When death comes unexpectedly Jasmine O Dale is astonished at what she recalls her mother's journals and one enchanting day on a mountain in Japan with its rich tapestry of memories where reality blurred between past and present While she precariously bridged two cultures with her looks her heart and her destiny a clash of wills eventually drove her and her American father Jasper apart Haunted by mistakes of her youth and seeking redemption hoping to unravel the secrets of her parents postwar marriage she visited the shrine of her Japanese mother Kitsune's youth From her arrival in Japan through every turn in the Tunnel of Ten Thousand Torii at Fushimi Inari Grand Shrine Jasmine relived formative moments from her 1960s childhood in Detroit Michigan Race riots and fear devastated the city and those cultural influences took their toll on her family Against the odds she and Kitsune both developed their full potential as photographers In her last moments as the memories snap into place like images from the reel of film that was her life Jasmine discovers on which side of the limen she stands *Liminality The Fox Woman's Child* examines the consequences of war racism and religious differences on familial relationships presented as a Japanese style ghost story with plot twists in the manner of traditional folklore If death came this suddenly what would you recall *Victorian Cultures of Liminality* Amina Alyal, Susan Anderson, 2018-07-27

This volume is unique in its focus on cross fertilisation in the arts on very specific exploration of liminal spaces and on the representation of marginal figures in writing The essays here grew out of the Borders and Margins colloquium held at Leeds Trinity University UK in April 2010 which was the fourth in a series of colloquia This collection moreover contributes to a growing area of scholarship which explores Anglo French interactions and exchanges In choosing the term liminality the editors are aware of

its nuanced implications allowing suggestions both of the initial and the transitional The contributors here are academics from the fields of literature history and art history and their essays cover art history literature cultural history the arts and faith Altogether this collection evokes a sense of temporal shift in that changes in values and focus are uncovered as the nineteenth century progresses Some have an ekphrastic quality showing how pictures can have a narrative and how pictures as well as texts can be encoded with moral and social interpretations Close scrutiny is applied to different kinds of texts fiction and non fiction and the purposes for which they were produced This book will appeal to scholars and academics interested in a wide range of cross categorisational transactions in nineteenth century Britain It will be of interest to scholars of Victorian culture and English nineteenth century literature and art particularly in terms of genre as well as to academics interested in the development of social personal and national identities Liminal Lives Susan Merrill Squier, 2004-12-07 A study of the mutually constitutive relations between Western biomedicine and Anglo American literature in the 20th and early 21st centuries tracing the interwoven processes by which both fields have transformed the course of human life

Comedy and the Woman Writer Judy Little, 2015-08-01 Recent critics have affirmed the difficulty perhaps the impossibility of defining modern comedy at the same time some feminist scholars are seeking to understand the special comedy often present in literature written by women Comedy and the Woman Writer responds to both these concerns of recent criticism feminist literary theory and theories of comedy Judy Little develops a critical apparatus for identifying feminist comedy in recent fiction especially the radical political and psychological implications of this comedy and then applies and tests her theory by examining the novels of Virginia Woolf and Muriel Spark Despite recent scholarly attention to Woolf the profound comedy of her work has been largely overlooked and the comic fiction of Spark has seldom had the responsible and attentive criticism that it deserves The introductory chapter draws upon anthropology and sociology as well as literary criticism and the fiction of feminist writers such as Woolf Doris Lessing and Monique Wittig to define a modern feminist comedy Four central chapters then explore the implications of this comedy in the novels of Woolf and Spark Little distinguishes between on the one hand several varieties of traditional comedy and satire and on the other the festive or liminal comedy to which feminist comedy belongs Both Woolf and Spark mock centuries old mythic patterns and behaviors deriving from basic social norms as well as the values emerging from these norms It is one thing the author points out to find manners amusing to scourge vices or to mock the follies of lovers it is a much more drastic act of the imagination to mock the very norms against which comedy has traditionally judged vices follies and eccentricities While the comedy of Woolf and Spark has some precedent in festive or liminal celebrations during which even basic values and behavior are abandoned feminist comedy displays its radical nature by implying that there is no resolution to the inverted overturned world the world in revolutionary transition The final chapter considers briefly in the light of the critical model of feminist comedy the work of several other twentieth century writers including Jean Rhys Penelope Mortimer and Margaret Drabble The presence of

