Nouvelle édition actualisée et enrichie d'une nouvelle analyse de photographie de presse *The Interface Effect* Alexander R. Galloway, 2013-05-20

Interfaces are back or perhaps they never left. The familiar Socratic conceit from the Phaedrus of communication as the process of writing directly on the soul of the other has returned to center stage in today's discussions of culture and media. Indeed, Western thought has long construed media as a grand choice between two kinds of interfaces. Following the optimistic path, media seamlessly interface self and other in a transparent and immediate connection. But following the pessimistic path, media are the obstacles to direct communion, disintegrating self and other into misunderstanding and contradiction. In other words, media interfaces are either clear or complicated, either beautiful or deceptive, either already known or endlessly interpretable. Recognizing the limits of either path, Galloway charts an alternative course by considering the interface as an autonomous zone of aesthetic activity guided by its own logic and its own ends: the interface effect. Rather than praising user-friendly interfaces that work well or castigating those that work poorly, this book considers the unworkable nature of all interfaces, from windows and doors to screens and keyboards. Considered allegorically, such thresholds do not so much tell the story of their own operations but beckon outward into the realm of social and political life, and in so doing ask a question to which the political interpretation of interfaces is the only coherent answer. Grounded in philosophy and cultural theory and driven by close readings of video games, software, television, painting, and other images, Galloway seeks to explain the logic of digital culture through an analysis of its most emblematic and ubiquitous manifestation: the interface.

The Death in their Eyes Vicente Sánchez-Biosca, 2024-09-01

Images that embody the point of view of the perpetrators of violent crimes or their accomplices force us to look at the pain of victims through the eyes of those who caused it. Accompanied by over sixty visuals of historically infamous violence, *The Death in their Eyes* goes beyond the visible aspects of images to reveal what has been left outside of the frame. Covering human abuse and humiliation at Abu Ghraib, the Auschwitz Album, religious desecration during the Spanish Civil War, an unfinished Nazi propaganda film made at the Warsaw Ghetto in the spring of 1942, and detainees at the S-21 torture center in Cambodia under the Khmer Rouge, this volume proposes a rigorous new methodology for analyzing perpetrator images in photography and film that continue to be used and re-appropriated in today's media.

Content warning: This book contains images of victims of murder and torture which are essential to the author's analysis.

La réserve Laure Borgomano, 2025-01-15

Hantée depuis son plus jeune âge par l'évocation des camps et la révélation du pire dont l'homme est capable contre ses semblables, Laure Borgomano se demande ce qui permet aux hommes et aux femmes ordinaires non seulement de survivre mais aussi de résister. Qu'on soit leur victime ou leur complice, les bourreaux nous entraînent hors de notre humanité lorsqu'on n'est ni saint ni héros. Où puiser-t-on la ressource de résister pour rester humain ? Dans ce que l'auteure appelle la réserve ouvrant ainsi une enquête

Jean-Luc Godard's Political Filmmaking Irmgard Emmelhainz, 2019-04-26 This book offers an examination of the political dimensions of a number of Jean Luc Godard's films from the 1960s to the present The author seeks to dispel the myth that Godard's work abandoned political questions after the 1970s and was limited to merely formal ones The book includes a discussion of militant filmmaking and Godard's little known films from the Dziga Vertov Group period which were made in collaboration with Jean Pierre Gorin The chapters present a thorough account of Godard's investigations on the issue of aesthetic political representation including his controversial juxtaposition of the Shoah and the Nakba Emmelhainz argues that the French director's oeuvre highlights contradictions between aesthetics and politics in a quest for a dialectical image By positing all of Godard's work as experiments in dialectical materialist filmmaking from *Le Petit soldat* 1963 to *Adieu au langage* 2014 the author brings attention to Godard's ongoing inquiry on the role filmmakers can have in progressive political engagement

La raison derrière les barreaux José Gutierrez-Privat, 2024-04-10 Charlie Hebdo l'hypercasher le Bataclan Nice l'assassinat de Samuel Paty et plus récemment le meurtre de Dominique Bernard la liste sanglante des attentats commis en France ne cesse de s'allonger depuis 2015 Pour faire face au défi et la menace permanente que représente le terrorisme

islamiste le pays a organisé la riposte. Au sein des prisons ont été mises en place des unités spéciales les QER quartier d'valuation de la radicalisation. La France en compte sept. Toute personne incarcérée pour des faits liés au terrorisme islamiste ou suspecte de radicalisation doit y séjourner. Alors que sont réellement les QER ? Lieu d'isolement qui ne dit pas son nom. Simple chambre d'valuation de l'emprise idéologique et de la dangerosité d'un individu. Jos Carlos Gutierrez Privat, professeur et docteur en philosophie, enseigne depuis huit ans en milieu carcéral et a quotidiennement rencontré depuis 2016 les personnes détenues dans les différents dispositifs de prise en charge de la radicalisation créés par l'Administration pénitentiaire. N. Lima, la question du terrorisme s'est posée lui pour la première fois durant son enfance dans les années quatre-vingt, la décennie noire pruvienne déclenchée par la guérilla maoïste du Sentier Lumineux. Dans ce livre, il nous raconte son expérience, celle d'un professeur de philosophie et d'un homme lécoute de ceux qui font l'apprentissage de l'enfermement. Au sein de l'atelier qu'il anime, il change avec les détenus, transmettent de faire clore le dialogue, la parole libre semble impossible. Car ces deux mots, radicalisation et terrorisme, résonnent encore si fort dans l'histoire récente de la France comme synonyme du mal radical que l'on a presque oublié les individus concrets censés l'incarner. Qui sont ces personnes ? Sont-elles des monstres amoraux, incapables d'une parole rationnelle ? Qu'est-ce que la prison fait d'eux et en eux ? L'enseignement peut-il encore servir quelque chose ? Ces questions loinent derrière nous, dans un moment où des violences multiples s'accumulent, l'horizon constitue la matière même de ce livre.

