*Smart on Crime* Garrick L. Percival, 2015-07-28 The most punitive era in American history reached its apex in the 1990s but the trend has reversed in recent years *Smart on Crime* The Struggle to Build a Better American Penal System examines the factors causing this dramatic turnaround It relates and echoes the increasing need and desire on the part of actors in the American government system to construct a penal system that is more rational and humane Author Garrick L Percival points out that the prison boom did not naturally emerge as a governmental response to increasing crime rates Instead political forces actively built and shaped the growth of a more aggressive and populated penal system He is optimistic that the shifting political forces surrounding crime and punishment can now reform the system explaining how current political actors can craft more constructive and just policies and programs The book shows how rationality and humanitarianism lead to a penal system that imprisons fewer people does less harm to the lives of individual offenders and those close to them and is less expensive to maintain The book presents empirical data to concretely demonstrate what is working and what is not in today s penal system It closely examines policies and practices in Texas Ohio and California as comparative illustrations on what progress has been made or needs to be made in penal systems across the United States The book includes a comprehensive discussion of highlighted issues and relates more than two dozen interviews with pivotal political actors who clarify why there is a major shift underway in the American penal system Their insights reveal paths that can be taken to improve the current penal system

**Contemporary Issues in Macroeconomics**

Joseph E. Stiglitz, Martin Guzman, 2016-04-29 In this edited collection Joseph Stiglitz and Martin Guzman present a series of studies on contemporary macroeconomic issues The book discusses a set of key lessons for macroeconomic theory following the recent global financial crisis and explores unconventional monetary policy in a post crisis world This volume is divided into five parts The introduction includes keynote speeches by the Governors of the Bank of Japan and Central Bank of Jordan Part one focuses on macroeconomic theory for understanding macroeconomic fluctuations and crises Part two addresses the issue of the measurement of wealth Part three discusses macroeconomic policies in times of crises Finally part four focuses on central banking and monetary policy *Principles of Macroeconomics* Howard J. Sherman, Michael A.

Meeropol, 2015-03-10 *Principles of Macroeconomics* by Howard J Sherman and Michael A Meeropol differs from other texts in that this book stresses far more the inherent instability of the macro economy The details of the business cycle come early and are integrated throughout the core of usual macro topics C I G X The book puts inflation into its proper perspective by recognising that unemployment is the much greater threat to the economic well being of the vast majority of the people Instead unemployment and its human toll are given far greater emphasis than other texts The Keynesian model is fully developed so is the statistical analysis of Wesley Mitchell The neoclassical model is covered in both its historical evolution and in its implications for current policy debates Finally there is strong coverage of the Euro zone crisis and its linkages to the United States *Institutions, Transition Economies, And Economic Development* Tim Yeager, 2018-02-07 Why are some

nations wealthy while others are desperately poor Despite the rapid advancement of technology and the free flow of information provided by computers many poor nations are falling further behind the wealthy nations of the world Why is it that these poorer nations cannot catch up Until recently economic theory provided limited help in answering these questions But the New Institutional Economics a rapidly growing body of economic theory may provide the answers Timothy Yeager's *Institutions Transition Economies and Economic Development* clearly explains the New Institutional Economics and applies its tenets to the transition economies of Poland and Russia Readers will gain a perspective on transition and developing economies that has never been explored before in a single book **Policy Challenges Of Globalisation In Sri Lanka**

Sarath Rajapatirana, 2024-12-27 This book provides a fresh look at the key challenges of policy formulation for a small country like Sri Lanka in a rapidly globalising world It goes beyond economics to include history politics and ideology of different governments of the country overtime and extends its analysis to other countries facing similar challenges The extent and speed of globalisation have been assessed through variables such as foreign direct investment migration trade openness and the macroeconomic policies to take an even keel [The Current State of Macroeconomics](#) C.

Usabiaga-Ibáñez, 1999-07-30 The book sets out to show the current state of macroeconomics from three main perspectives methodology theory and economic policy It is built on extensive conversation with some of the world's leading macroeconomists These are based on wide questionnaires covering jointly almost all the topics of macroeconomic theory as

well as questions of methodology real economy and even academic systems and future lines of research Some of the questions have been put to all the respondents or many of them with the aim of bringing out their different positions References about authors and themes are also provided

**Whither the Philippines in the 21st Century?** Rodolfo C Severino,Lorraine Carlos Salazar,2007 Examines contradictory economic and political trends occurring in the Philippines in order to gain a sense of the country s prospects

A Monetary Hope for Europe Max Guderzo,Andrea Bosco,2016 A Monetary Hope for Europe This book studies the euro in a global perspective and opens a new series edited by the Jean Monnet European Centre of Excellence of the University of Florence Verso l unificazione europea Most of the chapters have been written by economists who met and discussed their diverse views at a multi disciplinary conference organized by the Centre in May 2013 under the title The euro and the struggle for the creation of a new global currency Problems and perspectives in the building of the political financial and economic foundations of the European federal government The list of contributors also includes historians as well as European and international law academics Their essays have been revised on the basis and against the backdrop of an ongoing crisis of both the euro and the whole European project in the last years and months The volume aims to provide useful data and interpretations to improve knowledge on the euro and the European Union in their economic historical juridical and political perspectives

**Macroeconomics in Emerging Markets** Peter J. Montiel,2011-04-29 The macroeconomic experience of emerging and developing economies has tended to be quite different from that of industrial countries Compared to industrial countries emerging and developing economies have tended to be much more unstable with more severe boom bust cycles episodes of high inflation and a variety of financial crises This textbook describes how the standard macroeconomic models that are used in industrial countries can be modified to help understand this experience and how institutional and policy reforms in emerging and developing economies may affect their future macroeconomic performance This second edition differs from the first in offering extensive new material on themes such as fiscal institutions inflation targeting emergent market crises and the Great Recession numerous application boxes end of chapter questions references for each chapter more diagrams less taxonomy and a more reader friendly narrative and enhanced integration of all parts of the work
