Het Refrein Is Hein Dagen Uit Een Verpleeghuis:

Het refrein is Hein Bert Keizer, 1994 **Death in Literature** Outi Hakola, Sari Kivistö, 2014-05-02 Death is an inevitable yet mysterious event Fiction is one way to imagine and gain knowledge of death Death is very useful to literature as it creates plot twists suspense mysteries and emotional effects in narrations But more importantly stories about death seem to have an existential importance to our lives Stories provide fictional encounters with death and give meaning for both death and life Thus death is more than a physical or psychological experience in literature it also highlights existential questions concerning humanity and storytelling This volume entitled *Death in Literature* approaches death by examining the narratives and spectacles of death dying and mortality in different literary genres The articles consider literary representations of death from ancient Rome to the Netherlands today and explore ways of dealing with death and dying The discussions also transcend the boundaries of literature by studying literary representations of such socially relevant and death related issues as euthanasia and suicide The articles offer a broad perspective on death s role in literature as well as literature s role in the social and cultural debates about death *Physician-Assisted Death in Perspective* Stuart J. Youngner, Gerrit K. Kimsma, 2012-07-30 This book is the first comprehensive report and analysis of the Dutch euthanasia experience over the last three decades In contrast to most books about euthanasia which are written by authors from countries where the practice is illegal and therefore practiced only secretly this book analyzes empirical data and real life clinical behavior Its essays were written by the leading Dutch scholars and clinicians who shaped euthanasia policy and who have studied evaluated and helped regulate it Some of them have themselves practiced euthanasia The book will contribute to the world literature on physician assisted death by providing a comprehensive examination of how euthanasia has been practiced and how it has evolved in one specific national and cultural context It will greatly advance the understanding of euthanasia among both advocates and opponents of the practice Civilisation and Informalisation Cas Wouters, Michael Dunning, 2019-01-31 Over the last century and a half manners and formalities in the West have become less status ridden stiff and rigid Debates around Norbert Elias theory of civilising processes gave rise to questions of a change in direction of these patterns The concept of informalisation which describes these transformations was first used to analyse the tumultuous changes of the 1960s and 1970s This increasing informality leniency and flexibility comes hand in hand with a growing demand on individuals to self regulate their emotions This book will stimulate debate around the changes in the standards of manners and emotion regulation and will generate new avenues of enquiry that focus on issues involving informalisation The chapters shed light on a variety of such moral and political issues over the last 150 years offering a new and broader scope on the present social condition of humanity *Civilisation and Informalisation* will be an important addition for students and scholars of figurational process sociology and of broader interest to academics across sociology social psychology and social history Passage - Tijdschrift voor Europese literatuur & cultuur - Jrg. 4 (2016-2017), nr. 1 - Themanummer Literatuur &
