Supporting Reading in Grades 6-12 Sybil M. Farwell, Nancy L. Teger, 2012-06-11 This book presents a curricular framework for students grades 6 12 that school librarians and teachers can use collaboratively to enhance reading skill development promote literature appreciation and motivate young people to incorporate reading into their lives beyond the required schoolwork Supporting Reading Grades 6 12 A Guide addresses head on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students motivation and test scores The book provides a comprehensive framework for achieving this the READS curriculum which stands for Read as a personal activity Explore characteristics history and awards of creative works Analyze structure and aesthetic features of creative works Develop a literary based product and Score reading progress Each

of these five components is explained thoroughly describing how school librarians can encourage students to read as individuals in groups and as school communities support classroom teachers instruction and connect students to today's constantly evolving technologies. Used in combination with an inquiry information skills model the READS curriculum enables school librarians to deliver a dynamic balanced library program that addresses AASL's Standards for the 21st Century Learner.

The Eye of Minds (The Mortality Doctrine, Book One) James Dashner, 2013-10-08 From James Dashner author of the #1 New York Times bestselling Maze Runner series comes the first book in the bestselling Mortality Doctrine series an edge of your seat cyber adventure trilogy that includes *The Rule of Thoughts* and *The Game of Lives*. Includes a sneak peek of *The Fever Code* the highly anticipated conclusion to the Maze Runner series the novel that finally reveals how the Maze was built. The VirtNet offers total mind and body immersion and the more hacking skills you have the more fun it is. Why bother following the rules when it's so easy to break them? But some rules were made for a reason. Some technology is too dangerous to fool with. And one gamer has been doing exactly that with murderous results. The government knows that to catch a hacker you need a hacker. And they've been watching Michael. If he accepts their challenge Michael will need to go off the VirtNet grid to the back alleys and corners of the system human eyes have never seen and it's possible that the line between game and reality will be blurred forever. Praise for the Mortality Doctrine Series: Dashner takes full advantage of the Matrix-esque potential for asking what is real. io9.com Set in a world taken over by virtual reality gaming the series perfectly captures Dashner's hallmarks for inventiveness teen dialogue and an ability to add twists and turns like no other author. MTV.com A brilliant visceral gamified mash up of *The Matrix* and *Inception* guaranteed to thrill even the non-gaming crowd. Christian Science Monitor
