Global Challenges, Governance, and Complexity Victor Galaz, 2019-12-27 There is an increased interest in integrating insights from the complexity sciences to studies of governance and policy While the issue has been debated and the term of complexity has multiple and sometimes contested interpretations it is also clear the field has spurred a number of interesting theoretical and empirical efforts The book includes key thinkers in the field elaborates on different analytical approaches in studying governance institutions and policy in the face of complexity and showcases empirical applications and insights

New Perspectives on Structural Change Ludovico Alcorta, Neil Foster-McGregor, Bart Verspagen, Adam

Szirmai,2021-03-23 **New Perspectives on Structural Change** is a comprehensive edited volume that outlines both the historical roots and state of the art debates on the role of structural change in the process of economic development including both orthodox and heterodox perspectives and contributions from prominent scholars in this field The volume consists of four main sections The first section covers the theoretical foundations of the structural change literature The second section presents an empirical overview of the major trends of structural change using up to date data sources and methods The third section presents a broad ranging empirical analysis of the drivers of structural change The fourth section examines how processes such as inclusive growth poverty reduction productive employment the global income distribution and environmental sustainability are affected by structural change and how they can be influenced by policy [Renewable Energy Transition in Asia](#)

Nandakumar Janardhanan,Vaibhav Chaturvedi,2021-02-12 This book covers critical debates on policies markets and emerging issues that shape renewable energy transition in the Asian region which is fast becoming an epicenter of the global energy consumption The chapters focus on domestic policies geopolitics technology landscape and governance structure pertaining to the development of renewable energy in different Asian countries ranging from China to the Middle East The book presents an insightful view of the pace and magnitude of the energy transition It presents critical steps countries are taking to promote affordable and clean energy SDG 7 as well as strengthening climate mitigation actions SDG 13 In addition this book introduces the concept of co innovation a collaborative and iterative approach to jointly innovate manufacture and scale up low carbon technologies and its role in promoting energy transition in Asia Chapter 8 Renewable energy deployment to stimulate energy transition in the Gulf Cooperation Council is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com) **Climate Change and the Nation State**

Anatol Lieven,2020-03-02 **Climate Change and the Nation State** is the first book to tie the issue of action against climate change to nationalism Anatol Lieven argues that commitment to the future of the nation is the only way in which populations can be motivated to accept the sacrifices necessary to combat climate change National security establishments should prioritize climate change rather than lesser threats from rival powers Lieven supports the idea of a Green New Deal for both gaining public support for climate change action and building the national resilience but argues that it should be recalibrated to appeal to national unity and solidarity **Contemporary Issues in Work and Organisations**

Russell Lansbury,Anya Johnson,Diane van den Broek,2019-08-13 In a complex and interconnected world work and organisations are rapidly changing This book addresses key emerging issues by adopting an imaginative and innovative approach Its comprehensive coverage on work and organisations aim to provide understanding of the external forces and institutions that are changing workplaces and organisations examine how organisations are being managed from within and how this reshapes the way individuals and groups relate to each other whether they be employers employees independent professionals or contingent workers and integrate these two perspectives to show how both internal and external forces are interconnected and

influence each other By combining theory and case studies the book illuminates how ideas and concepts can be applied to work and organisations in a variety of contexts Chapter 3 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Handbook of Alternative Theories of Economic Development Erik S. Reinert, Jayati Ghosh, Rainer Kattel, 2016-09-28 The Handbook of Alternative Theories of Economic Development explores the theories and approaches which over a prolonged period of time have existed as viable alternatives to today's mainstream and neo-classical tenets With a total of 40 specially commissioned chapters written by the foremost authorities in their respective fields this volume represents a landmark in the field of economic development It elucidates the richness of the alternative and sometimes misunderstood ideas which in different historical contexts have proved to be vital to the improvement of the human condition The subject matter is approached from several complementary perspectives From a historical angle the Handbook charts the mercantilist and cameralist theories that emerged from the

