God Is Impassible And Impassioned Toward A Theology Of Divine Emotion:

God Is Impassible and Impassioned Rob Lister, 2012-11-30 Modern theologians are focused on the doctrine of divine impassibility exploring the significance of God's emotional experience and most especially the question of divine suffering Professor Rob Lister speaks into the issue outlining the history of the doctrine in the views of influential figures such as Augustine Aquinas and Luther while carefully examining modernity's growing rejection of impassibility and the subsequent evangelical response With an eye toward holistic synthesis this book proposes a theological model based upon fresh insights into the historical biblical and theological dimensions of this important doctrine

The One Creator God in Thomas Aquinas and Contemporary Theology Michael J. Dodds, OP, 2020-08-21 This book provides a fundamental introduction to Aquinas's theology of the One Creator God Aimed at making that thought accessible to contemporary audiences it gives a basic explanation of his theology while showing its compatibility with contemporary science and its relevance to current theological issues Opening with a brief account of Aquinas's life it then describes the

purpose and nature of the Summa Theologica and gives a short review of current varieties of Thomism Without neglecting other works it then focuses primarily on the discussion of the One God in the first part of the Summa Theologica God s transcendence and immanence is a recurrent theme in that discussion Evidence of God s immanent causality in the natural world grounds Aquinas s five arguments for the existence of God the Five Ways which then open onto God s transcendence The subsequent discussion of the divine attributes builds on the modes of God s causality established in the Five Ways It also shows the need for a language of analogy to preserve God s transcendence and prevent us from reducing God to the level of creatures even as qualities such as goodness and love which we first know from creatures are applied to God The discussion of God s providence and governance establishes that the transcendent Creator God is most intimately present in creation God acts in all creatures in a way that does not diminish their proper causality but is rather its source As there is no contradiction between God s transcendence and immanence so there is no competition between the primary causality of God and the secondary causality of creatures Empirical science which is limited by its method to the secondary causality of creatures is shown to be compatible with the broader discipline of theology which also embraces the primary causality of the Creator

Confronts readers typical thoughts on God s heart Scripture Based Explores passages throughout the whole Bible to get a full picture of God s heart for sinners Divine Suffering Andrew J. Schmutzer,2023-02-22 Divine Suffering is an interdisciplinary study that draws from systematics philosophy biblical theology and pastoral experience In addition to covering topics like the suffering of the Father in the Son and God s cruciform vulnerability this book also explores how divine suffering animates the Christian gospel and resonates in the ongoing persecution of believers The study of the suffering God has everything to do with Theology History and Church Mission Like exploring a cathedral from all its entrances both scholars and seekers will find ample opportunity for theological challenge biblical insight and missional hope To accomplish this both Scripture and doctrine are closely investigated Today divine suffering must face the contemporary realities of protest atheism escalating wars new studies in relational theology and dialogical personhood that presses the need to explain a Christian message about the kind of God who is not only transcendent but also personal Divine Suffering introduces us to the history of God not just the God of history In this study we meet a God available to our pain though not diminished by it Mounting forms of grief need to be met with an equally pastoral understanding that validates suffering without valorizing it

The Humility of the Eternal Son Bruce Lindley McCormack, 2021-09-16 This book is the first thoroughly Reformed version of kenotic Christology It has the virtue of overcoming from within the logical aporia created by the Chalcedonian Definition without abandoning that Definition

The Death of Classical Theism and the Subsequent Rise of Atheism Shane Himes, 2025-03-18 Modernity has seen the rise of atheism and a rejection of classical theism In this book Shane Himes argues that the two realities are largely dependent on one another Many modern Christian apologists are not fond of classical doctrines such as divine simplicity and impassibility and thus they happily reject these ideas The ramifications of doing so however have not been fully appreciated especially as they relate to Christian arguments for God's existence Himes gives an overview of the arguments for God's existence by examining the work of both scholars who reject classical theism and those who embrace it An analysis of these arguments demonstrates that modern models of God make his existence a mere possibility as opposed to a logical necessity As such the arguments given by these scholars leave them susceptible to atheist critiques given that they do not answer the question of why anything exists Without classical theism God becomes one possible answer as to why our particular universe exists the way that it does but apparently this has not been convincing to many as atheism has seen an unprecedented rise in the last two centuries Paradoxically if Christianity is to become dominant once again in academia and Western societies more generally a recovery of classical depictions of God as the ground of all being is paramount