The Grotesque in the Fiction of Charles Dickens and Other 19th-century European Novelists Isabelle Hervouet-Farrar, Max Vega-Ritter, 2015-01-12. This book provides an overview of the literary grotesque in 19th century Europe with special emphasis on Charles Dickens whose use of this complex aesthetic category is thus addressed in relation with other 19th century European writers. The crossing of geographical boundaries allows an in depth study of the different modes of the grotesque found in 19th century fiction. It provides a comprehensive analysis of the reasons behind the extensive use of such a favoured mode of expression. Intertextuality and comparative or cultural analysis are thus used here to shed new light on Dickens's influences both given and received as well as to compare and contrast his use of the grotesque with that of key 19th century writers like Hugo, Gogol, Thackeray, Hardy and a few others. The essays of this volume examine the various forms taken by the grotesque in 19th century European fiction such as for example the fusion of the familiar and the uncanny or of the terrifying and the comic as well as the figures and narrative techniques best suited for the expression of a novelist's grotesque vision of the world. These essays contribute to an assessment of the links between the grotesque, the gothic and the fantastic and more generally the genres and aesthetic categories which the 19th century grotesque fed on like caricature, the macabre and tragicomedy. They also examine the novelists' grotesque as contributing to the questioning of society in Victorian Britain and 19th century Europe, echoing its raging conflicts and the shocks of scientific progress. This study naturally adopts as its theoretical basis the works of key theorists and critics of the grotesque, namely Victor Hugo, Charles Baudelaire and John Ruskin in the 19th century and Mikhail Bakhtin, Wolfgang Kayser

Geoffrey Harpham and Elisheva Rosen in the 20th century Des saints et des martyrs Monique Weis, Sylvie Pepertraete, 2019-04-04 Les faits religieux de l'Antiquité à l'époque contemporaine Ce volume des Problèmes d'histoire des religions est dû au Professeur Alain Dierkens spécialiste dans l'étude du religieux et directeur de la collection de 1991-2012. Se livre s'inscrit pleinement dans le sillage de la collection qui aborde le fait religieux dans une perspective à la fois diachronique et comparatiste. Les différentes contributions dépassent dès lors le cadre strict du Moyen Âge pour se pencher sur les périodes allant de l'Antiquité tardive à l'époque contemporaine. Un recueil de contributions dû au Professeur Alain Dierkens qui revient sur la place du religieux de l'Antiquité à nos jours. EXTRAIT de l'ouvrage et nous gardiens du sanctuaire de Xavier Barral à Altet. Dans cette brève contribution sur un aspect particulier de l'iconographie médiévale et nous soulignons le rôle protecteur du sanctuaire chrétien qui ont assumé ces deux personnages fort peu étudiés en tant que couple. L'offrant mon ami Alain Dierkens je souhaite avec ironie et humour voquer par un clin d'œil le rôle d'Alain dans la protection et la défense de nos disciplines histoire et histoire de l'art sans oublier l'archéologie au sein de l'Université libre de Bruxelles et en général Cruas Ardèche dans l'église abbatiale Saint Victor fut retrouvée en 1849 une mosaïque de pavement au sujet iconographique exceptionnel. Une autre mosaïque aujourd'hui disparue était située près de l'autel sur le pavé du sanctuaire et représentait un ecclésiastique genouillé. Au début du XVIII^e siècle elle frappa par son décor les deux savants mauristes Martene et Durand qui visitaient l'église. Ils en transcrivirent l'inscription fragmentaire qui l'accompagnait. Les deux rudits benédictins ne pouvaient soupçonner que la partie la plus importante du pavement de l'abside de Cruas était encore bien conservée sous les stalles des moines. Le 11 juillet 1849 sous l'amas de pierres et de poussière au-dessus duquel on avait installé les bancs de l'abside l'abbé Jouve découvrit la mosaïque qui était restée enfouie et dont le souvenir avait entièrement disparu. Affect and Realism in Contemporary Brazilian Fiction Karl Erik Schollhammer, 2020-12-15 This book is about contemporary Brazilian fiction from the past two decades and concerned with the possibilities of literary intervention in the reality of the historical moment. Thus an understanding of the actual role of literature is strategic in the definition of the contemporary and the book shows an optimism among current writers and artists with respect to the aesthetic, ethical and political role of literature and art in the twentieth century. In contemporary Brazilian prose two simultaneous ambitions are often reconciled. The commitment to individual or social reality is a challenge that is assumed without thereby necessarily accepting and following the molds of the traditional search for national or cultural identities. This foundation is one of the constants of contemporary prose without thereby eliminating the continuous existence of a formal experimentalism that is the clearest heir of the modernist project.

Toward an Anthropology of Screens Mauro Carbone, Graziano Lingua, 2023-10-04 This book shows that screens don't just distribute the visible and the invisible but have always mediated our body's relationships with the physical and anthropological cultural environment. By combining a series of historical genealogical reconstructions going back to prehistoric times with the analysis of present and near future technologies, the authors show that screens have always incorporated not only the hiding/showing functions but also the protecting/exposing ones as the Covid 19 pandemic retaught us. The intertwining of these functions allows the authors to criticize the mainstream ideas of images as inseparable from screens of words as opposed to images and of what they call Transparency 2.0 ideology which currently dominates our socio-political life. Moreover, they show how wearable technologies don't approximate us to a presumed disappearance of screens but seem to draw a circular pathway back to using our bodies as screens. This raises new relational, ethical and political questions which this book helps to illuminate.
