Preach the Word Myles MacBean, 2019-11-11 How should we help equip the church leaders of Africa today There remains a well documented lack of theologically sound Bible centric preaching in Sub Saharan Africa The majority of sermons are preached by untrained or undertrained church leaders Following a practical theology praxis this book develops a conceptual framework for the evaluation of existing alternative approaches to grassroots preacher training It also proposes broad principles for effective preacher training and offers a practical solution The 20th century had seen the Christian church in Africa grow 36 fold to 360 million This amazing growth is arguably the largest religious change in human history in such a short period It has shifted the focus of Christianity from North to South This rapid growth is debatably considered by some missiologists and theologians to have resulted in an African church a mile wide and an inch deep That is a church of great size but lacking in spiritual depth The rapid growth has led to insufficient numbers of trained leaders being available to oversee their congregations Most leaders are unpaid Untrained or undertrained leaders have an inadequate knowledge of scripture and lack understanding of its interpretation They also lack the skills they need to communicate its truths Even so they preach up to 90% of the sermons in rural Africa Despite a tremendous hunger for training among many of those preachers traditional college based theological education cannot keep up with the demand for trained pastors and preachers in an affordable or culturally appropriate manner

Spoilt for Choice: How senior managers select professional advisors Wienke Seeger, 2019-11-04 How do senior executives such as CEOs and CFOs interact select and appoint professional advisors Based on a successful PhD project the research in this book explores the interactions between advisors of large professional service firms and senior executive clients on an evidence based academic level The research journey and the

author's reflections are charted step by step providing an example of how to analyse unstructured qualitative data reach theoretical saturation and capture emerging substantive theories Moreover by taking a unique holistic and inductive approach this study offers a series of practical insights on how to combine and apply Kathy Charmaz constructivist grounded theory with an auto ethnographic stance Divided into eight chapters the author uses empirical data and rigorous analysis to uncover two distinct decision making processes namely a the client's decision to develop and maintain a relationship with the advisor and b to select and appoint the advisor for a particular project or services Mapping these to one common conceptual framework a second complementary model emerges a type of decision making matrix with the foci competitiveness skills and merit continuity and embeddedness control and manage and trust and empathy which offers the reader an alternative perspective of client decision making This book will be useful for practitioners and researchers alike who have an interest in understanding either naturalistic decision making processes the complexities of relationship development and procurement dynamics as well as applied qualitative research methods

Ethics and Governance in Sport Yves Vanden Auweele, Elaine Cook, Jim Parry, 2015-11-06 What is or what should be the function of sport in a globalized commercialized world Why does sport matter in the 21st century In *Ethics and Governance in Sport* the future of sport imagined an ensemble of leading international experts from across the fields of sport management and ethics calls for a new model of sport that goes beyond the traditional view that sport automatically encourages positive physical psychological social moral and political values Acknowledging that sport is beset by poor practice corruption and harmful behaviors it explores current issues in sport ethics governance and development considering how good governance and the positive potentials of sport can be implemented in a globalized sporting landscape *Ethics and Governance in Sport* suggests a future model of sport governance based on well substantiated projections and argues that identifying the root causes of harmful behavior those things that are characteristic of sport and engaging sport managers policy makers and leaders of sport organizations is essential if sport is to thrive The book's interdisciplinary examination of sport encompassing philosophy sociology economics management and sport development and its forward looking approach makes it important reading for advanced students researchers and policy makers with an interest in the place and development of modern sport Its clear messages invite self reflection and discussion especially within sports organizations

Re-imagining Indigenous Knowledge and Practices in 21st Century Africa Tenson M. Muyambo, Anniegrace M. Hlatywayo, Pindai M. Sithole, Munyaradzi Mawere, 2022-01-13 This book is on the re imagination of Indigenous Knowledge Systems IKS and practices in 21st century Africa Framed from an anti colonial perspective the book critically interrogates epistemological erasures and injustices meted against African IKS and practices It magnifies the different contexts where African IKS were and continue to be used effectively for collective and personal benefit Beyond the legitimate frustration and disheartenment expressed by the contributors to this volume over the systematic colonial efforts to render inferior and delegitimize African systems of knowing and knowledge production the

book makes an important contribution to the quest to correct misconceptions and misrepresentations by Eurocentric thinkers and practitioners about African indigenous knowledges The book makes an informed claim that the future and vibrancy of African indigenous knowledge and practices lie in how well scholars of knowledge studies and decoloniality in and on Africa are able to join hands in articulating debating and fronting their vitality and relevance in varied real life situations More importantly the book provides a re invigorated overview and nuanced analyses of the important role and continued relevance of African IKS and practices in the understanding interpreting and tackling of the social unfoldings of everyday life and dynamism Without romanticising African IKS and practices the book provides added insights and pointers on policy and trends It is an important addition to critical debates on knowledge studies across fields Neoliberalism, Nordic Welfare States and Social Work Masoud Kamali, Jessica Jönsson, 2018-04-17 How have three decades of neoliberalism affected the Nordic welfare states as well as the organisation education and practices of social work in those countries During recent decades the welfare states of Denmark Finland Norway and Sweden have gone through dramatic changes influenced by the political triumph of neoliberalism This has led to both the electoral success of extreme right and mainstream neoliberal parties and to the neoliberal ideological transformations of social democratic parties The neoliberal doctrine of making governance cheaper has thus been made the focus of governance and has led to increased marginalisation and social problems This is the first book to comparatively explore the role of neoliberal reforms on social work and social policy across the Nordic welfare states The richly theoretical and empirical chapters explore and illustrate the consequences of the dominance of neoliberal policies and provide an analysis of the effects of globalisation glocalisation welfare nationalism symbolic violence and forced migration The book provides valuable insights into the shortcomings of retreating welfare states in a time of increasing glocal social problems Neoliberalism Nordic Welfare States and Social Work should be considered essential reading for critical social work education Students scholars educators and researchers of Nordic countries and beyond have much to learn from this book Epilepsy Management in African Society Ngonidzashe Mutanana, 2024-10-15 The majority of Africans have refused to accept the Western definition of epilepsy or causes of epilepsy To this end they have chosen the traditional mode in dealing with epilepsy In this book the author explores the various indigenous health seeking behaviours of people with epilepsy in Africa and there are some specific case studies in Zimbabwe a country located within the southern region of Africa These cases studies clearly show the perceptions attitudes and knowledge of Africans towards anti epilepsy medication lived experiences of Africans on anti epilepsy medication indigenous practices in epilepsy management and perceptions of Africans towards the effectiveness of indigenous health seeking behaviours on epilepsy management Finally the researcher proffers a model that he thinks will assist towards the management of epilepsy that encompasses both traditional and western medications This book also explores the sustainability of epilepsy management within the context of indigenous health practices the use of complementary or

