Lighting Up a Hidden World Valerie Free, 2016-09-30 The onset can be fast and shocking or slow and insidious. It can happen to anyone at any age. A flu, a vaccination, or an infection can be the innocent beginnings to the potentially life-long and disabling illness called myalgic encephalomyelitis (ME), which is more commonly known as chronic fatigue syndrome (CFS) or ME/CFS in North America. In the mid-1980s, the U.S. Centers for Disease Control (CDC) was called in by concerned doctors who were witnessing an influx of patients with a mysterious illness. Eventually, the CDC labeled the condition chronic fatigue syndrome, which turned out to be very misleading. Decades later, in 2016, health agencies are finally beginning to agree with international experts that ME/CFS is a serious chronic multi-system illness. Through artwork, poetry, story-telling, and meticulous research, *Lighting Up a Hidden World: CFS and ME* takes readers into the fascinating yet frightening landscape of ME/CFS. Author Valerie Free shares her personal experiences and delivers illuminating first-hand perspectives from patients, caregivers, journalists, and medical professionals from within the global community in short, easy-to-read segments. These stories reveal the disgrace, controversy, and tragedy of worldwide neglect by political and health care systems, leaving ME/CFS research underfunded and millions of people marginalized, sick, and socially unsupported. *Lighting Up a Hidden World: CFS and ME* advocates for those too ill to speak out, abounds with patient resources, and offers realistic hope for the future. People living with this illness, along with their family and friends, will find compassion and camaraderie in its pages. This book reaches beyond the ME/CFS community, exposing the themes of human suffering, resilience, and the need for social change. *Film Noir and the Arts of Lighting* Patrick Keating, 2024-07-12 More than any other set of films from the classical era, the
