrelationships between language and identities It finds that they are so closely interwoven that words themselves are inscribed with ideological meanings Words and language constitute meanings within discourses and discourses vary in power The powerful ones reproduce more powerful meanings colonize other discourses and marginalize or silence the least powerful languages and cultures Language and culture death occur in extreme cases of marginalization This book also demonstrates the socio economic opportunities offered by language choice and the cultural allegiances of language where groups have been able to create new lives for themselves by embracing new languages in new countries Language can be a double edged sword of opportunity and marginalization Language and Identity argues that bilingualism and in some cases multilingualism can both promote socio economic opportunity and combat culture death and marginalization With sound theoretical perspectives drawing upon the work of Bakhtin Vygotsky Gumperz Foucault and others this book provides readers with a rationale to redress social injustice in the world by supporting minority linguistic and cultural identities and an acknowledgement that access to language can provide opportunity

Language and Identity in the Arab World Fathiya Al Rashdi, Sandhya Rao Mehta, 2022-09-05 Language and Identity in the Arab World explores the inextricable link between language and identity referring particularly to the Arab world Spanning Indonesia to the United States the Arab world is here imagined as a continually changing one with the Arab diaspora asserting its linguistic identity across the world Crucial questions on transforming linguistic landscapes the role and implications of migration and the impact of technology on language use are

explored by established and emerging scholars in the field of applied and socio linguistics The book asks such crucial questions as how language contact affects or transforms identity how language reflects changing identities among migrant communities and how language choices contribute to identity construction in social media As well as appreciating the breadth and scope of the Arab world this anthology focuses on the transformative role of language within indigenous and migrant communities as they negotiate between their heritage languages and those spoken by the wider society Investigating the ways in which identity continues to be imagined and re constructed in and among Arab communities this book is indispensable to students teachers and anyone who is interested in language contact linguistic landscapes and minority language retention as well as the intersections of language and technology

Rationality and Interpretation David Evans,2022-09-08 Taking a unique approach which combines sociolinguistics with theoretical linguistics this book presents a view of language and grammar as both a cognitive and socio cultural phenomena Beginning with Bakhtin s theories of conceptual grammar and lexico grammar this book encompasses a broad philosophical range engaging with the ideas of key figures such as Bergson Chomsky Derrida and Wittgenstein Drawing on their work it investigates how language progresses from an inner reflection of the rational mind to develop social and ideological aspects as it interacts with culture In doing so it shows how identity is unitary and rational at the linguistic core whilst multiple social identities are simultaneously shaped by linguistic differences at the cultural peripheries Encompassing theoretical linguistics cognitive linguistics discourse analysis multilingualism sociolinguistics and semiotics Rationality and Interpretation demonstrates how the different branches of linguistics can complement each other and highlights the socio cultural influences of language development as well as how language development is shaped by those influences

Identity Discourses and Canadian Foreign Policy in the War on Terror Taylor Robertson McDonald, 2023-03-17 This book examines how popular narratives of Canadian identity became implicated in Canada's foreign policy in the Global War on Terror McDonald argues that Canada's decisions to join the 2001 Afghanistan War yet abstain from the 2003 Iraq War became politically possible because parliamentarians linked these policies to similar narratives of an enduring Canadian identity even while re imagining their meanings These decisions are explored through politicians mobilization of three discourses Canada as America's neighbour Canada as protector of foreign civilians and Canada as a champion of multilateralism This book challenges conceptions of national identity as entirely stable or fluid and contests predominant arguments that downplay the role of identity discourses in Canadian foreign policy The relevance of these narratives is assessed by exploring the rhetoric of Canadian foreign policy in light of contemporary international challenges including the Donald Trump presidency the COVID 19 pandemic and Russia's War on Ukraine

The Social Psychology of English as a Global Language Robert M. McKenzie, 2010-08-18 This ground breaking work is a detailed account of an innovative and in depth study of the attitudes of in excess of 500 Japanese learners towards a number of standard and non standard as well as native and non native varieties of English speech The research conducted refines the investigation of learner attitudes by employing a range of pioneering techniques of attitude measurement These methods are largely incorporated from the strong traditions that exist in the fields of social psychology and second language acquisition and utilize both direct and indirect techniques of attitude measurement

The author locates the findings in the context of the wealth of literature on native speaker evaluations of languages and language varieties. The study is unique in that the results provide clear evidence of both attitude change and high levels of linguistic awareness among the informants of social and geographical diversity within the English language. These findings are analyzed in detail in relation to the global spread of English as well as in terms of the pedagogical implications for the choice of linguistic model employed in English language classrooms both inside and outside Japan. The issues examined are of particular interest to educators, researchers and students in the fields of applied linguistics, TESOL, second language acquisition, social psychology of language and sociolinguistics. The pedagogical and language policy implications of the findings obtained make essential reading for those with a specific focus on the role of the English language and English language teaching both in Japan and beyond.

