Latino Metropolis Globalization And Community:

Latino Metropolis Victor M. Valle, Rodolfo D. Torres, 2000 Los Angeles scratch the surface of the city's image as a rich mosaic of multinational cultures and a grittier truth emerges its huge shimmering economy was built on the backs of largely Latino immigrants and still depends on them This book exposes the underside of the development and restructuring that have turned Los Angeles into a global city and in doing so it reveals the ways in which ideas about ethnicity Latino identity itself are implicated and elaborated in the process A penetrating analysis of the social economic cultural and political consequences of the growth of the Latino working class populations in Los Angeles *Latino Metropolis* is also a nuanced account of the complex links between political economy and the social construction of ethnicity Lifting examples from recent news stories political encounters and cultural events the authors demonstrate how narratives about Latinos are used to maintain the status quo particularly the existing power grid in the city In media representations of riots in the recasting and whitening of Mexican food as Spanish American cuisine in the community displacement that occurred as part of the development of the Staples Center in telling instances large and small we see how Los Angeles and its Latino population are mutually transforming And we see how an old Latino politics of racial identity is inevitably giving way to a new politics of class Combining political and economic insight with trenchant social and cultural analysis this work offers the clearest statement to date of how ethnicity and class intersect in defining racialized social relations in the contemporary metropolis

Mobile Urbanism Eugene McCann, Kevin Ward, 2011 How knowledge and power flow between places and impact cities worldwide

Remaking New York William Sites, 2003

El Paso Victor M. Ortíz-González, 2004 A grounded and instructive analysis of the ways globalization affects a border city Every marker of social difference can be easily interpreted in the fashionable language of borderlands and if so as Victor M Ortiz Gonzalez reveals the practical reality of the border region is often grossly misrepresented and its people woefully served He argues that amid the tantalizing abstractions generated by the sweeping reconfigurations of globalization people in cities like El Paso and Ciudad Juarez on the U S Mexican border are actually living the gritty realities of a new world order With descriptions of grassroots initiatives to confront the challenges and opportunities that NAFTA represents for the city El Paso challenges us to acknowledge and address the conceptual and sociopolitical tasks of a world in which abstract representations and nonlocal interests override concrete situations Ortiz Gonzalez also provides an indepth analysis of groups such as La Mujer Obrera Unite El Paso and the Hispanic Chamber of Commerce and their attempts to give local residents and workers more autonomy and power Balancing ethnographic detail with precise theoretical insights El Paso offers a compelling case study and a stirring call to understand both the conceptual challenge and the social urgency of the effects of globalization in local settings
