Contracts in the Real World Lawrence A. Cunningham, 2016-02-24 Contracts the foundation of economic activity are both vital and misunderstood Contracts in the Real World 2nd edition corrects common misunderstandings through a series of engaging stories involving such notable individuals as Martin Luther King Maya Angelou Lady Gaga and Donald Trump Capturing the essentials of this subject the book explores recurring issues in contracting and shows how age old precedents and wisdom still apply today and how contract law s inherent dynamism cautions against exuberant reforms The accessible yet rigorous approach will appeal to the general reader and specialists alike and to both teachers and students of contracts

The future of Inflight Entertainment in Europe, according to passenger expectations: Why Airlines should embrace Consumer Technology Jasmin Schawalder, 2014-04-01 Consumerization passengers toting their tablets laptops smartphones and e readers on planes has forced airlines to re think Should they continue to invest heavily into Inflight Entertainment IFE systems or just concentrate on offering Wi Fi and power in the cabin The goal of this research was to define the IFE offer of the future Four barriers that split the world into the three regions Europe Asia and USA in terms of IFE development were identified the cultural the commercial the technological and the legal barrier This book focuses on Europe which lags mostly behind with IFE out of these three regions For example as opposed to the US no major European airline offers inflight Wi Fi widely on its network and in contrast to leading Middle Eastern airlines none offers inflight live TV or the usage of mobile phones without restriction like on the ground The target was to define IFE from a consumer perspective To capture the latter the author evaluated consumer satisfaction methodologies and decided to go with the Kano approach which categorizes alternatives of a product or service in this case IFE in must be attractive and indifferent elements A representative online survey revealed movies and power to be must be TV and Wi Fi to be attractive and the rest

e books music games and duty free onboard to be indifferent elements of IFE The majority of people indicated that they would pay for movies and Wi Fi but not for power supply TV or other content Differently said content wise passengers only insisted in the supply of movies for the rest they expected the airline to provide Internet and power so they themselves could get the content Further sub groups were analysed people within the sample with mutual characteristics like gender travel frequency or ownership of smart devices So was music on a plane a must for women and owners of iPhones were more willing to pay for apps than others Overall country of residence travel purpose leisure or business and flight duration long vs short haul were the greatest dividers re IFE requirements

Trust-Enhanced Composition Florian Volk,2015-12-15 The Internet has developed from an information platform to a business platform Fostered by the Internet of Things the Internet of Services is the new economy in the Internet Business providers compose Internet services offered by other parties to value added composite services A new business model has evolved from the possibility to combine independent services to new ones This book contributes new methods and approaches to stakeholders in the setting of composite services in the Internet of Services Providers and customers often encounter situations in which information on the quality of offered services is scarce and subject to uncertainty Deciding for one service or the other includes the possibility of unwittingly paying for a service of low quality while another better service is readily available Distinguishing between good and bad services is both difficult and important for successful business activities in this setting While trust is a well known concept in human interaction it has long been neglected in technical settings Since the introduction of computational trust researchers are working on making mechanisms of human trust usable in technical settings This book applies and evolves computational trust for the application in composite service settings

Performance Management Transformation Elaine Diane Pulakos,Mariangela Battista,2020 No other talent process has been the subject of such great debate and emotion as performance management PM For decades different strategies have been tried to improve PM processes yielding an endless cycle of reform to capture the next Flavor of the Day PM trend The past five years however have brought novel thinking that is different than past trends Companies are reducing their formal processes driving performance based cultures and embedding effective PM behavior into daily work rather than relying on annual reviews to drive these Through case studies provided from leading organizations this book illustrates the range of PM processes that companies are using today These show a shift away from adopting someone else s best practice and instead companies are designing bespoke PM processes that fit their specific strategy climate and needs Leading PM thought leaders offer their views about the state of PM today what we ve learned and where we need to focus future efforts including provocative new research that shows what matters most in driving high performance This book is as a call to action for talent management professionals to go beyond traditional best practice and provide thought leadership in designing PM processes and systems that will enhance both individual and organizational performance
