Graves Residence Princeton 1986 1993 Michael Graves Architecture In Detail:

Graves Residence Kenneth Powell, Michael Graves, 1995 Its clearly expressed entrance is formed by an angle between the two wings of the house providing an inside out zone between the house and formally arranged garden Michael Graves Michael Graves, 1999 **Michael Graves** Ian Volner, 2017-10-24 One of the most prominent and prolific designers and architects of the late twentieth century Michael Graves is best known for his popular product designs including the world famous Alessi whistling bird teakettle and controversial buildings such as the Portland Building in Oregon Humana Building in Kentucky and Dolphin and Swan Hotels at Walt Disney World Florida Graves was widely seen as the leading voice of postmodernist architecture which reintroduced human scale color and sometimes playful forms into the stark white vocabulary of modernism Following a devastating illness that paralyzed him from the chest down Graves became a tireless designer and advocate of improved health care products and facilities before his sudden death in 2015 Shortly before this he began a series of interviews with journalist Ian Volner which form the basis of this biography of a remarkable designer Volner also conducted numerous interviews with Graves's family patrons colleagues and friends What emerges is a meticulously researched anecdote rich human story as well as a primer on the American architecture scene of the past sixty years and a portrait of a man whose deep passion for his art brought pleasure to millions *Architectural Jet Lag* Angie S.H., 2012-02-23 Informative relevant and useful *Architectural Jet Lag* features the in depth analysis of significant architectural concepts definitions and frameworks Written by Angie S H this riveting book shares a concrete idea of what architecture is and what it is not A boon to every student professional and even to the academic world this compilation can be a useful source material for everyone who has the immense interest in the industry In this book the author perspicaciously outlines the correlation between the human body and the theological framework of architecture This read signifies that just like jet lag which is the circadian clock's out of synchronization with the destination time as it experiences daylight and darkness contrary to the rhythms to which it has grown accustomed the same can go for the field of architecture hence the term Architectural Jet Lag Angie S H suggests that one cannot categorize architecture as a free flowing concept such as art interior design creative writing or music Architecture follows a certain pattern that is tailor fit to the spatial needs of individuals Architecture as a built environment for one's daily life requires linear and concrete alignment with his paradigm Based on the author's thesis this study illustrates how architecture as build environment interacts with peoples ways of living by analyzing some case studies with their respective scientific methodology *Easing Architectural Jet Lag* this book introduces the G ARCH solution when applying the Western advanced architecture to the Eastern culture and social logic of space Groundbreaking and compelling the authentic ideas in this exceptional read will transform readers perception and educate them about the various considerations in the intricate world of architecture The Publishers Weekly, 1995 The Details of Modern Architecture Edward R. Ford, 1990 Covering the period 1890 1932 this book focuses on various recognised

masters explaining the detailing and construction techniques used in their buildings Library Journal ,1995 A *Dictionary of Architecture and Landscape Architecture* , *How Architecture Works* Witold Rybczynski,2013-10-08 An essential toolkit for understanding architecture as both art form and the setting for our everyday lives We spend most of our days and nights in buildings living and working and sometimes playing Buildings often overawe us with their beauty Architecture is both setting for our everyday lives and public art form but it remains mysterious to most of us In *How Architecture Works* Witold Rybczynski one of our best most stylish critics and winner of the Vincent Scully Prize for his architectural writing answers our most fundamental questions about how good and not so good buildings are designed and constructed Introducing the reader to the rich and varied world of modern architecture he takes us behind the scenes revealing how architects as different as Frank Gehry Renzo Piano and Robert A M Stern envision and create their designs He teaches us how to read plans how buildings respond to their settings and how the smallest detail of a stair balustrade for instance can convey an architect s vision Ranging widely from a war memorial in London to an opera house in St Petersburg from the National Museum of African American History and Culture in Washington D C to a famous architect s private retreat in downtown Princeton *How Architecture Works* explains the central elements that make up good building design It is an enlightening humanist s toolkit for thinking about the built environment and seeing it afresh Architecture if it is any good speaks to all of us Rybczynski writes This revelatory book is his grand tour of architecture today Architects' Gravesites Henry H. Kuehn,2017-04-28 An illustrated guide to the monumental and non monumental final resting places of famous architects from Aalto Alvar to Frank Lloyd Wright All working architects leave behind a string of monuments to themselves in the form of buildings they have designed But what about the final spaces that architects themselves will occupy Are architects gravesites more monumental more architectural than others This unique book provides an illustrated guide to more than 200 gravesites of famous architects almost all of them in the United States Led by our intrepid author Henry Kuehn we find that most graves of architects are not monumental but rather modest that many architects did not design their final resting places and that a surprising number had their ashes scattered *Architects Gravesites* offers an alphabetical listing from Alvar Aalto and Dankmar Adler Louis Sullivan s partner to Frank Lloyd Wright and Minoru Yamasaki designer of the World Trade Center s twin towers Each entry includes a brief note on the architect s career and a color photograph of the site For example Ludwig Mies van der Rohe is buried in Chicago under a simple granite slab designed by his architect grandson Louise Bethune the first American woman to become a professional architect is buried under a headstone inscribed only with her husband s name a plaque honoring her achievements was installed later Philip Johnson s ashes were spread in his rose garden with no marker across the street from his famous Glass House and the grave of Pierre L Enfant in Arlington National Cemetery offers a breathtaking view of Washington D C the city he designed *Architects Gravesites* is an architectural guide like no other revealing as much about mortality as about monumentality **Encyclopedia of**

