**DEEP DARK UNSETTLING** 100 Gothic Classics in One Edition is an exceptional anthology that captures the haunting beauty and profound complexity of Gothic literature. This meticulously curated collection traverses a labyrinth of atmospheric tales and chilling narratives penned by celebrated literary figures. The diverse array of macabre plots and sublime styles offers a captivating journey through shadowy manors, psychological intrigue, and supernatural reckonings. Standout pieces within the collection exemplify the Gothic tradition's penchant for exploring the brooding interplay of light and dark, both metaphorically and literally, across a range of dramatic and contemplative stories. The anthology brings together an illustrious assembly of authors whose works collectively illuminate the Gothic tradition's enduring allure. Charles Dickens, Mary Shelley, and Edgar Allan Poe, among others, contribute their distinctive voices to this dark symphony of existential exploration. Rooted in the socio-cultural contexts of the Romantic, Victorian, and early modern periods, these authors delve into themes of madness, subversion, and transcendence. By interweaving historical and cultural backdrops, they enrich our understanding of a genre that challenges and expands literary boundaries. An indispensable resource for both aficionados of Gothic literature and newcomers, **DEEP DARK UNSETTLING** presents a tapestry of themes and styles that entices readers into the shadowy recesses of the human psyche. This anthology offers an unparalleled opportunity to experience the broad scope of Gothic narratives within a single volume, making it a treasure trove of educational insight and imaginative depth. Readers are invited to engage with the anthology's multidimensional perspectives, fostering an enriched dialogue among the resonant voices this collection so artfully assembles.

*Classics and Irish Politics, 1916-2016* Isabelle Torrance, Donncha O'Rourke, 2020-10-28 This collection addresses how models from ancient Greece and Rome have permeated Irish political discourse in the century since 1916. The 1916 Easter Rising, when Irish nationalists rose up against British imperial forces, became almost instantly mythologized in Irish political memory as a turning point in the nation's history that paved the way for Irish independence. Its centenary has provided a natural point for reflection on Irish politics, and this volume highlights an unexplored element in Irish political discourse: namely, its frequent reliance on reference to, and tensions with, classical Greek and Roman models. Topics covered include the reception and rejection of

classical culture in Ireland the politics of Irish language engagement with Greek and Roman models the intersection of Irish literature with scholarship in Classics and Celtic Studies the use of classical referents to articulate political inequalities across gender sexual and class hierarchies meditations on the Northern Irish conflict through classical literature and the political implications of neoclassical material culture in Irish society As the only country colonized by Britain with a pre existing indigenous heritage of expertise in classical languages and literature postcolonial Ireland represents a unique case in the field of classical reception This book opens a window on a rich and varied dialogue between significant figures in Irish cultural history and the Greek and Roman sources that have inspired them a dialogue that is firmly rooted in Ireland s historical past and continues to be ever evolving *Official List and Prices of Books* Louisiana. Dept. of Education,1913

Expurgating the Classics Bloomsbury Publishing,2014-06-20 In the first collection to be devoted to this subject a distinguished cast of contributors explores expurgation in both Greek and Latin authors in ancient and modern times The major focus is on the period from the seventeenth to the twentieth century with chapters ranging from early Greek lyric and Aristophanes through Lucretius Horace Martial and Catullus to the expurgation of schoolboy texts the Loeb Classical Library and the Penguin Classics The contributors draw on evidence from the papers of editors and on material in publishing archives The introduction discusses both the different types of expurgation and how it differs from related phenomena such as censorship A Second Appendix to the Eton School Lists, Comprising the Years 1862-5-8 and 1871-4-7 Eton College,1884 *Growing and Knowing: A Selection Guide for Children's Literature* Mary Trim,2005-04-25 No detailed description available for *Growing and Knowing A Selection Guide for Children s Literature* *Asian Classics on the Victorian Bookshelf* Alexander Bubb,2023-03-14 The interest among Victorian readers in classical literature from Asia has been greatly underestimated The popularity of the Arabian Nights and The Rubaiyat of Omar Khayyam is well documented Yet this was also an era in which freethinkers consulted the Quran in which schoolchildren were given abridgements of the Ramayana to read in which names like Kalidasa and Firdusi were carved on the fa ades of public libraries and in which women s book clubs discussed Japanese poetry But for the most part such readers were not consulting the specialist publications of scholarly orientalists What then were the translations that catalysed these intercultural encounters Based on a unique methodology marrying translation theory with empirical techniques developed by historians of reading this book shines light for the first time on the numerous amateur translators or popularizers who were responsible for making these texts accessible and disseminating them to the Victorian general readership *Asian Classics on the Victorian Bookshelf* explains the process whereby popular translations were written published distributed to bookshops and libraries and ultimately consumed by readers It uses the working papers and correspondence of popularizers to demonstrate their techniques and motivations while the responses of contemporary readers are traced through the pencil marginalia they left behind in dozens of original copies In spite of their typically limited knowledge of source languages *Asian Classics* argues

that popularizers produced versions more respectful of the complexity cultural difference and fundamental untranslatability of Asian texts than the professional orientalist whose work they were often adapting The responses of their readers likewise frequently deviated from interpretive norms and it is proposed that this combination of eccentric translators and unorthodox readers triggered flights of translation whereby historical individuals can be seen to escape the hegemony of orientalist forms of knowledge      *The Classics of International Law* James Brown Scott, 1923
