Listening Closely A Journey To Bilateral Hearing:

Listening Closely Arlene Romoff,2019-05-28 Imagine what it would be like not to hear a sound no music no friendly voices no children's laughter Arlene Romoff doesn't have to imagine how it would feel she lived it Although she was born with normal hearing in her late teens it began to slip away as if someone were lowering the volume of the world around her Over the next twenty five years Arlene began a long slow descent into deafness so profound that no hearing aid or assistive device could help The experience was devastating But then Arlene opted for what she considers a miracle She got a cochlear implant Using electrodes threaded into the cochlea an internal computer chip and an external computer processor cochlear implants bypass the damaged portion of the cochlea and stimulate the auditory nerve directly allowing sound to reach the brain Amazingly she could hear again Arlene's journey however isn't just about the magic of technology What she endured reveals as much about the strength of the human spirit about the wonders of chance and fate and about making the most of what life dishes out For Arlene events seemed to unfold almost as if they were a part of some elaborate plan just when she went deaf her insurance company began paying for the implants And ten years later when her old cochlear implant finally failed she received new state of the art technology and underwent yet another metamorphosis one that helped her continue to counsel others in a similar situation LISTENING CLOSELY will give you a chance to walk in Arlene Romoff's shoes to understand the pain of her loss and the joy of once again being able to hear the music of the world Those suffering from hearing loss or who have loved one who is will find Arlene's very special journey both inspirational and informative

Coming to Our Senses Susan R. Barry, 2021-06-08 A neurobiologist reexamines the personal nature of perception in this groundbreaking guide to a new model for our senses We think of perception as a passive mechanical process as if our eyes are cameras and our ears microphones But as neurobiologist Susan R Barry argues perception is a deeply personal act Our environments our relationships and our actions shape and reshape our senses throughout our lives This idea is no more apparent than in the cases of people who gain senses as adults Barry tells the stories of Liam McCoy practically blind from birth and Zohra Damji born deaf in the decade following surgeries that restored their senses As Liam and Zohra learned entirely new ways of being Barry discovered an entirely new model of the nature of perception Coming to Our Senses is a celebration of human resilience and a powerful reminder that before you can really understand other people you must first recognize that their worlds are fundamentally different from your own Living Better with Hearing Loss Katherine Bouton, 2015-06-09 More than 48 million Americans suffer from hearing loss and audiologists agree this is a national epidemic LIVING BETTER WITH HEARING LOSS is a practical guide to daily life with hearing loss covering topics from hearing tests and buying and paying for hearing aids to deciding whether to get a cochlear implant to navigating airports job interviews and first dates when you suffer from hearing loss Useful and readable for the newly hearing impaired those who have been struggling for years and their families Author Katherine Bouton has also written Shouting Won t Help a memoir of

her adult onset hearing loss Hearing Beethoven Robin Wallace, 2018-10-30 The book deepens readers knowledge of Beethoven's artistic life while broadening their understanding of hearing and loss Highly recommended Library Journal We re all familiar with the image of a scowling Beethoven struggling to overcome his rapidly progressing deafness That Beethoven continued to play and compose for more than a decade after he lost his hearing is often seen as an act of superhuman heroism But the truth is that Beethoven's response to his deafness was entirely human And by demystifying what he did we can learn a great deal about Beethoven's music No one is better positioned to help us do so than Robin Wallace who not only has dedicated his life to the music of Beethoven but also has close personal experience with deafness Wallace's late wife Barbara lost her hearing Despite receiving a cochlear implant Barbara didn't overcome her deafness or ever function again like a hearing person Beethoven also never overcame his deafness But the composer accomplished something even more challenging he adapted to his hearing loss and changed the way he interacted with music revealing important aspects of its very nature in the process Wallace tells the story of Beethoven's creative life interweaving it with his and Barbara's experience to reveal aspects that only living with deafness could open up The result makes Beethoven and his music more accessible helping us see how a disability can enhance human wholeness A convincing and moving probe into Beethoven s essence one senses the author s profound love and admiration for his lost wife and for Beethoven himself Harvey Laughing at the Days to Come Tessa Sachs author of The Ninth Beethoven and the World in 1824 Thompson, 2019-11-15 In Laughing at the Days to Come Tessa Thompson shares a poignant story of physical suffering and her journey to not only understand God's hand at work in it but to face the future with laughter This book is gospel centered and hope filled Page after page the author directs our focus to Christ and his work for us We all face suffering in this fallen world but we are not without hope In Laughing at the Days to Come readers are equipped to face their own stories of suffering with joy because of our present and future hope in Christ Tessa Thompson was fifteen years old when she was diagnosed with a rare neurological disease that took away her hearing and would eventually cause chronic pain and other health complications Faced with a future of uncertainty she encountered Proverbs 31 25 Strength and dignity are her clothing and she laughs at the time to come The godly woman of Proverbs 31 had something Tessa lacked a vision for life that allowed her to laugh at the future Tessa recognized she needed this laughter in order to endure lifelong suffering in a way that honored God In this warmly personal account Tessa insightfully considers what she calls the Christian's peculiar perspective on suffering and shows you how the hope of God's Word will enable you to laugh at the days to come even in the midst of tears and suffering Table of Contents PART 1 Laughter Its Definition Chapter 1 Her Trial He Gives and Takes Away Chapter 2 Her Vision A Woman Who Laughs Chapter 3 Her Reality Living in a Vale of Tears Chapter 4 Her Dilemma A Peculiar Perspective on Suffering PART 2 Laughter Its Doctrine Chapter 5 Her Necessity A Sober Minded Suffering Chapter 6 Her Comfort God s Fatherly Sovereignty Chapter 7 Her Guide Christ s Perfect Example Chapter 8 Her Guarantee The
