LASIK Emergencies: A Video Primer Samir A. Melki, Ali Fadlallah, 2024-06-01 Femtosecond assisted laser in situ keratomileusis flaps have revolutionized refractive surgery since their introduction The use of the femtosecond laser to create the LASIK flap has led to an improvement in the safety profile of the flap creation step as compared to the mechanical microkeratome Although this laser is exceedingly safe complications still do occur LASIK Emergencies A Video Primer focuses specifically on the different flap complications that are still known to occur and their management Designed as a narrated video based book of ophthalmic surgeries LASIK Emergencies covers the entire spectrum of Intralase flap complications With 15 chapters this book and accompanying website contains nearly 4 hours of state of the art video teaching Drs Samir Melki and Ali Fadlallah

have designed LASIK Emergencies so that each chapter focuses on a specific complication and its management and features multiple videos for each. Each video is edited in such a way that the viewer can quickly grasp all the relevant information without having to sit through extensive unedited surgical videos. Some Complications Covered: Loss of suction, Air bubbles in the Anterior Chamber, Irregular Flaps, Subconjunctival hemorrhage and bleeding. Ophthalmologists, laser ophthalmic technicians, and optometrists alike will appreciate this unique resource. **LASIK Emergencies A Video Primer** covers the entire spectrum of LASIK complications in a detailed yet digestible manner. **Optics for the New Millennium** Kamran M. Soledad Cortina, Joelle A. Hallak, 2019-08-25. Astigmatism means the eye is shaped like a rugby ball, so light is focused at more than one place in the eye. It is associated with short or long

sightedness and can cause blurry vision headaches and eye strain Astigmatism is usually corrected with glasses or contact lenses This book is a complete guide to the surgical management of astigmatism Based on scientific evidence and practice the text covers numerous diagnostic and treatment techniques for both regular and irregular astigmatism including laser surgery and incisional and intraocular lenses Each procedure is explained in detail describing new diagnostic technologies patient selection methods and limitations across applications Authored by an internationally recognised team of experts the comprehensive text is further enhanced by more than 350 clinical photographs diagrams and figures Key points Complete guide to surgical management of astigmatism Covers techniques for both regular and irregular astigmatism including laser surgery Internationally recognised team of expert authors Highly illustrated with clinical photographs diagrams and figures

Chicago, 2008 *The British National Bibliography* Arthur James Wells, 2007 American Book Publishing Record, 2005 *Customized Laser Vision Correction* Mazen M. Sinjab, Arthur B. Cummings, 2018-06-04 This book addresses customized laser vision correction an integral management option for the treatment of irregular corneas This type of treatment reshapes the corneal surface in order to improve both the quality and the quantity of vision by reducing high order aberrations Beginning with an introduction to the basics of this science each type of customized laser vision correction is discussed in a clear and didactic format for rapid attainment of information Throughout this practical clinical guide examples are supported with the most recent scientific material and a step by step systematic methodology is included to fit all levels of ophthalmologists

Root Cause Analysis and Improvement in the Healthcare Sector Bjørn Andersen, Marti Beltz, 2009-11-09 Healthcare organizations and professionals have long needed a straightforward workbook to facilitate the process of root cause analysis RCA While other industries employ the RCA tools liberally and train facilitators thoroughly healthcare has lagged in establishing and resourcing a quality culture Presently a growing number of third party stakeholders are holding access to accreditation and reimbursement pending demonstration of a full response to events outside of expected practice An increasing number of exceptions to healthcare practice have precipitated a strong response advocating the use of proven quality tools in the industry In addition the industry has now expanded its scope beyond the hospital walls to many ancillary healthcare facilities with little experience in implementing quality tools This book responds to the demand for a RCA workbook written specifically for healthcare yet still broad in its definition of the industry This book contains everything that the typical RCA leader in healthcare requires A text specific to healthcare but using the broadest definition of the industry to include not only acute care hospitals but rehabilitation facilities long term care facilities outpatient surgery centers ambulatory services and general office practices A workbook style format that walks through the process step by step Straightforward text without sidebars tables and tips Worksheets are provided at the end of the book to reduce reader distraction within the text A wide range of real world examples Format for use by the most naive of users and most basic of processes as well as a separate section for more advanced users or more complex issues Templates both print

and electronic included for the reader's use Ready to use educational materials with scripting to enable the user to train others and garner support for the use of the techniques Background text for users in leadership to understand the tools in the larger context of healthcare improvement Up to date information on the latest in the use of RCA in satisfying mandatory reporting requirements and slaying the myth that the process is onerous and fraught with barriers Background text and tools process are separated to facilitate the reader's specific needs Healthcare leaders can appreciate the current context and requirements without wading through the actual techniques end users can begin learning the skills without wading through dense administrative text Language and tone promoting the use of the tools for improvement of processes that have experienced exceptions as opposed to assigning blame for errors Attention to process ownership training and resourcing And most importantly thorough description of the improvement process as well as the analysis
