A Guide to Impactful Teacher Evaluations Joseph O. Rodgers, 2021-03-10 What if everything we thought we knew about effective teacher evaluations was wrong? A Guide to Impactful Teacher Evaluations walks educators through an important shift in thinking about how to evaluate teachers from systems focused on individuals and results to solutions focused on collectives and processes. Disregarding older ineffective models that rely on faulty assumptions, this book embraces new approaches for measuring teacher competency that achieve valid assessment of effective teaching, teacher professional growth, and student learning. Chapters explore teacher evaluation systems based on professional learning community principles, confront the current system of teacher evaluation that has led to frustration, criticism, and disrespect, provide strategies for delivering new skills and supporting teachers' growth, and include Tips and Talking Points for schools and districts. Outlining best practice and sharing actionable tools grounded in collaboration and teamwork, this book helps K-12 school leaders explore teacher evaluation that has a real and lasting impact on the profession and student learning.

Gooden, 2012-11-01 Challenges of work-life balance in the academy stem from policies and practices which remain from the time when higher education was populated mostly by married White male

faculty Those faculty were successful in their academic work because they depended upon the support of their wives to manage many of the not work aspects of their lives Imagine a tweedy middle aged white man coming home from the university to greet his wife and children and eat the dinner she s prepared for him and then disappearing into his study for the rest of the evening with his pipe to write and think great thoughts If that professor ever existed he is now emeritus Juggling Flaming Chainsaws is the first book in a new series with Information Age Publishing on these challenges of managing academic work and not work It uses the methodology of autoethnography to introduce the work life issues faced by scholars in educational leadership While the experiences of scholars in this volume are echoed across other fields in higher education educational leadership is unique because of its emphasis on preparing people for leadership roles within higher education and for preK 12 schools Authors include people at different places on their career and life course trajectory people who are partnered and single gay and straight with children and without caring for elders and managing illness They hail from different geographic areas of the nation different ethnic backgrounds and different types of institutions What all have in common is commitment to engaging with this topic to reflecting deeply upon their own experience and to sharing that experience with the rest of us
