Macrobius Saturnalia Volume I Books 1 2 Loeb Classical Library:

Saturnalia, Volume I Ambrosius Aurelius Theodosius Macrobius, 2011-01-05 Saturnalia has been prized since the Renaissance as a treasure trove of otherwise unattested lore **Saturnalia, Volume I** Macrobius, Matthew's Account of the Massacre of the Innocents in Light of its Reception History Sung J. Cho, 2021-10-21 Sung Cho addresses the seeming contradiction of Herod the Great's massacre in Matthew 2 16 18 questioning why such a tragedy had to occur why it was included in the good news of Jesus and what connection it has to ancient prophecies In creating a reception history of the Massacre of the Innocents Cho progresses through two millennia worth of interpretation and depiction to highlight key works for discussion Beginning with a close reading of Matthew 2 16 18 Cho moves to analyse depictions of the tragedy in the Early Patristic Tradition from the sixth century to the early modern period and thus to the present day complete with an examination of visual interpretations of the massacre Cho's examination provides a positive step to understanding the depths of human suffering with the help of many diverse perspectives **The Herods** Bruce Chilton, 2021-08-03 Until his death in 4 BCE Herod the Great's monarchy included territories that once made up the kingdoms of Judah and Israel Although he ruled over a rich strategically crucial land his royal title did not derive from heredity His family came from the people of Idumea ancient antagonists of the Israelites Yet Herod did not rule as an outsider but from a family committed to Judaism going back to his grandfather and father They had served the priestly dynasty of the Maccabees that had subjected Idumea to their rule including the Maccabean version of what loyalty to the Torah required Herod's father Antipater rose not only to manage affairs on behalf of his priestly masters but to become a pivotal military leader He inaugurated a new alignment of power an alliance with Rome negotiated with Pompey and Julius Caesar In the crucible of civil war among Romans as the Triumvirate broke up and of war between Rome and Parthia Antipater managed to leave his sons with the prospect of a dynasty Herod inherited the twin pillars of loyalty to Judaism and loyalty to Rome that became the basis of Herodian rule He elevated Antipater's opportunism to a political art During Herod's time Roman power took its imperial form and Octavian was responsible for making Herod king of Judea As Octavian ruled he took the title Augustus in keeping with his devotion to his adoptive father's cult of the divine Julius Imperial power was a theocratic assertion as well as a dominant military economic and political force Herod framed a version of theocratic ambition all his own deliberately crafting a dynastic claim grounded in Roman might and Israelite theocracy That unlikely hybrid was the key to the Herodians surprising longevity in power during the most chaotic century in the political history of Judaism The Palgrave Handbook of the History of Women on Stage Jan Sewell, Clare Smout, 2020-04-29 This book brings together nearly 40 academics and theatre practitioners to chronicle and celebrate the courage determination and achievements of women on stage across the ages and around the globe The collection stretches from ancient Greece to present day Australasia via the United States Soviet Russia Europe India South Africa and Japan offering a series of analytical snapshots of women performers their work and the conditions in

which they produced it Individual chapters provide in depth consideration of specific moments in time and geography while the volume as a whole and its juxtapositions stimulate consideration of the bigger picture underlining the challenges women have faced across cultures in establishing themselves as performers and the range of ways in which they gained access to the stage Organised chronologically the volume looks not just to the past but the future it challenges the very notions of history stage and even the definition of women itself

A Cultural History of Plants in Antiquity Annette Giesecke, 2023-12-14 A Cultural History of Plants in Antiquity covers the period from 10 000 BCE to 500 CE This period witnessed the transition from hunter gatherer subsistence to the practice of agriculture in Mesopotamia and elsewhere and culminated in the fall of the Roman Empire the end of the Han Dynasty in China the rise of Byzantium and the first flowering of Mayan civilization Human uses for and understanding of plants drove cultural evolution and were inextricably bound to all aspects of cultural practice The growth of botanical knowledge was fundamental to the development of agriculture technology medicine and science as well as to the birth of cities the rise of religions and mythologies and the creation of works of literature and art The 6 volume set of the Cultural History of Plants presents the first comprehensive history of the uses and meanings of plants from prehistory to today The themes covered in each volume are plants as staple foods plants as luxury foods trade and exploration plant technology and science plants and medicine plants in culture plants as natural ornaments the representation of plants Annette Giesecke is Professor of Classics at the University of Delaware USA Volume 1 in the Cultural History of Plants set General Editors Annette Giesecke University of Delaware USA and David Mabberley University of Oxford UK

Venus and the Arts of Love in Renaissance Florence Rebekah Compton, 2021-03-11 In this volume Rebekah Compton offers the first survey of Venus in the art culture and governance of Florence from 1300 to 1600 Organized chronologically each of the six chapters investigates one of the goddess s alluring attributes her golden splendor rosy hued complexion enchanting fashions green gardens erotic anatomy and gifts from the sea By examining these attributes in the context of the visual arts Compton uncovers an array of materials and techniques employed by artists patrons rulers and lovers to manifest Venusian virtues Her book explores technical art history in the context of love s protean iconography showing how different discourses and disciplines can interact in the creation and reception of art Venus and the Arts of Love in Renaissance Florence offers new insights on sight seduction and desire as well as concepts of gender sexuality and viewership from both male and female perspectives in the early modern era

