Mad Bad Delightful Know Byron:

Edison's Ghosts Katie Spalding, 2023-05-16 Publishers Weekly Best Summer Reads Overturn everything you knew about history's greatest minds in this raucous and hilarious book where it turns out there's a finer line between genius and idiot than we've previously known. As Albert Einstein almost certainly never said, everyone is a genius, but if you judge a fish by its ability to climb a tree, it will live its whole life believing that it is stupid. So begins Katie Spalding's spunky takedown of the Western canon and how genius may not be as irrefutably great as we commonly understand. While most of us may never become Einstein, it may surprise you to learn that there's probably a bunch of stuff you can do that Einstein couldn't. And as Spalding shows, the famous prodigies she explores here were quite odd by any definition. For example, Thomas Edison, inventor of the lightbulb, believed that he could communicate with the undead and built the world's very first hotline to heaven, the Spirit Phone. Marie and Pierre Curie, famous for discovering radioactivity, slept next to a lump of radioactive material for years and strapped it to their arms to watch it burn them in real time. Lord Byron, acclaimed British poet, literally took a bear with him to university. Isaac Newton discovered the laws of gravity and motion, but he also looked up at the sun without eye protection. The result? Three days of blindness. Tesla, whose scientific work led to the invention of the AC unit, fell in love with a pigeon. Edison's *Ghosts* is filled with examples of the so-called best of humanity doing to put it bluntly, some really dumb shit. You'll discover stories that deserve to be told but never are, the hilarious, regrettable, and downright bafflingly lesser-known achievements that never made it into our history books until now.

A World Apart Gretta Curran Browne, *A WORLD APART* An Epic Novel From Ireland's Past The Michael Dwyer Story continues Book 3 of THE LIBERTY TRILOGY They thought they had killed him on the same winter night; his friend Sam McAllister had been shot dead on the hillside of Derrynamuck; they had chased Michael and seen a trail of his blood in the snow. Oh yes, the young rebel captain was dead and gone and would cause no further trouble to them, the hated militia who raped and burned houses at will and treated the people of Wicklow like some dirt that kept getting under their boots. Desperate for his protection from the militia's brutality, only the people refused to believe that Michael Dwyer was dead. To them, he was like a prince, a prince same as a king's son, and if Michael had been killed, all his friends would have been in mourning, but they were not. Too many times they had seen the small secret smiles of Michael's friends when the militia gloated over his death. And then there was Mary, his beautiful Mary who had adored him, why was she not looking in any way heart broken? Why was she just carrying on with her life as normal? No, the people concluded, Michael was not dead, injured, maybe a whole lot of bullets had flown towards him that night at Derrynamuck, but he had been dodging bullets for years and not one had ever reached him. No, only the stupid militia would believe that Michael had been defeated, the whole dumb pack of them. In her historical fiction novels, Gretta Curran Browne tells the story of actual people and actual events and, apart from using a few minor fictional characters, she does not change history or distort the true stories of the worthy people she has reclaimed from history to bring to a present.
