Lil Abner The Frazetta Years Vol 1 1954 1955:

The Oxford Handbook of Musical Theatre Screen Adaptations Dominic McHugh, 2019-06-14 Hollywood's conversion to sound in the 1920s created an early peak in the film musical following the immense success of *The Jazz Singer*. The opportunity to synchronize moving pictures with a soundtrack suited the musical in particular since the heightened experience of song and dance drew attention to the novelty of the technological development. Until the near collapse of the genre in the 1960s, the film musical enjoyed around thirty years of development as landmarks such as *The Wizard of Oz*, *Meet Me in St. Louis*, *Singin' in the Rain*, and *Gigi* showed the exciting possibilities of putting musicals on the silver screen. *The Oxford Handbook of Musical Theatre Screen Adaptations* traces how the genre of the stage to screen musical has evolved, starting with screen adaptations of operettas such as *The Desert Song* and *Rio Rita*, and looks at how the Hollywood studios in the 1930s exploited the publication of sheet music as part of their income. Numerous chapters examine specific screen adaptations in depth, including not only favorites such as *Annie* and *Kiss Me Kate*, but also some of the lesser-known titles like *Lil Abner* and *Roberta*, and problematic adaptations such as *Carousel* and *Paint Your Wagon*. Together, the chapters incite lively debates about the process of adapting Broadway for the big screen and provide models for future studies.

Al Capp Michael Schumacher, Denis Kitchen, 2013-02-26 More than thirty years have passed since Al Capp's death, and he may no longer be a household name. But at the height of his career, his groundbreaking comic strip *Lil Abner* reached ninety million readers. The strip ran for forty-three years, spawned two movies and a Broadway musical, and originated such expressions as *hogwash* and *double whammy*. Capp himself was a familiar personality on TV and radio; as a satirist, he was frequently compared to Mark Twain. Though *Lil Abner* brought millions of joy, the man behind the strip was a complicated and often unpleasant person. A childhood accident cost him a leg, leading him to art as a means of distinguishing himself. His apprenticeship with Ham Fisher, creator of *Joe Palooka*, started a twenty-year feud that ended in Fisher's suicide. Capp enjoyed outsized publicity for a cartoonist, but his status abetted sexual misconduct and protected him from the severest repercussions. Late in life, his politics became extremely conservative; he counted Richard Nixon as a friend, and his gift for satire was redirected at targets like John Lennon, Joan Baez, and anti-war protesters on campuses across the country. With unprecedented access to Capp's archives and a wealth of new material, Michael Schumacher and Denis Kitchen have written a probing biography. Capp's story is one of incredible highs and lows of popularity and villainy of success and failure, told here with authority and heart.

The Human Figure on Film Seth Barry Watter, 2023-10-01 *The Human Figure on Film* asks what it is we look for when we look at human beings projected on a screen. People have appeared onscreen since film was invented. Nothing could be more common, and yet nothing confounds us more than a filmed human being. Scholars and critics have attempted to reduce the mystery, creating methodologies that make this figure legible. Some of their efforts form the subject of this book. Each chapter is devoted to a single central concept: the natural, the pictorial, the institutional, and the fictional, that

viewers have used to make sense of what they see Each concept in turn is tied to the work and methods of a particular kind of historical observer the natural historian Ray L Birdwhistell the aesthete or pictorialist Victor O Freeburg the anthropologist of institutions Hortense Powdermaker and the critic of fiction V F Perkins All of these researchers have their own interests and criteria of understanding ranging from a microscopic look at gestures to a broad view of characters Using a combination of critical history biography and formal analysis *The Human Figure on Film* offers a fresh approach to the problem of figuration in an age of digital cinema It is at once a cross section of the field of film studies a handbook of methods and an inquiry into the nature of inquiry itself

Dangerous Curves Brent Frankenhoff, 2012-11-16 The oh so sexy but oh so dangerous dames of the comic book world

Holisms of communication James McElvenny ,Andrea Ploder, 2021 A central pillar of contemporary communication research is the analysis of filmed interactions between people The techniques employed in such analysis first took on a recognizably modern form in the 1970s but their roots go back to the earliest days of motion picture technology in the late nineteenth century This book presents original essays accompanied by written responses which together create a dialogue exploring early efforts at audio visual sequence analysis and their common goal to capture the whole of the communicative situation The first three chapters of this volume look at the film based research of Gestalt psychologists in Berlin as well as psychologists in the orbit of Karl and Charlotte Bühler in Vienna in the first decades of the twentieth century Most of these figures along with many other Central European scholars of this era were driven into exile in the United States after the rise of National Socialism in the 1930s This scientific migration led to the cross pollination of communication studies in America an outcome visible in the leading project in interaction research of the mid twentieth century the Natural History of an Interview The following two chapters examine this project in its historical context The volume closes with a critical edition of a treasure from the archives the transcript of a speech delivered by Ray Birdwhistell a key participant in the Natural History of an Interview project and founder of kinesics