Mormonism and the Emotions Mauro Properzi, 2015-05-21 Mormonism and the Emotions An Analysis of LDS Scriptural Texts is an introductory Latterday Saint LDS theology of emotion that is both canonically based and scientifically informed It highlights three widely accepted characteristics of emotion that emerge from scientific perspectives namely the necessity of cognition for its emergence the personal responsibility attached to its manifestations and its instrumentality in facilitating various processes of human development and experience In analyzing the basic theological structure of Mormonism and its unique canonical texts the objective is to determine the extent to which LDS theology is compatible with this three fold definition of emotion At this basic level of explanation the conclusion is that science and Mormon theology undoubtedly share a common perspective The textual investigation focuses on unique Mormon scriptures and on their descriptions of six common emotions hope fear joy sorrow love and hate For each of these emotional

phenomena the extensive report of textual references consistently confirms an implied presence of the outlined three fold model of emotion Thus the evidence points to the presence of an underlying folk model of emotion in the text that broadly matches scientific definitions Additionally the theological examination is enlarged with a particular focus on the Mormon theology of atonement which is shown to play a significant role in LDS understandings of emotions A broad exploration of such areas as epistemology cosmology soteriology and the theological anthropology of Mormonism further contextualizes the analysis and roots it in the LDS theological worldview **A Classical Response to Relational Theism** Brian J.

Orr, 2022-02-17 The classical doctrine of God expresses that the God of the Bible is triune a se simple immutable impassible eternal and the sovereign Lord over his creation which he created from himself Modern streams of theology within the evangelical circle continue to promote a doctrine of God that sharply contrasts the classical view the traditional view of God in Christian theism Therefore a critical response to such a theology is needed This study is a comprehensive analysis and sustained critique of Thomas Jay Oord s open relational doctrine of God Oord s model substitutes process metaphysics for classical metaphysics while attempting to retain foundational Christian doctrines that were established within a classical metaphysical framework *Contemplating God with the Great Tradition* Craig A. O. Presley, 2017-05-31 The tension between reading Scripture as primarily a historically situated text on one hand and binding canon addressed to a community of faith on the other constitutes a crucial issue for biblical interpretation Considering the ways the disciplines of Biblical Studies Biblical Theology Patristics and Systematic Theology approach Scripture and biblical interpretation the Biblical Theology Hermeneutics and Theological Disciplines study group within the Institute of Biblical Research established a four year project aimed at clarifying the relationships between these diverse lines of inquiry into scriptural interpretation found in each of these disciplines The goal of this project was to foster a sustained discussion where exploratory papers might be proposed composed and rewritten for final form using a collaborative process This research project and the present volume resulting from it offers valuable insights into the integration of Biblical Studies and Theology as subdisciplines within the academy The essays collected here fall naturally into the following sections Exegetical Explorations Reception Historical Explorations and finally Theological Practical Explorations **Edinburgh**

Critical History of Nineteenth-Century Christian Theology Daniel Whistler, 2017-09-08 Offers a new understanding of empathy and its relation to medicine and literature

Intimately Forsaken Thomas Brand, 2024-11-27 The book offers a new Trinitarian and Christological reading of Christ's cry of dereliction that is grounded in historic orthodoxy Arguing for an interpretation of the cry in relation to the communication of idioms in Christology and the modal distinction between person and nature in Trinitarian theology the book draws from a broad range of Patristic Scholastic and Reformed sources This work is a must for scholars of Christian theology

T&T Clark Handbook of Suffering and the Problem of Evil Matthias Grebe, Johannes Grössl, 2023-07-13 This wide ranging work provides an extensive exploration of the theology of theodicy asking questions such as should all instances of suffering necessarily be understood as evil Why would an omnipotent and benevolent God allow or perpetrate evil Is God unable or unwilling to reduce human and non human suffering on Earth Does humanity have the capacity to exercise a moral evaluation of God's motives and intentions Conventional disciplinary boundaries have tended to separate theological approaches to these questions from philosophical ones This volume aims to overcome these boundaries by including biblical Part I historical Part II doctrinal Part III philosophical Part IV and pastoral interreligious perspectives and alternative intersections Part V on theodicy Authors include thinkers from analytic and continental traditions multiple Christian denominations and other religions and both established and younger scholars providing a full variety of approaches What unites the essays is an attempt to answer these questions from the perspective of biblical testimony historical scholarship modern theological and philosophical thinking about the concept of God non Christian religions science and the arts The result is a combination of in depth analysis and breadth of scope making this a benchmark work for further studies in the theology of suffering and evil

The Dialectics of Mission Elmer A. Guzman, 2023-09-15 Drawing on the resources of contemporary systematic theologians Kevin Vanhoozer and Veli Matti Kärkkäinen Elmer A Guzman explores the generative dimension of mission for the formation of doctrine for a church that needs to witness in a pluralistic world Guzman argues that understanding doctrinal formation and development depends on the missional dimension of doctrinal hermeneutics In other words these theological concepts and practices are justified based on the negotiation between theological sources identity markers and the context's diversity markers This book shows how perspectives arising from the structural elements in theological methodology shed fresh light on missional theology and the interconnections between the doctrinal loci in theology
