*Linguistic Meaning (RLE Linguistics A: General Linguistics)* Keith Allan, 2014-02-03 Dr Keith Allan presents a coherent consistent and comprehensive account of linguistic meaning centred around an informally presented theory of meaning. It is intended for graduate and undergraduate students of linguistics or any linguist curious about what a theory of meaning should seek to accomplish and the way to achieve that aim. The work assumes that the primary task of a theory of linguistic meaning is to describe the meaning of speech acts. This in turn presupposes a theory of semantics and a theory of prosodic meaning as well as a proper treatment of the co-operative principle, context and background information. These matters are dealt with in detail. The second task of a theory of linguistic meaning is to identify what meaning is to explain the relationships between sense and denotation and to explicate the nature of meaningful properties and meaning relations. These matters are fully covered and the work concludes with a summary of the principle arguments presented.

They examine language structures and how they are dictated by both the meanings and forms of communication employed, semantics by focusing on the denotation of words and fixed word combinations and semiology by

studying sign and sign processes As numerous interrelated fields connect to and sub disciplines branch off from these major spheres they are essential to a thorough grounding in linguistics and crucial for further study Routledge Library Editions Semantics and Semiology collects together wide ranging works of scholarship that together provide a comprehensive overview of the preceding theoretical landscape and expand and extend it in numerous directions A number of interrelated disciplines are also discussed in conjunction with semantics and semiology such as anaphora pragmatics syntax discourse analysis and the philosophy of language This set reissues 14 books originally published between 1960 to 2000 and will be of interest to students of linguistics and the philosophy of language

*Indirect Reports and Pragmatics* Alessandro Capone, Ferenc Kiefer, Franco Lo Piparo, 2015-12-01 This volume offers the reader a singular overview of current thinking on indirect reports The contributors are eminent researchers from the fields of philosophy of language theoretical linguistics and communication theory who answer questions on this important issue This exciting area of controversy has until now mostly been treated from the viewpoint of philosophy This volume adds the views from semantics conversation analysis and sociolinguistics Authors address matters such as the issue of semantic minimalism vs radical contextualism the attribution of responsibility for the modes of presentation associated with Noun Phrases and how to distinguish the indirect reporter's responsibility from the original speaker's responsibility They also explore the connection between indirect reporting and direct quoting Clearly indirect reporting has some bearing on the semantics pragmatics debate however there is much controversy on what is said whether this is a minimal semantic logical form enriched by

saturating pronominals or a much richer and fully contextualized logical form This issue will be discussed from several angles Many of the authors are contextualists and the discussion brings out the need to take context into account when one deals with indirect reports both the context of the original utterance and the context of the report It is interesting to see how rich cues and clues can radically transform the reported message assigning illocutionary force and how they can be mobilized to distinguish several voices in the utterance Decoupling the voice of the reporting speaker from that of the reported speaker on the basis of rich contextual clues is an important issue that pragmatic theory has to tackle Articles on the issue of slurs will bring new light to the issue of decoupling responsibility in indirect reporting while others are theoretically oriented and deal with deep problems in philosophy and epistemology *Meaning, Life and Culture* Helen Bromhead,Zhengdao Ye,2020-12-17