Metalinguage and Identity David Evans, Manel Herat, 2025-09-18 How does language attain to rear view reflection and then timeless analysis? How does language garner its conceptualisation in order to do this? This book is an exploration of the process in which everyday narrative language can become reflective and then analytical. Narrative language is viewed as a way of becoming within the flow of time and therefore life. Evans and Herat show that there are levels in language that correspond with conceptual structures existing in the mind and in wider society which shape the formation of a metalanguage. They explore how metaphor is an important creative tool in raising language to a more conceptual level in the constitution of a metalanguage. The book considers the development of different strands of metalanguage for example mind based logic, physically based metaphor and universal grammar to provide a fuller account of language and identity by challenging sweeping existential accounts of language. By studying the formation and application of metalanguage the authors show it can help develop a more questioning dialogic critical pedagogy in education to accustom students to develop critical awareness.

Language, Identity and Contemporary Society Rajesh Kumar, Om Prakash, 2018-11-30 This book explores the instrumentality of language in constructing identity in contemporary society. The processes of globalization, hyper mobility, rapid urbanization and the increasing desire of local populations to be linked to the global community have created a pressing need to reconfigure identity in this new world order. Following the digital revolution, both traditional and new media are dissolving linguistic boundaries. The centrality of language in organizing communities and groups cannot be overstated; our social order is developed alongside our linguistic allegiance, shared narratives, collective memories and common social history. Keeping in mind the fluidity of identity, the book brings together fourteen chapters providing cultural and social perspectives. The ideas reflected here draw on a range of disciplines such as psychology, sociology, anthropology, cultural studies, the politics of language and linguistic identity.

Language, Identity, and Syrian Political Activism on Social Media Francesco L. Sinatora, 2019-09-04 *Language Identity and Syrian Political Activism on Social Media* is an empirical contemporary Arabic sociolinguistic investigation informed by theories and notions developed in the fields of Arabic linguistics, sociolinguistics, discourse analysis and linguistic anthropology. Building on the

Bakhtinian concept of linguistic hybridity this book conducts a longitudinal analysis of Syrian dissidents social media practices between 2009 and 2017 It shows how dissidents have used social media to emerge in the discourse about the Syrian conflict and how language has been used symbolically as a tool of social and political engagement in an increasingly complex sociopolitical context This monograph is ideal for students sociolinguists and researchers interested in Arabic language and identity

Language, Identity and Symbolic Culture David Evans, 2018-05-31 Language is integral to the construction of personal socio cultural and socio political identities Language Identity and Symbolic Culture closely investigates the relationship between language and identities offering a comprehensive yet progressive view of how linguistics relates to development and education both in theoretical and real world applications Progressing from a theoretical core examining the connection between language and individual identity this book moves on to look at the wider socio political discourse involving the marginalization and resistance of communities in the world Beginning with the philosophical paradigms of language Evans questions whether language shapes personal identities in its daily use or whether language is simply a tool for describing rather than creating the world Extrapolating on this the contributors utilise case studies from across the globe to see how these linguistic perspectives are played out in the real world considering the role of language in issues surrounding power colonization marginalization and education Language Identity and Symbolic Culture offers a view of language identity conflicts around the world and an understanding of the opportunities of political and cultural emancipation created through language and open discourse

Language, Gender and Sexual Identity Heiko Motschenbacher, 2010 This book makes an innovative contribution to the relatively young field of Queer Linguistics Subscribing to a poststructuralist framework it presents a critical deconstructionist perspective on the discursive construction of heteronormativity and gender binarism from a linguistic point of view On the one hand the book provides an outline of Queer approaches to issues of language gender and sexual identity that is of interest to students and scholars new to the field On the other hand the empirical analyses of language data represent material that also appeals to experts in the field The book deals with repercussions of the discursive materialisation of heteronormativity and gender binarism in various kinds of linguistic data These include stereotypical genderlects structural linguistic gender categories especially from a contrastive linguistic point of view the discursive sedimentation of female and feminine generics linguistic constructions of the gendered body in advertising and the usage of personal reference forms to create characters in Queer Cinema Throughout the book readers become aware of the wounding potential that gendered linguistic forms may possess in certain contexts