alternative medicines and the Ubuntu philosophy and indigenous practices on epilepsy management in African societies

Mobility as Capability Nikhila Menon, 2021-09-30 This book highlights accounts of women workers to capture the domains of gendered mobility which challenges the exalted status conferred on women in the Kerala model of development. It contests and deconstructs the development discourse which considers women's work mobility as an indicator of autonomy and agency using the Capability Approach. The concept of transformational mobility and its measurement introduced in the book advances the understanding of mobility autonomy and agency and the intersectionality in the context of gender and work. Through an in-depth exploration of lived experiences of informal women workers, the author illustrates how patriarchal structures are shaped and reinforced by work places, markets and the state. The central question is: can we steer development policies to facilitate collective capabilities for women where informal work arrangements are becoming the norm?

Therapeutic Keys to Self-Actualization in Homer's Demeter Lindy McMullin, 2019-01-15 This book is the result of a study that investigated the effects that myth in sacred text may have on personal, professional and transpersonal development. To ensure maximum impact in terms of imagery enhancing properties, Homer's Hymn to Demeter was read accompanied by lyre music in a therapeutic setting and the resulting experiences examined. The author, a clinician as well as researcher, succeeds in extracting personal epiphanies that have the potential to change perceptions and contribute to a healing process. This book is a courageous and novel attempt to integrate ancient wisdom with modern scientific inquiry that honours all levels, states and structures of consciousness within both the researcher and the study's participants. It documents the deep inner preparatory work the author undertook prior to executing the study to situate herself in the historical context and prepare her psyche at a fundamental level to as authentically as possible receive the data, perceptions and experiences from participants. Skill and creativity are also apparent with regard to the nuanced, sophisticated manner of data collection and analysis, not only with words but with accompanying drawings that depict the data in a unique manner that illuminates the many ways of knowing and expressing understanding. Moreover, the inclusion of a glossary helps navigate the reader through a delightfully rich and full experience. Throughout the text, the focus of the inquiry investigating the application of ancient Greek myth and music in personal, professional and transpersonal development is reinforced. This work portrays a deep respect for the many ways of knowing inherent in the human species, calling for a revision of sacred script and its benefits in education and psychology. This book is sure to appeal to scholars, clinicians and educators as well as the educated lay reader.

The Role of Procurement Professionals in Industrial Projects Mario Büsch, 2014-04-23 This doctoral thesis deals with the role of procurement professionals in industrial projects. The role of procurement in industrial manufacturing has attracted considerable attention over the last several years; however, the role of procurement in projects is rather underresearched. From a project management point of view, procurement is mainly considered a transactional task and remarkably few project management standards consider procurement at all. To overcome this gap, a Procurement Project Involvement Matrix has

been developed Building on this matrix a Project Procurement Organisation Model for procurement experts involved into industrial projects was developed too In general the project procurement job tasks framework as well as the Project Procurement Organisation Model will help to implement improve and audit the involvement level of procurement in projects

Gender, Power and Restorative Justice Jodie Hodgson,2022-01-26 This book ties restorative justice into the exercise of patriarchal power It is focused on the individual narratives of 15 girls and young women who have participated in a victim offender restorative justice RJ conference and the perspectives of youth justice practitioners Gender Power and Restorative Justice expands feminist engagement with RJ by focusing critical attention on the importance of the social construction of gender the exercise of power shame stigma muting and resistance to girls experiences of RJ conferencing Drawing upon recent developments to the sociology of stigma and feminist perspectives on shame the book contends that RJ conferencing can produce harmful implications for girls and young women who participate Ultimately it is argued that anti carceral social policy alternatives underpinned by feminist praxis should replace a youth justice jurisprudence for girls This book will be of particular use and interest to those studying modules on criminology youth justice criminal justice and social work courses

Male Eating Disorders Russell Delderfield,2018-12-05 This book takes a novel approach to the study of male eating disorders an area that is often dominated by clinical discourses The study of eating disorders in men has purportedly suffered from a lack of dedicated attention to personal and socio cultural aspects Delderfield tackles this deficiency by spotlighting a set of personal accounts written by a group of men who have experiences of disordered eating The text presents critical interpretations that aim to situate these experiences in the social and cultural context in which these disorders occur This discursive work is underpinned by an eclectic scholarly engagement with social psychology and sociology literature around masculinities embodiment and fatness belonging punishment stigma and control leading to understandings about relationships with food body and self This is undertaken with a reflexive element as the personal intersects with the professional This text will appeal to students scholars and clinicians in social sciences humanities and healthcare studies including public health
