awakening and enhancing women's innate sensual, emotional, and spiritual energies. Provides emotional healing by releasing traumatic memories stored in the yoni. Includes exercises that use sexual energy to cleanse and stimulate the chakras. Empowers women to draw strength and radiant vitality from the restored connection to their innermost core. Yoni is the Sanskrit word for the female genitalia, describing not only the anatomy but also encompassing the energetic and spiritual dimensions. While a yoni massage offers women the opportunity to enhance their sexuality, Michaela Riedl shows that the effects of this practice are much more profound and have ramifications affecting every area of life. Long-held inhibitions in the West about sexuality and the shame and guilt associated with the sexual zones of the body have created deep-seated barriers that prevent individuals from fully expressing themselves. The practices provided in Yoni Massage are designed to allow women to overcome these barriers and reconnect to their innermost core and deepest feminine nature. Yoni massage is not simply a hands-on technique but involves the conscious direction of energy throughout the body through deep breathing and visualization. It provides women the ability to cleanse and energetically stimulate the chakras as well as achieve emotional healing by releasing the traumatic pain that often becomes seated in the yoni. The author explains that the relegation of this important spiritual and energetic center to a private part hinders the process of enlightenment. Once women are able to be in touch with their yoni energy, their connection to the entire web of life is restored to its rightful place.

Culture & Sexuality Lois McDermott, 1996 Lingam Massage Eliza Schuiling, 2022-09-23 A lingam massage is a tantric sex practice zeroed in on rubbing the penis. Dissimilar to your typical hand work, the lingam rub includes massaging and stroking the penis as well as integrating further developed methods including the balls, perineum, and the prostate also.

known as the Consecrated Spot too The lingam rub isn't tied in with having one climax and being finished All things considered it's tied in with attempting to feel increasingly more delight that will become floods of numerous climaxes all through the back rub Indeed different climaxes aren't only for individuals with clitorises Lingam is the Sanskrit word for penis and freely means wand of light In tantra reasoning we approach the lingam from a position the very pinnacle of adoration and regard the same way we approach the yoni or vagina The yoni back rub may be viewed as what might be compared to the lingam massage just performed on individuals with vaginas While you give your accomplice joy through their wand of light you are loaded up with that equivalent energy or light in a cognizant trade of energy in giving and getting joy A major piece of hallowed sexuality is figuring out how to cherish the penis and not fear it Numerous ladies I work with are as yet not absolutely OK with taking care of a man's penis Assuming that is an ideal case for you carve out opportunity to consider any bad introductions you might have acquired from your folks or your way of life Lingam rub is a training that really respects the penis and the individuals who have them We do it to give them joy There is likewise an enormous measure of sexual energy or chi in an individual's penis and figuring out how to animate and circle it is extremely strong At the point when I went to India to concentrate on tantra and yoga I was stunned at first to see sculptures of the Shiva lingam that addressed the God Shiva For a great many people it addresses a condition of reflection In any case for old tantric professionals this held a mystery meaning that this strong God energy was in the penis which was remembered to contain the most manly pith packed in one spot
