Latoya Ruby Frazier - the Notion of Family Lesley A. Martin, 2016 LaToya Ruby Frazier: the Notion of Family
LaToya Ruby Frazier, 2016 Now available in a paperback edition LaToya Ruby Frazier's award winning first book *The Notion of Family* offers an incisive exploration of the legacy of racism and economic decline in America's small towns as embodied by her hometown of Braddock Pennsylvania. The work also considers the impact of that decline on the community and on her family creating a statement both personal and truly political an intervention in the histories and narratives of the region. Frazier has compellingly set her story of three generations her Grandma Ruby her mother and herself against larger questions of civic belonging and responsibility. The work documents her own struggles and interactions with family and the expectations of community and includes the documentation of the demise of Braddock's only hospital reinforcing the idea that the history of a place is frequently written on the body as well as the landscape. With *The Notion of Family* Frazier knowingly acknowledges and expands upon the traditions of classic black and white documentary photography enlisting the participation of her family and her mother in particular. In the creation of these collaborative works Frazier reinforces the idea of art and image making as a transformative act a means of resetting traditional power dynamics and narratives both those of her family and of the community at large.

Solarities Cymene Howe, Jeff Diamanti, Amelia Moore, 2023 *Solarities: Elemental Encounters and Refractions* is a transdisciplinary essay collection that explores the physical conceptual and political possibilities materialized by solarity a form of relation to the sun and its elemental force upon planetary life The authors propose that a different set of questions becomes possible when the material specificities of solar become the compass for thought prompting us to uncover our relationship to the sun How does solarity materialize in the bodies and lives of humans and non humans now and in the future What can we learn if we no longer take the sun for granted How do we continue to persist on a planet that is so intimately bound up in a state of love fear and dependence on this primary source of all living energy Each of the essays in *Solarities* take solar radiation as an interpretive lens that takes multiple forms often transforming as it does so *Solarities* draws inspiration from Black ecologies Indigenous philosophy feminist science technology studies and more than human discussions in the human sciences recognizing the phenomenological and ontological openings they make available The authors understand solarity as an energy source channeled through photovoltaic cells for example but the essays gathered here focus on the lives that solarity creates or impedes The experimental task is to find how solarities work their way into materials and processes across our work seeking out the particular influences of solarity in making beings These relations are core to thinking the elemental conditions of solarity since it is through particular forms of focalizing the sun that life is sustained or made to wither across the planet In these ways the elemental condition of solarity is at once hyper particular and also shared across organic and inorganic bodies conditioned by physical form and material composition Throughout the collection the authors explore how solarity appears or recedes from view when we concentrate our attentions on it surfacing the existential omnipresence of the sun to open new thought possibilities inspire new actions and refract new dimensions of socionatural encounter
