Laudato Si Sauvegarde Lamaison Commune Ebook:

Mother Earth, Mother Africa and Mission Seblewengel Daniel, Mmapula Diana Kebaneilwe, Angeline Savala, 2021-07-01
The volume is significant in bringing together voices of African women theologians and their allies on the urgent topic of ecology. First it decisively intervenes into scholarly discourses on ecofeminism by highlighting the reflections of African women scholars and African women as subjects. This function of the volume is very important both at local and global levels. Second it contributes to contextualizing of scriptural interpretation around the issue of ecology. Biblical reflection occurs throughout the volume and is put into dialogue with African traditions with ecofeminism with Africa based mission projects and with the current crisis of sustainability and African women's roles in protecting the earth. Third the volume includes several concrete case studies based on interviews and grassroots qualitative research as well as especially original articles that integrate biblical exegesis of Genesis with reflections on patriarchal legal systems in Botswana and an original take on male headship in relation to ecofeminism. Professor Dana L. Robert Boston University USA *Political Education in the Anthropocene* Nathanaël Wallenhorst, Renaud Hétier, Jean-Philippe Pierron, Christoph Wulf, 2023-10-19 This book articulates an educational theory as well as a political theory of the Anthropocene. Divided into three sections it addresses educational anthropology, cultures and institutions and educational recommendations in the Anthropocene. Topics covered in the volume measure the impact of the idea of the Anthropocene on the type of anthropology that underlies education and on a phenomenology of relationship. It links the notion of the Anthropocene with cultures and institutions so as not to smooth out or erase the latter. Finally it presents proposals and recommendations for educational practices. The work advocates rethinking education as an essential component in ensuring the sustainability of human life in society by proposing to go beyond the approach of education for sustainable development or environmental education. The work also brings together empirical contributions in which proposals are elaborated for programs, pedagogical devices and experiments relating to the preparation of the future in the field of education. This volume is of interest to researchers of the Anthropocene. Loué sois-tu Pape François, 2015-06-22 J'adresse une invitation urgente, un nouveau dialogue sur la façon dont nous construisons l'avenir de la planète. Nous avons besoin d'une conversion qui nous unisse tous parce que le défi environnemental que nous vivons et ses racines humaines nous concernent et nous touchent tous. J'espère que cette Lettre encyclique qui s'ajoute au Magistère social de l'Église nous aidera reconnaître la grandeur, l'urgence et la beauté du défi qui se présente nous. Une longue réflexion, à la fois joyeuse et dramatique, pour que nous chrétiens nous sachions assumer les engagements que nous propose l'Évangile de Jésus en faveur de la création. Un appel tous prendre soin et de la maison commune et de chacun de ceux qui l'habitent. Face à l'exploitation violente de la terre et des hommes, le pape rappelle les consciences pour susciter le respect et l'admiration de la création et de toutes ses créatures jusqu'aux plus petits d'entre les hommes. quences **Sortir de l'impasse** Thierry Lefèvre, 2016-11-17T00:00:00-05:00 S'il est vrai que au fil des d'ennées les pays riches ont largement profité de la croissance économique nous constatons que la logique de développement dominante constitue maintenant une menace pour notre civilisation. Au-delà de l'incurie et de la cupidité humaine nous faisons preuve d'une incapacité chronique à lever les obstacles qui nous empêchent d'amorcer une transition vers une société écologique et durable. C'est en repensant tout à la fois la démographie planétaire les habitudes de consommation les modes de vie le rôle de la technologie la gouvernance et l'économie que nous pourrions tirer notre pingle du jeu. L'analyse proposée ici nous permet d'entrevoir des stratégies afin de sortir de l'impasse dans laquelle nous sommes piégés. **Les 5 cercles de la résilience** Emmanuel Contamin, 2021-02-17 Pandémie crise sociale et environnementale peur de l'effondrement les ondes de choc se multiplient et ravalent notre vulnérabilité. Comment y faire face sans perdre notre humanité ? Dans cet ouvrage le Dr Emmanuel Contamin s'appuie sur son expérience de psychiatre spécialiste des troubles post-traumatiques pour expliquer qu'il existe plusieurs types de résilience cette capacité à résister aux chocs et aux traumatismes et en ressortir non pas victimes impuissantes ou survivants durcis mais comme des vivants la résilience personnelle la résilience familiale la résilience collective la résilience des nations et celle de l'écosystème qui sont toutes liées et s'influencent mutuellement. Ainsi en améliorant l'une de ces résiliences c'est la résilience globale des individus et de l'écosystème que l'on renforce créant alors un cercle positif. Quelle source d'espoir ? Au fil des chapitres ponctués d'exercices concrets le Dr Contamin nous montre comment activer puis renforcer les différentes résiliences afin de cheminer et nous engager notre chelle vers un mieux-être qui bénéficiera autrui comme notre environnement. la fois réaliste sur les défis que nous devons affronter et porteur d'espoir et d'engagement ce livre est une véritable bouffée d'air frais tout autant qu'un appel à l'action. *Entreprendre autrement* Guillaume Mingiebe Kabamba, 2023-03-21 Face aux exigences de l'évangélisation l'Église doit disposer de moyens humains matériels et financiers substantiels. Elle doit être créative et visionnaire former sérieusement son personnel et investir économiquement tenant compte du contexte socio-politique et économique de sa mission. L'expérience de l'Église en République démocratique du Congo marquée par la mauvaise gestion des biens temporels dans un état en crises multisectorielles invite à repenser et entreprendre autrement la gestion de ces biens. Quelques perspectives susceptibles de contribuer à l'autonomie économique de ces Églises particulières sont proposées : connaissance et application rigoureuse de la loi canonique civile et conventionnelle ; dialogue la gestion des biens diocésains ; usage des documents comptables de base ; lutte contre la corruption et recours à la sanction canonique et civile. Le but est de mettre fin à la dépendance économique et donc au statut canonique de jeunes Églises des diocèses congolais et d'atteindre une autonomie de décision et d'action. **En chemin pour la sauvegarde de la Maison commune** Église catholique.
