

The background of the slide is a painting of a city skyline, likely New York City, reflected in water. The buildings are tall and dense, with various architectural styles. The water is depicted with soft, wavy lines, creating a sense of movement and reflection. The overall color palette is muted, with greens, blues, and browns.

**Institutions, Interaction and Social Theory** Will Gibson, Dirk vom Lehn, 2016-01-01 From hospitals and prisons to schools and corporations no matter how large or seemingly abstract all institutions are ultimately the result of the actions and interactions of people In this original and innovative text Gibson and Vom Lehn show the different ways in which studying people's own meaning making practices can help us understand the role of institutions in contemporary society Institutions Interaction and Social Theory takes the reader through the core conceptual foundations of Symbolic Interactionism Ethnomethodology and Conversation Analysis Engaging with a rich tradition in sociological thought it suggests that interactionist perspectives have remained largely absent in the study of institutions and how they contrast with and contribute to the broader field of research in institutional contexts With chapters on healthcare education markets and art and culture this text will be of interest to those studying institutions organisations and work in sociology and in business schools It will also be valuable for students of social theory interested in interactionism and in the challenges and opportunities of connecting complex theoretical discussions to real world examples

**Energy Democracy** Craig Morris, Arne Jungjohann, 2016-09-09 This book outlines how Germans convinced their politicians to pass laws allowing citizens to make their own energy even when it hurt utility companies to do so It traces the origins of the Energiewende movement in Germany from the Power Rebels of Sch nau to German Chancellor Angela Merkel's shutdown of eight nuclear power plants following the 2011 Fukushima nuclear accident The authors explore how by taking ownership of energy efficiency at a local level community groups are key actors in the bottom up fight against climate change Individually citizens might install solar panels on their roofs but citizen groups can do much more community wind farms local heat supply walkable cities and more This book offers evidence that the transition to renewables is a one time opportunity to strengthen communities and democratize the energy sector in Germany and around the world

*Analysis of Karen Z. Ho's Liquidated* Rodolfo Maggio,2017-07-05 Liquidated is a work of anthropology that treats an unusual despised subculture that of the Wall Street banker much as anthropologists have traditionally treated remote savage tribes But using the techniques of ethnography including interviews analysis of daily lives and fieldwork to investigate a modern western culture is not original what sets Ho s work apart and gives it value is her mastery of the critical thinking skills of problem solving and creative thinking to reconceptualize the way in which we understand the bankers mindset Ho s great achievement is to ask productive questions most obviously in drawing a distinction between bankers self image as capitalist warriors freeing up value for themselves and shareholders by increasing the liquidity of the assets they invest in and the social consequences of what they do As Ho points out not only is Wall Street institutionally inclined to embrace risk in order to maximise profit it is also prone to assume that increased liquidity most often achieved by breaking up and selling off the parts of a large corporation is a good in itself irrespective of the outcomes for the workers actually involved in these disposals Considering alternative possibilities and generating fresh solutions Ho determines that the capitalist principles that underpin Wall Street are myths not the expression of some natural economic law      **Liquidated** Rodolfo Maggio,2017-07-15 Liquidated uses ethnographic research traditionally used to study distant societies to dissect the culture of high finance on New York s famous Wall Street      **The Work of Wall Street ...
