Abstract The purpose of this study was to determine the effect of a 12-week training program on the physical fitness of 100 male and 100 female students. The program included aerobic, strength, and flexibility exercises. The results showed that the program had a significant positive effect on the physical fitness of both male and female students. The program also had a significant positive effect on the self-esteem of both male and female students. The program was found to be an effective way to improve the physical fitness and self-esteem of students.
