A Practical Guide for Developing Cross-Disciplinary Collaboration Skills David Gosselin,2023-08-23

Solutions to societal and organizational problems require people from diverse fields of expertise to effectively work in team based collaborative environments To create these environments we need to address a myth in modern culture that people

have natural abilities to collaborate and work together Collaboration and teamwork are skills As such these skills need to be learned and practiced Commonly collaboration is learned through trial and error Team members have little or no training in how to effectively and efficiently harness the diversity of strengths among team members and maximize their contributions to the team The purpose of this book is to provide a practical process oriented guide that at its most fundamental level is about building relationships and promoting communication and learning among diverse groups of individuals that results in creative collaborative and inclusive problem solving environments This volume provides explicit approaches and processes that will help team members more effectively and efficiently create new knowledge and solutions for societal and organizational problems through collective action