radical comedy in the fiction of these and other writers suggests the need for continuing attention to the theory of feminist comedy proposed in this study Exploited, Empowered, Ephemeral Denise Burkhard, 2023-07-10 Childhood in neo Victorian fiction for both child and adult readers is an extremely multifaceted and fascinating field This book argues that neo Victorian fiction projects multiple competing visions of childhood and suggests that they can be analysed by means of a typology the childhood scale which provides different categories along the lines of power relations and literary possible worlds theory The usefulness of both is exemplified by detailed discussions of Philippa Pearce's *Tom's Midnight Garden* 1958 Eva Ibbotson's *Journey to the River Sea* 2001 Sarah Waters' *Fingersmith* 2002 and Dianne Setterfield's *The Thirteenth Tale* 2006 **Pacific Island Flying Foxes** Don E. Wilson, Gary L. Graham, 1992 Fox-wife Motif in Three Classical Japanese Texts Julia Lynn Beebe, 1997 *Polygamy and Sublime Passion* Keith McMahon, 2009-11-24 For centuries of Chinese history polygamy and prostitution were closely linked practices that legitimized the polygynous male the man with multiple sexual partners Despite their strict hierarchies these practices also addressed fundamental antagonisms in sexual relations in serious and constructive ways Qing fiction abounds in stories of female resistance and superiority Women main wives concubines and prostitutes were adept at exerting control and gaining status for themselves while men indulged in elaborate fantasies about female power In *Polygamy and Sublime Passion* Keith McMahon introduces a new concept passive polygamy to explain the unusual number of Qing stories in which women take charge of a man's desires turning him into an instrument of female will To this he adds a story that haunted the institutions of polygamy and prostitution the tale of sublime passion in which the main characters are a remarkable woman and her male lover Throughout the book McMahon examines how polygamy prostitution and the story of sublime passion encountered the first stages of paradigmatic change in the nineteenth century decades before the legal abolition of polygamy By the end of the Qing dynasty in 1911 love stories were celebrating the exploits of street smart prostitutes who fleeced gullible patrons in the bustling city of Shanghai What do these characters have in common with their early counterparts as men and women became inhabitants of a new city in an era flooded with ideas from radically foreign sources all of this taking place in a time of economic and cultural dislocation McMahon reads late Qing love stories in a historically symbolic way taking them as part of a larger fantasy of Chinese civilization undergoing a fundamental crisis The polygamous marriage and the affairs of the brothel became metaphorical staging grounds for portraying the destiny of China on the verge of modernity Finally McMahon speculates on the changes polygamous sexuality underwent after the Qing dynasty ended and whether it exerted a residual influence in later times *Polygamy and Sublime Passion* will undoubtedly engage those interested in Chinese society culture literature and gender studies as well as comparativists seeking to understand the diverse responses to modernization around the world **Divination and Healing** Michael Winkelman, Philip M. Peek, 2022-08-23 Divination is an important feature of cultures all over the world While some may still question the efficacy of divination systems they continue to serve their communities by diagnosing ailments

prescribing healing treatments and solving problems Yet despite their universality there are relatively few comprehensive studies of divination systems This volume seeks to fill this gap regarding the use of divination in healing Here some of the world's leading authorities draw on their own fieldwork and participation in ritual to present detailed case studies demonstrating that divination rituals can have therapeutic effects As the contributors examine the systems of knowledge that divination articulates and survey the varieties of divinatory experience they seek to analyze divination as an epistemological system as a social process and as a therapeutic endeavor While some of their findings reinforce traditional assumptions about the importance of social control spirit relations and community support in the divination process the authors place these considerations within new epistemological frameworks that emphasize the use of alternative modes of knowing In this wide ranging volume readers will find coverage of classic Ifa systems Buddhist influenced shamanic practices in the former Soviet Union the reconciliation of Muslim beliefs and divinatory practices in Thailand Native American divination used in diagnosis Maya calendrical divination in Guatemala mediumistic and chicken oracle divination among the Sukuma of Tanzania Ndembu divination focusing on the process of collective healing and divination among the Samburu Maasai of Kenya featuring dialogues from actual healing sessions Together these contributions argue for new perspectives on the study of divination that emphasize not only the epistemological roots of these systems but also their multifaceted therapeutic functions

Divination and Healing is a rich source of both data and insight for scholars of ritual religion medical anthropology and the psychology of altered states of consciousness
