

OPENING NOTES FOR THE TEACHER:

The Facilitator's Manual is to be used as a reference tool for teachers to plan lessons related to the SMAW Units of Study.

The following lesson plans are based around the lesson slides in the SMAW PowerPoint presentations and should be used in conjunction with the units of study.

Print-outs can be made of each lesson if teachers want to hand hard copies to the students in the class.

Arc Welding Safety

Safe welding practices shall always be used.

- Teachers and students should read and understand the following before welding:

Metals Abstracts ,1996 **Process Piping** C. Becht,2004 Fully updated for the 2004 edition of the ASME B31 3 Code this second edition provides background information historical perspective and expert commentary on the ASME B31 3 Code requirements for process piping design and construction It provides the most complete coverage of the Code that is available

today and is packed with additional information useful to those responsible for the design and mechanical integrity of process piping. The author is a long serving member and present chairman of the ASME B31.3 Process Piping Code Committee. The 2004 edition of ASME B31.3 contains significant technical changes such as addition of weld joint strength reduction factors in the creep regime, alternative flexibility analysis rules, alternative rules for occasional loads at elevated temperatures, changes to the factors for higher and lower cycles among others. The book describes these new rules and the thinking behind them. Dr. Becht explains the principal intentions of the Code covering the content of each of the Code's chapters. The book inserts cover special topics such as calculation of refractory lined pipe wall temperature, spring design, design for vibration, welding processes, bonding processes and expansion joint pressure thrust. Appendices in the book include useful information for pressure design and flexibility analysis as well as guidelines for computer flexibility analysis and design of piping systems with expansion joints.