Postmodernism Victor E. Taylor, Charles E. Winqvist, 2002-06-01 The Encyclopedia of Postmodernism provides comprehensive and authoritative coverage of academic disciplines critical terms and central figures relating to the vast field of postmodern studies With three cross referenced sections the volume is easily accessible to readers with specialized research agendas and general interests in contemporary cultural historical literary and philosophical issues Since its inception in the 1960s postmodernism has emerged as a significant cultural political and intellectual force that many scholars would argue defines our era Postmodernism in its various configurations has consistently challenged concepts of selfhood knowledge formation aesthetics ethics history and politics This Encyclopedia offers a wide range of perspectives on postmodernism that illustrates the plurality of this critical concept that is so much part of our current intellectual debates In this regard the volume does not adhere to a single definition of postmodernism as much as it documents the use of the term across a variety of academic and cultural pursuits The Encyclopedia of Postmodernism it must be noted resists simply presenting postmodernism as a new style among many styles occurring in the post disciplinary academy Documenting the use of the term acknowledges that postmodernism has a much deeper and long lasting effect on academic and cultural life In general the volume rests on the understanding that postmodernism is not so much a style as it is an on going process a process of both disintegration and reformation

Architectural Space in Eighteenth-Century Europe Meredith Martin, 2017-07-05 Architectural Space in Eighteenth Century Europe Constructing Identities and Interiors explores how a diverse pan European group of eighteenth century patrons among them bankers bishops bluestockings and courtesans used architectural space and d cor to shape and express identity Eighteenth century European architects understood the client s instrumental role in giving form and meaning to architectural space In a treatise published in 1745 the French architect Germain Boffrand determined that a visitor could judge the character of the master for whom the house was built by the way in which it is planned decorated and distributed This interdisciplinary volume addresses two key interests of contemporary historians working in a range of disciplines one the broad question of identity formation most notably as it relates to ideas of gender class and ethnicity and two the role played by different spatial environments in the production not merely the reflection of identity at defining historical and cultural moments By combining contemporary critical analysis with a historically specific approach the book s contributors situate ideas of space and the self within the visual and material remains of interiors in eighteenth century Europe In doing so they offer compelling new insight not only into this historical period but also into our own

From Autos to Architecture David Gartman, 2012-04-17 One of the most interesting questions in architectural history is why modern architecture emerged from the war ravaged regions of central Europe and not the United States whose techniques of mass production and mechanical products so inspired the first generation of modern architects like Le

Corbusier Mies van der Rohe and Walter Gropius In From Autos to Architecture sociologist David Gartman offers a critical social history that shows how Fordist mass production and industrial architecture in America influenced European designers to an extent previously not understood Drawing on Marxist economics the Frankfurt School and French sociologist Pierre Bourdieu From Autos to Architecture deftly illustrates the different class structures and struggles of America and Europe Examining architecture in the context of social conflicts From Autos to Architecture offers a critical alternative to standard architectural histories focused on aesthetics alone
