Contemporary Psychoanalysis and Modern Jewish Philosophy Michael Oppenheim, 2016-10-04 Relational psychoanalysis and modern Jewish philosophy have much to say about the dynamics of human relationships but there has been no detailed thorough and constructive examination that brings together these two incisive discourses

Contemporary Psychoanalysis and Modern Jewish Philosophy Two Languages of Love explores the critical similarities and differences between the two disciplines casting new light on both the analytic and philosophical understandings of how relationships develop flourish and fail For psychoanalysts such as Hans Loewald Stephen Mitchell and Jessica Benjamin love is seen as a fundamental life force a key to human motivation and the transformative core of Freud's therapeutic talking cure The Jewish philosophers Franz Rosenzweig Martin Buber and Emmanuel Levinas envision love as having both a human and divine dimension expressed through the dual commandments to love God and the neighbor The two languages are brought to life through chapters that investigate the relationship between self love and love of the other the dynamics of intersubjectivity the methods and possibilities of human transformation the magical powers of language the goal of achieving a meaningful life the significance of responsibility for others and the challenge that death poses to life's fullness This multidisciplinary study drawing on psychology philosophy religion and feminism provides an important contribution to contemporary scientific and humanistic interest in the social and relational dimensions of human living The book will appeal especially to clinicians theorists and scholars of psychoanalysis philosophy of religion and Jewish studies as well as advanced students studying in these fields

Transformative Objects and the Aesthetics of Play Lynn M. Somers, 2024-12-26 This book considers the sculpture of Louise Bourgeois 1911-2010 in light of psychoanalyst D W Winnicott's 1896-1971 radical ideas regarding transitional objects potential space and play offering a model for exploring the complex and psychologically evocative work Bourgeois produced from 1947 to 2000 Critical concepts from British object relational theories destruction reparation integration relationality and play drawn from the writings of Winnicott Melanie Klein Marion Milner and Christopher Bollas among others bear upon the decades long study of psychoanalysis Bourgeois brought to her sculptural production that was symbolic metaphorical and most importantly useful The book demonstrates how Bourgeois's transformative sculptural objects and environments are invested in object relations both psychical and tangible and explores Bourgeois's contention that the observer physically engage with the intricate sculptural objects and architectural spaces she produced Each chapter focuses on a key body of work *Femme Maison* *Personages* *Lairs* *Janus* and *Cells* examining how these imaginative and playful objects are staged as embodied encounters in space and time to invoke the mutuality reciprocity and

ambivalence of our object relationships Weaving a tapestry of aesthetic cultural and psychological encounters Transformative Objects and the Aesthetics of Play addresses critical relationships among Bourgeois work and that of other artists from Pieter Brueghel to Eva Hesse It brings together practical archival and theoretical material offering close examinations of historically situated objects and analyses of their complex affects and spatiality Gathering critical perspectives from psychoanalysis cultural analysis feminist queer literary and affect studies the book extends its specific art historical scope to investigate the crucial roles that art and cultural experience assume in everyday life Thinking through the Mothers Janet Beizer, 2011-03-15 If questions of subjectivity and identification are at stake in all biographical writing they are particularly trenchant for contemporary women biographers of women Often their efforts to exhume buried lives in hope of finding spiritual foremothers awaken maternal phantoms that must be embraced or confronted Do women writing in fact have any greater access to their own mothers lives than to the lives of other women whose stories have been swept away like dust in the debris of the past In Thinking through the Mothers Janet Beizer surveys modern women s biographies and contemplates alternatives to an approach based in lineage and the form of thought that emphasizes the line the path hierarchy unity resemblance reflection and the aesthetic mimesis that depends on these ideas Through close readings of memoirs and fictions about mothers Beizer explores how biographers of the women who came before rehearse and rewrite relationships to their own mothers biographically as they seek to appropriate the past in a hybrid genre she calls bio autography Thinking through the Mothers features the work of George Sand and Colette and spans such varied figures as Gustave Flaubert Julian Barnes Louise Colet Eunice Lipton Vladimir Nabokov Huguette Bouchardeau and Christa Wolf Beizer seeks an alternative to women s salvation biography or resurrection biography that might resist nostalgia be attentive to silence and reinvent the means to represent the lives of precursors without appropriating traditional models of genealogy **Contemporary Italian Women Writers and Traces of the Fantastic** Danielle E. Gregoratto makes a passionate defense of erotic freedom as an adventurous process through which we understand together with others who we are and who we want to become both in our individual existences and in our social lives Wide ranging and daring Love Troubles invites us to reflect on our fraught amorous experiences showing why we should cherish and learn from them Making Meaning of Narratives Ruthellen Josselson,Amia Lieblich,1999-04-05 The sixth volume in this series

