Mac OS X Forensics Christopher P. Collins, Utica College, 2013 This research evaluates MacResponse LE for use in live forensic investigations How does MacResponse LE compare to other Mac forensic tools What are the legal concerns for testing and validation in computer forensics These questions as well as the importance of Mac forensic courses at the higher education level are addressed throughout this document While there are a good amount of open source forensic tools available for Windows and Linux machines very few exist for Mac computers as of August 2013 This research was necessary to fill a gap in the computer forensics community By evaluating MacResponse LE in this document forensics investigators will now have an additional option to consider when they perform a live forensic analysis on a Mac MacResponse LE is beneficial to the law enforcement community and small forensic shops alike because there are no costs associated with the tool Overall the demand for new Mac forensic tools will be increasing with the popularity of Mac products such as MacBook s iMacs iPods and iPhones Similar tools to MacResponse LE can cost organizations thousands of dollars per year This research document

aims to fill that need for a new Mac forensics solution by offering a validation to an open source tool that will not cost any money out of pocket Conclusions formulated based on the validation of MacResponse LE concern the ongoing development of the tool The tool has not been updated since its release in mid year 2012 and with the advent of new Mac OS X operating systems coming out every few years a tool such as MacResponse LE could help to mitigate the backlog of processing Mac systems for digital evidence Keywords Cybersecurity Digital Forensics Computer Forensics Apple Macintosh NIJ Assured Information Security Utica College Capstone Thesis
