Consumerism in the Ancient World Justin St. P. Walsh,2013-11-26

Greek pottery was exported around the ancient world in vast quantities over a period of several centuries This book focuses on the Greek pottery consumed by people in the western Mediterranean and trans Alpine Europe from 800 300 BCE attempting to understand the distribution of vases and particularly the reasons why people who were not Greek decided to acquire them This new approach includes discussion of the ways in which objects take on different meanings in new contexts the linkages between the consumption of goods and identity construction and the utility of objects for signaling positive information about their owners to their community The study includes a database of almost 24 000 artifacts from more than 230 sites in Portugal Spain France Switzerland and Germany This data was mapped and analyzed using geostatistical techniques to reveal different patterns of consumption in different places and at different times The development of the new approaches explored in this book has resulted in a shift away from reliance on the preserved fragments of ancient Greek authors descriptions of western Europe remains of monumental buildings and major artworks and toward investigation of

social life and more prosaic forms of material culture ADDITIONAL E RESOURCES FOR THIS BOOK ARE AVAILABLE https://digitalcommons.chapman.edu/art_data/1

Subject Index of Modern Books Acquired British Museum, 1956 **History of Art** Horst Woldemar Janson, Anthony F. Janson, 2004

For forty years this widely acclaimed classic has remained unsurpassed as an introduction to art in the Western world boasting the matchless credibility of the Janson name. This newest update features a more contemporary, more colorful design and vast array of extraordinarily produced illustrations that have become the Janson hallmark. A narrative voice makes this book a truly enjoyable read, and carefully reviewed and revised updates to this edition offer the utmost clarity in contributions based on recent scholarship. Extensive captions for the book's incredible art program offer profound insight through the eyes of twentieth-century art historians speaking about specific pieces of art featured throughout. Significantly changed in this edition is the chapter on The Late Renaissance in which Janson offers a new perspective on the subject, tracing in detail the religious art tied to the Catholic Reform movement whose early history is little known to many readers of art history. Janson has also rearranged early Renaissance art according to genres instead of time sequence, and he has followed the reinterpretation of Etruscan art begun in recent years by German and English art historians. With a truly humanist approach, this book gives written and visual meaning to the captivating story of what artists have tried to express and why for more than 30,000 years.