Keating,2016-04-01 This volume considers the impact that changing family norms have had on the responsibilities that the law allocates to people in family relationships Contributions are drawn from a wide variety of jurisdictions in which scholars lawyers judges and policy makers have been trying to discern what the appropriate correlation should be between the responsibilities that people undertake in family settings and the law that regulates family responsibilities Part I looks at the changes that have occurred in adult relationships and what they have done for our sense of the family responsibilities that adults take for one another Part II reflects on the changing nature of the parental relationship in order to reconsider the way in which changing family structures affect the responsibilities we think people raising children should have The third part brings the rights discourse that has dominated jurisprudence for much of the last fifty years into the discussion of family transformation and the responsibilities to which it gives rise In the final section the authors reflect on the difficulties of trying to resolve the meaning of responsibility in a world of changing families The collection brings together some of the most eminent and imaginative scholars and judges working in this area It will be a valuable resource for all those interested in the legal regulation of the transforming family The Bonds of Love, Revisited Eyal Rozmarin,2016-03-17 Jessica Benjamin is

one of the most important and influential psychoanalysts of the last 4 decades She is one of the founders of relational psychoanalysis a movement that has by now expanded over the globe and was also one of the first to introduce feminism and gender studies into psychoanalytic thought Jessica Benjamin is the most known and quoted representative of these two movements within world psychoanalysis and beyond in philosophy gender women s studies and cultural studies department everywhere The publication of her book Bonds of Love 1989 was nothing short of a revolution Psychoanalysis was until then a field immune to a changing world to the unrest of the 60s to the feminist and queer liberation movements to the new philosophies of the Frankfurt School in Germany and post structuralism in France The book was a game changer It called psychoanalysis to doubt its most basic premises on the human condition It read Freud through a feminist framework and through Hegel forever tipping our perspective on infancy gender and the interplay of power and dependence that drives human relationships from the start This volume marks the 25th anniversary of Benjamin s work Pulling together 15 international scholars it looks back on the book s first impact as well as on its continued relevance to psychoanalysis and

gender studies today Chapters offer theoretical deliberations and elaborations of the book's original themes as well as reflecting on it from more intimate angles as a source of personal and professional inspiration for feminists and clinicians around the world This book was originally published as a special issue of *Studies in Gender and Sexuality* *The Routledge Handbook of Psychoanalysis in the Social Sciences and Humanities* Anthony Elliott, Jeffrey Prager, 2016-04-14 The Routledge Handbook of Psychoanalysis in the Social Sciences and Humanities provides a comprehensive critical overview of the historical theoretical and applied forms of psychoanalytical criticism This path breaking Handbook offers students new ways of understanding the powers and limits of psychoanalysis and of the social cultural and political possibilities of psychoanalytic critique The book offers students and professionals clear and concise chapters on the development of psychoanalysis introducing key theories that have influenced debates over the psyche desire and emotion in the social sciences and humanities There are substantive chapters on classical Freudian theory Kleinian and Bionian theory object relations psychoanalysis Lacanian and post Lacanian approaches feminist psychoanalysis as well as postmodern trends in psychoanalysis There is a strong emphasis on interdisciplinary approaches to psychoanalytic critique with contributions drawing from developments in sociology politics history cultural studies women's studies and architecture *Men in Love* Vittorio Lingiardi, 2002 From the rape of Ganymede to Michelangelo's loves from the relationship of Batman and Robin to the letters between Freud and Jung this voyage speaks eloquently about the complex relationships between men *Braving the Erotic Field in the Psychoanalytic Treatment of Children and Adolescents* Mary Brady, 2022-03-17 Braving the Erotic Field in the Psychoanalytic Treatment of Adolescents and Children is a groundbreaking collection of chapters by an international group of analytic authors The book addresses the general lack of psychoanalytic writing on working with erotic feelings in the consulting room when treating children and adolescents This lack is doubly odd given Freud's emphasis on childhood sexuality as well as the intensities of the adolescent body mind This book takes the view that the subtle interchange of feelings dreams narratives and images that arise when erotic feelings are in the fore is better conceptualized as an erotic field than with the binary of transference countertransference In contemporary psychoanalysis the idea that transference love offers the possibility of knowing the other in the deepest possible way is supplanting an attitude of suspicion Clinical work with small children to late adolescents will be offered including gay and gender fluid adolescents This book makes a decisive contribution to assist clinicians to brave the erotic field with children and adolescents Critique on the Couch Amy Allen, 2020-12-01 Does critical theory still need psychoanalysis In *Critique on the Couch* Amy Allen offers a cogent and convincing defense of its ongoing relevance Countering the overly rationalist and progressivist interpretations of psychoanalysis put forward by contemporary critical theorists such as Jürgen Habermas and Axel Honneth Allen argues that the work of Melanie Klein offers an underutilized resource She draws on Freud Klein and Lacan to develop a more realistic strand of psychoanalytic thinking that centers on notions of loss negativity ambivalence and mourning Far from leading to