Renaissance and developed further during the Enlightenment From a geographical angle it includes chapters on African Chinese Indian and Muslim approaches to economic development Different schools are also explored and discussed including nineteenth century US development theory Marxist Schumpeterian Latin American structuralism regulation theory and world systems theories of development In addition the Handbook has chapters on important events and institutions including The League of Nations The Havana Charter and UNCTAD as well as on particularly influential development economists Contemporary topics such as the role of finance feminism the agrarian issue and ecology and the environment are also covered in depth This comprehensive Handbook offers an unrivalled review and analysis of alternative and heterodox theories of economic development It should be read by all serious scholars teachers and students of development studies and indeed anyone interested in alternatives to development orthodoxy *Handbook of Inclusive Innovation* Gerard George,2019 The Handbook of Inclusive and Social Innovation The Role of Organizations Markets and Communities offers a comprehensive review of research on inclusive innovation to address systemic and structural issues the Grand Challenges of our time With 27 contributions from 57 scholars the Handbook provides frameworks and insights by summarising current research and highlights emerging practices and scalable solutions The contributions highlight a call to action and place social impact at the heart of theory and practice It will be an invaluable resource for academics practitioners and policymakers who champion social inclusion and emphasize innovative approaches to addressing sustainable development goals *China's Renewable Energy Revolution* John A. Mathews,Hao Tan,O'Faircheallaigh,2015-08-13 The authors suggest that China's renewable energy system the largest in the world will quickly supersede the black energy system that has powered the country's rapid rise as workshop of the world and for reasons that have more to do with fixing environmental pollution and enhancing energy security than with curbing carbon emissions Industrial Policy and Economic Development Arkebe Oqubay,2025-04-09 This book explores industrial policy and how it can drive economic development within emerging and developing countries It examines the potential for sustainable economic growth and green industrialisation to deliver economic transformation and catch up The ways in which manufacturing can accelerate decarbonisation through the development of low carbon industrial hubs promote the expansion of renewable energy and encourage investment in green technology and innovation are highlighted to show how industrial policy is key to achieving the net zero goals the 2030 Agenda and the Sustainable Development Goals The links between industrial policy and urban transformation are also discussed to underline how cities can drive economic growth and foster technological innovation within the developing world This book offers a framework for industrial policy and economic development that can be applied within emerging and developing economies particularly in Africa It will be relevant to students researchers and policymakers interested in development economics industrial policy and environmental economics *The Post-Crisis Developmental State* Tamás Gerőcs,Judit Ricz,2021-05-14 The focus of this volume is on the role of the developmental state in a situation in which a

series of major crises affects the semi periphery of the global economy The authors go beyond the established debate on developmental states in East Asia by highlighting a much broader understanding of development and a very different global economic context They also further the existing debate by covering new country cases At the same time they deepen our perspective on developmental states by looking at unusual sectors such as green industrial policy education and farming

Designing Adaptive Organizations Charles C. Snow, Øystein D. Fjeldstad, 2023-11-23 A cutting edge account of the theory and practice of modern organizational design by the leading voices in the field *Subjects of the Sun* Myles

Lennon, 2025-05-09 In the face of accelerating climate change anticapitalist environmental justice activists and elite tech corporations increasingly see eye to eye Both envision solar powered futures where renewable energy redresses gentrification systemic racism and underemployment However as Myles Lennon argues in *Subjects of the Sun* solar power is no less likely to exploit marginalized communities than dirtier forms of energy Drawing from ethnographic research on clean energy corporations and community solar campaigns in New York City Lennon argues that both groups overlook solar's extractive underside because they primarily experience energy from the sun in the virtual world of the cloud He shows how the material properties of solar technology its shiny surfaces decentralized spatiality and modularity work closely with images digital platforms and quantitative graphics to shape utopic visions in which renewable energy can eradicate the constitutive tensions of racial capitalism As a corrective to this virtual world Lennon calls for an equitable energy transition that centers the senses and sensibilities neglected by screenwork one's haptic care for their local environment the full bodied feel of infrastructural labor and the sublime affect of the sun *Innovation Systems, Policy and Management* Jorge

Niosi, 2018-06-30 Innovation is a systemic phenomenon in which institutions such as firms government entities and public policy incentives interact in complex ways Targeting specific sectors of an economy in order to improve the competitiveness and capabilities of domestic firms interventionist innovation policies can result in the structural transformation of host economies Numerous examples exist of such policies working successfully in emerging economies and they can be applied to any economic sector although they are commonly associated with highly innovative industries such as ICT biotechnology and nanotechnology *Innovation Systems Policy and Management* describes how institutions and markets can best be structured in order to promote innovation in key economic sectors Bringing together some of the leading figures in industrial policy and the economics of innovation and entrepreneurship this book encourages the reader to think in terms of systems and business dynamics when analysing innovation behaviour providing an approach useful to policy makers business leaders and scholars of evolutionary economics

Sustainability Transitions in South Africa Najma Mohamed, 2018-07-11 South Africa's transition to a greener economy features prominently in the long term development vision of the country and is an integral part of the country's national climate change response strategy Despite significant gains in socio economic development since its transition to democracy the country continues to face the triple challenges of rising unemployment income

inequality and poverty amid a slowdown in economic growth Sustainability transitions offer new ways of shifting the trajectory of South Africa's resource intensive economy towards low carbon pathways linked to the country's transformative development agenda Calls for inclusive approaches to greening the South African economy which addresses the most vulnerable in society and ensures that the benefits of sustainability innovations reach all South Africans as sustainable development policy reforms are being implemented The question that should be placed centre stage in South Africa's sustainability discourse is whether notions of justice and inclusivity are being sufficiently addressed in the design and implementation of policy and programme interventions This book explores South Africa's sustainability transition through reflections on critical policy economic technological social and environmental drivers It provides a synthesis of theoretical insights including new models and concepts and praxis through illustrations from South Africa's growing landscape of sustainable development policies and programmes Finally it assesses whether these transition pathways are beginning to reconfigure the system level structures hindering the country's goal of ensuring environmental sustainability and an equitable transition to a low carbon economy

China's Innovation Challenge Arie Y. Lewin, Martin Kenney, Johann Peter Murmann, 2016-04-14 This book argues that China must become an innovation based economy to avoid the middle income traps and examines both the opportunities and challenges in meeting this goal