On the Origin of Myths in Catastrophic Experience, vol. 1: Preliminaries Marinus Anthony van der Sluijs, 2019-01-01 Creation myths around the world reveal an intricate network of recurrent motifs Many of these are counterintuitive and not widely known describing a time when the sky was low the stars did not yet shine multiple suns appeared the moon was brighter than the sun no land existed deities and mortals maintained frequent contact a world axis in the form of a tree ladder or giant man connected the earth with the sky a devastating flood or fire ended the old order and so forth The present work in multiple volumes aims to find an origin

for this cross culturally and internally consistent body of traditions in a series of extraordinary natural events relating especially to the earth's transition from the last glacial period to the Holocene This first volume sets the stage for the interdisciplinary hypothesis Essential lines of research receive a historical introduction comparative mythology catastrophism and the study of the mythical world axis in relation to the earth's rotation Various astronomical and meteorological interpretations that are not strictly catastrophist are explored for several types of myths about the sun the moon and the world axis but leave many of the most intriguing traditions unexplained It is argued that a structural core of the worldwide mythology of creation and destruction in which the cosmic axis takes pride of place points to a specific period of dramatic natural circumstances in real prehistoric time A new synopsis is provided of this universal mythological substrate It emerges that the mythical world axis cannot have been based on a single object seen or imagined at one of the poles as has usually been supposed This surprising conclusion paves the way for the innovative geomagnetic theory proposed in volume 2

Acheloios, Thales, and the Origin of Philosophy Nicholas J. Molinari, 2022-05-12 Through careful analysis of the archaeological record close reading of ancient sources and deep investigations into the languages of our past this study demonstrates the importance of the influence of the cult of Acheloios on Thales fundamentally changing our understanding of the origin of the philosophical experience in 6th century Ionia **Birds in Roman Life and Myth** Ashleigh Green, 2023-03-03

This book explores the place of birds in Roman myth and everyday life focusing primarily on the transitional period of 100 BCE to 100 CE within the Italian peninsula A diverse range of topics is considered in order to build a broad overview of the subject Beginning with an appraisal of omens augury and auspices including the sacred chickens consulted by generals before battle it goes on to examine how Romans farmed birds hunted them and kept them as pets It demonstrates how the ownership and consumption of birds were used to communicate status and prestige and how bird consumption mirrored wider economic and social trends Each topic adopts an interdisciplinary approach considering literary evidence alongside art material culture zooarchaeology and modern ornithological knowledge The inclusion of zooarchaeology adds another dimension to the work and highlights the value of using animals and faunal remains to interpret the past Studying the Roman view of birds offers great insight into how they conceived of their relationship with the gods and how they stratified and organised their society This book is a valuable resource for bird lovers and researchers alike particularly those studying animals in the ancient world

The Greek Worship of the Gods Friedrich Nietzsche, 2025-08-04 Nietzsche's lectures notes entitled On the Greek Worship of the Gods contain a detailed treatment of Greek religious life including classical studies architectural descriptions and theological discussions In addition the notes form the basis of Nietzsche's later published writings on the Greeks including many direct quotes from the notes The volume includes a translation an extensive introduction and two critical chapters from philosophical and classical studies perspectives The book provides new and important information on Nietzsche's thought for specialist and non specialist readers