despair such an understanding of human subjectivity functions as a foundation of creativity productive self transformation and progressive social change At a time when critical theorists are increasingly returning to psychoanalytic thought to diagnose the dysfunctions of our politics this book opens up new ways of understanding the political implications of psychoanalysis while preserving the progressive emancipatory aims of critique **Mothering and Psychoanalysis:**

Clinical, Sociological and Feminist Perspectives Petra Bueskens,2014-07-01 Kohut, Loewald and the Postmoderns

Judith G. Teicholz,2015-12-22 In Kohut Loewald and the Postmoderns Judith Teicholz using the contemporary critique of Kohut and Loewald as a touchstone of inquiry into the current status of psychoanalysis focuses on a select group of postmodern theorists whose recent writings comprise a questioning subtext to Kohut s and Loewald s ideas Acutely aware of the important differences among these theorists Teicholz nonetheless believes that their respective contributions which present psychoanalysis as an interactive process in which the analyst s own subjectivity plays a constitutive role in the joint construction of meanings achieve shared significance as a postmodern critique of Kohut and Loewald She is especially concerned with the relationship both theoretically and technically between Kohut s emphasis on the analyst s empathic resonance with the analysand s viewpoint and affect and the postmodern theorists shared insistence on the expression of the analyst s own subjectivity in the treatment situation Her analysis incorporates fine insight into the tensions and ambiguities in Kohut and Loewald whose work ultimately emerges as a way station between modern and postmodern viewpoints and her appreciation of Kohut and Loewald as transitional theorists makes for an admirably even handed exposition She emphasizes throughout the various ways in which Kohut and Loewald gave nascent expression to postmodern attitudes but she is no less appreciative of the originality of postmodern theorists who address genuine lacunae in the thought and writings of these exemplars of an earlier generation Teicholz s examination of what she terms two overlapping partial revolutions in psychoanalysis that of Kohut and Loewald on one hand and of the postmoderns on the other throws an illuminating searchlight on the path psychoanalysis has traveled over the last quarter of the 20th century Trauma-Informed Pedagogy

Death and Mastery

Benjamin Y. Fong, 2016-11-08 The first philosophers of the Frankfurt School famously turned to the psychoanalytic theories of Sigmund Freud to supplement their Marxist analyses of ideological subjectification Since the collapse of their proposed marriage of Marx and Freud psychology and social theory have grown apart to the impoverishment of both Returning to this union Benjamin Y Fong reconstructs the psychoanalytic foundation stone of critical theory in an effort to once again think together the possibility of psychic and social transformation Drawing on the work of Hans Loewald and Jacques Lacan Fong complicates the famous antagonism between Eros and the death drive in reference to a third term the woefully undertheorized drive to mastery Rejuvenating Freudian metapsychology through the lens of this pivotal concept he then provides fresh perspective on Theodor Adorno Max Horkheimer and Herbert Marcuse's critiques of psychic life under the influence of modern cultural and technological change The result is a novel vision of critical theory that rearticulates the nature of subjection in late capitalism and renews an old project of resistance
