Macmillan Tour Guide:

The Complete Idiot's Guide to Running a Bed and Breakfast Park Davis, Susannah Craig, 2001 Provides advice on opening and running a successful bed and breakfast with information on such topics as drawing up a business plan setting guest policies getting listed in guidebooks and developing a Web site **Macmillan's Magazine** , 1890 *Discovering the MacMillan Way* Keith Pauling, 2013-07-16 The Macmillan Way is a long distance footpath that was developed to raise public awareness of the charity Macmillan Cancer Support The journey starts at Boston in the wide open flatlands of the fens After two days of level walking the route travels through the undulating farmlands of Rutland Leicestershire and Northamptonshire The path keeps rising as I travel through the glory of the Cotswold Hills before finally crossing the Dorset Downs to the finishing point on the shore at Chesil Beach During this expedition I will be investigating the places people and histories that have influenced the locations I visit From the genius of Isambard Kingdom Brunel to the rules of Dorset Knob Throwing this book will fascinate you from start to finish All royalties are donated to MacMillan Cancer Support Women and the Travel Guidebook, 1870-c.1910 Jasmine Proteau, 2025-01-31 Although the printing giants of John Murray and Karl Baedeker dominated the nineteenth century travel guidebook market women were important producers and consumers of guides This book argues that in the late nineteenth century women were key cultural producers of travel guidebooks an important form of non fiction mass media during an upsurge and shift in European travel and tourism While a limited number of studies have identified a small number of female authored guidebooks this is the first to take a broad view of women s place within the guidebook market situating female authored texts within a large and competitive book market to understand the role of gender in guidebook publication Given Italy s historic religious cultural and artistic significance to the Anglophone world guides to Italy were perhaps the most numerous among all the guidebooks targeted at travellers from the United Kingdom and North America in the nineteenth century and therefore form a key focus of this study **MacMillan's Magazine** Sir George Grove, David Masson, John Morley, Mowbray Morris, 1863 *Aeronautical publications* United States. Bureau of Air Commerce, 1932 *How to Manage your Distance and Open Learning Course* Lucinda Becker, 2017-03-14 This book is an essential guide to all aspects of open and distance learning covering how to choose a course how to manage the routine aspects of studying and how to make the most of the learning opportunities skills development and career advancement that can arise from your course Key areas include time management flexible learning techniques assessment finance problem solving and dovetailing your course with domestic and professional commitments The guidance is always practical and the tone is positive *The Publishers Weekly* , 1923 **Archaeologists in Print** Amara Thornton, 2018-06-25 *Archaeologists in Print* is a history of popular publishing in archaeology in the nineteenth and twentieth centuries a pivotal period of expansion and development in both archaeology and publishing It examines how British archaeologists produced books and popular periodical articles for a non scholarly audience and explores the rise in archaeologists public visibility

Notably it analyses women's experiences in archaeology alongside better known male contemporaries as shown in their books and archives. In the background of this narrative is the history of Britain's imperial expansion and contraction and the evolution of modern tourism in the Eastern Mediterranean and Middle East. Archaeologists exploited these factors to gain public and financial support and interest and build and maintain a reading public for their work supported by the seasonal nature of excavation and tourism. Reinforcing these publishing activities through personal appearances in the lecture hall, exhibition space and site tour and in new media film, radio and television, archaeologists shaped public understanding of archaeology. It was spade-work scripted. The image of the archaeologist as adventurous explorer of foreign lands, part spy, part foreigner, eternally alluring, solidified during this period. That legacy continues undimmed today. Praise for Archaeologists in Print. This beautifully written book will be valued by all kinds of readers; you don't need to be an archaeologist to enjoy the contents which take you through different publishing histories of archaeological texts and the authors who wrote them. From the productive partnership of travel guide with archaeological interest to the women who feature so often in the history of archaeological publishing, via closer analysis of the impact of John Murray Macmillan and Co and Penguin, this volume excavates layers of fascinating facts that reveal much of the wider culture of the late nineteenth and twentieth centuries. The prose is clear and the stories compulsive. Thornton brings to life a cast of people whose passion for their profession lives again in these pages. Warning: the final chapter on Archaeological Fictions will fill your 'to be read' list with stacks of new titles to investigate. This is a highly readable, accessible exploration into the dynamic relationships between academic authors, publishers and readers. It is, in addition, an exemplar of how academic research can attract a wide general readership as well as a more specialised one: a stellar combination of rigorous scholarship with lucid, pacy prose. Highly recommended. Samantha Rayner, Director of UCL Centre for Publishing, Deputy Head of Department and Director of Studies, Department of Information Studies, UCL.