Poetry in a World of Things

Rachel Eisendrath, 2018-04-06 Introduction Subjectivity and the antiquarian object Petrarch among the ruins of Rome Here comes objectivity Spenser's 1590 the Faerie Queene book 3 Playing with things reification in Marlowe's Hero and Leander Feeling like a fragment Shakespeare's the Rape of Lucrece Coda make me not object **Greek Erotic Epigram** Maria Kanellou, 2025-03-19 Despite its small size epigram attracted some of the best poetic talents of antiquity exerting a strong influence on Latin literature and continuing to inspire poetic creativity until today During the last decades research on epigram flourished to an unprecedented degree Greek Erotic Epigram A Diachronic Approach draws on and engages with this renewed scholarly interest in the briefest of the ancient Greek genres By shifting focus away from a particular poet collection and the epigrammatic production of a specific historical period it explores diachronically erotic epigram from various interpretative angles treating the surviving material as an organic whole Four motifs drive diachronic research encompassing a wide chronological span from the Hellenistic up until the early Byzantine era the lamp sea and nautical imagery the beloved's comparison to Aphrodite and Eros and the Erotes By analysing how these motifs were shaped and adapted over the centuries the book illustrates the epigrammatists changing attitudes towards the material inherited from earlier poetic tradition and leads to a deeper appreciation of the narrative techniques adopted by them as well as of the inner dynamics of poetic imitation and competition Moreover the scrutiny of the motifs within wider literary and historical backgrounds reveals the influence exerted by different cultural and sociopolitical environments on the epigrammatists work in the course of centuries The book offers a model for the type of diachronic research that can be applied to other epigrammatic subgenres and other motifs and to Latin epigram Evolution of Direct Discourse Marking from Classical to Late Latin Jana Mikulová, 2022-09-19 If you read a work by Cicero or Seneca and then open The Pilgrimage of Egeria Augustine or Gregory of Tours you will soon notice that Late Latin authors quote authorities differently They provide a perfect example of synthesising two potentially conflicting traditions classical and biblical This book examines how the system of direct discourse marking developed over the centuries It focuses on selecting marking means presents the dynamics of change and suggests factors that might have been at play The author guides the reader on the path that goes from the Classical prevalence of inquit to the Late innovative mix of marking words including the very classical inquit an increased use of dico the newly recruited ait and dicens influenced by biblical translations The book suggests that Late authors tried to make reading and understanding easier by putting quotative words before quotations and increasing the use of redundant combinations e.g. he answered saying The Archaeology of Sanitation in Roman Italy Ann Olga Koloski-Ostrow, 2015-04-06 The Romans developed sophisticated methods for managing hygiene including aqueducts for moving water from one place to another sewers for removing used water from baths and runoff from walkways and roads and public and private latrines Through the archeological record graffiti sanitation related paintings and literature Ann Olga Koloski-Ostrow explores this little known world of bathrooms and sewers offering unique insights into Roman sanitation

engineering urban planning and development hygiene and public health Focusing on the cities of Pompeii Herculaneum Ostia and Rome Koloski Ostrow's work challenges common perceptions of Romans social customs beliefs about health tolerance for filth in their cities and attitudes toward privacy In charting the complex history of sanitary customs from the late republic to the early empire Koloski Ostrow reveals the origins of waste removal technologies and their implications for urban health past and present

Sacred Disobedience Sharon L. Coggan, 2020-07-07 Sacred Disobedience A Jungian Analysis of the Saga of Pan and the Devil traces the ancient Greek God Pan who became distorted into the image of the Devil in early Christianity When Pan was demonized the powerful qualities he represented became repressed as Pan's visage twisted into the model of the Devil This book follows a Jungian analysis of this development In ancient Greek religion Pan was worshipped as an honored deity corresponding to an inner psycho spiritual condition in which the primitive qualities he represented were fully integrated into consciousness and these qualities were valued and affirmed as holy But in the era of early Christianity Pan dies and the Devil is born a twisted inflation possibly due to an underlying repression In the Jungian system repressed psychic contents do not disappear as proponents of the new order tacitly assume but distort and grow more powerful or inflate to cripple the psyche that refuses to incorporate these split off elements Repressed contents will expand to explosive force as the repressed elements eventually return regressively from below It becomes important then to understand what qualities the primitive Goat God carried to appreciate what was repressed in the Western psycho spiritual system and what subsequently needs reintegration

Imperial Cults Rebecca Robinson, 2023 Imperial Cults looks at the role of religious institutions in shaping imperial authority in Ancient China and Rome By examining the changes made by rulers of each state Emperor Wu of Han and Octavian Augustus in Rome it demonstrates that both rulers reshaped their respective religious institutions in order to consolidate both religious and political authority

True Names James J. O'Hara, 2017 A key research tool in Vergilian studies now in paper with substantial new material

Crossdressing in Context, Vol. 4 Transgender & Religion Ph. D. G. G. Bolich, 2009-01-01 Much debate exists over the proper religious perspective on transgender realities and people This volume examines transgender in the major world religions Extensive consideration is given to Christianity including the arguments presented both against transgender behaviors and by supporters of transgender people Religions covered include Christianity Judaism Islam Hinduism Buddhism Jainism Confucianism Taoism Shinto and indigenous religions such as Native American religions of the United States

Secretis bene uiuere siluis Stratis Kyriakidis, Charilaos N. Michalopoulos, 2024-06-25 This volume presents essays written in honour of Robert Maltby Emeritus Professor of Latin at the University of Leeds It offers a rich collection of modern scholarship covering a wide range of literary genres in Latin literature spanning from Augustan times up to the Italian Renaissance The value of this volume lies in its inclusion of new interpretations of well discussed texts from the past shedding light on texts that have recently garnered scholarly attention and sparked lively discussions Fifteen essays reflect the main areas of scholarship and interests of the honoree in a variety of

Roman literary genres with special focus on the Corpus Tibullianum but also on etymologising and textual criticism The collection is not exclusively intended for classicists historical linguists and textual critics By providing insightful discussions and fresh interpretations of themes and issues in Latin literature from a contemporary perspective it also appeals to anyone interested in Mediterranean studies the socio cultural aspects of literature and comparative literature
