Herinneringen En Overpeinzingen

Eckart (pseud.)

Herinneringen En Overpeinzingen:

The Netherlands and World War I Hubert van Tuyl van Serooskerken, 2021-10-01 During World War I the Netherlands was situated squarely between two warring great powers Britain and Germany and on the edge of the war zone itself Isolationism was impossible strict neutrality was inadequate The Netherlands nevertheless escaped the war mainly because of its own actions This book is the story of the people who managed this escape The first part of the book examines the pre war situation espionage against Germany and the mobilization of 1914 Succeeding chapters cover the military diplomatic balancing act during the war the attempted revolution of 1918 and the near disaster at Versailles The book concludes with a consideration of major issues This work is intended to appeal to a broad audience including students of World War I modern European history diplomatic history military history and peace studies [The Great War in Belgium and the Netherlands](#) Felicity Rash, Christophe Declercq, 2018-07-02 This book addresses the many avenues that are still left unexplored when it comes to our understanding of the First World War in the Low Countries With the ongoing the centenary of the Great War many events have been organized in the United Kingdom to commemorate its military events its socio political consequences and its cultural legacy Of these events very few have paid attention to the fates of Belgium or the Netherlands even though it was the invasion of Belgium in August 1914 that was the catalyst for Great Britain declaring war The occupation of Belgium had long term consequences for its people but much of the military and social history of the Western Front concentrates on northern France and the Netherlands is largely forgotten as a nation affected by the First World War By opening the field beyond the military and beyond the front this collection explores the interdisciplinary and international nature of the Great War **Colonialism, Capitalism and Racism** Jan Breman, 2025-10-01 For a long time Europe's colonizing powers justified their urge for expansion with the conviction that they were bringing civilization to territories where civilization was lacking This doctrine of white superiority and indigenous inferiority was accompanied by a boundless exploitation of local labor Under colonial rule the ideology that later became known as neoliberalism was free to subject labor to a capitalism tainted by racialized policies This political economy has now become dominant in the Western world too and has reversed the trend towards equality In *Colonialism Capitalism and Racism* Jan Breman shows how racial favoritism is no longer contained to faraway indigenous peoples but has become a source of polarization within Western societies as well *Small Countries in a Big Power World: The Belgian-Dutch Conflict at Versailles, 1919* H.P. van Tuyl, 2016-11-21 When a devastated Belgium emerged from World War I some of its leaders had high hopes that the upcoming negotiations would enable achievement of a long cherished goal annexing parts of the Netherlands lost in the final 1839 settlement which had established the country Belgium's strong historical and military arguments were bolstered by its courageous Great War image Yet the Dutch proved ready and able to launch an energetic counterattack which ultimately stymied the Belgian campaign This book explains why and how this happened and demonstrates that small states are active

participants in their own destinies not just spectators or victims **The Hunger Winter** Ingrid de Zwarte, 2020-07-23 A pioneering study on the causes and consequences of the Dutch famine of 1944 1945 **Guarded Neutrality** Susanne Wolf, 2013-06-20 Traditionally isolated from mainstream European affairs in 1914 the Dutch had no major allegiances that bound them to any one side of the conflict Geographically and economically caught between two of the major belligerents Great Britain and Germany the Netherlands was constantly vulnerable to attack from either side In adopting a position of neutrality at the beginning of the war the Dutch took a huge gamble The internment of approximately 50 000 foreign troops in the Netherlands some for almost the entire four years of the war provided an important showcase for the Dutch Government to demonstrate its adherence to international law and its impartiality towards the all of the belligerents

Nurturing Indonesia Hans Pols, 2018-08-09 Hans Pols proposes a new perspective on the history of colonial medicine from the viewpoint of indigenous physicians The Indonesian medical profession in the Dutch East Indies actively participated in political affairs by joining and leading nationalist associations by publishing in newspapers and magazines and by becoming members of city councils and the colonial parliament Indonesian physicians were motivated by their medical training their experiences as physicians and their subordinate position within the colonial health care system to organise lead and join social cultural and political associations Opening with the founding of Indonesia s first political association in 1908 and continuing with the initiatives of the Association of Indonesian Physicians Pols describes how the Rockefeller Foundation s projects inspired the formulation of a nationalist health programme Tracing the story through the Japanese annexation the war of independence and independent Indonesia Pols reveals the relationship between medicine and decolonisation and the role of physicians in Asian history **Other Combatants, Other Fronts** James Kitchen, Alisa Miller, Laura Rowe, 2011-01-18 The First World War is a subject that has fascinated the public as well as the academic community since the close of hostilities in 1918 Over the past thirty years in particular the historiography associated with the conflict has expanded considerably to include studies whose emphases range between the economic social cultural literary and imperial aspects of the war all coinciding with revisions to perceptions of its military context Nevertheless much of the discussion of the First World War remains confined to the experiences of a narrow collection of European armies on the battlefields of Northern France and Belgium This volume seeks to push the focus away from the Western Front and to draw out the multi spectral nature of the conflict examining forgotten theatres and neglected experiences The chapters explore the question of what total war meant for the lives of people around the world implicated in this momentous event broadening current debates on the First World War as well as developing reinforcing and refining the existing categories of analysis The chapters are grouped into sections that reflect neglected elements of the transnational interpretation of the conflict and aspects of the total war debate These encompass alternative forms of mobilisation issues of neutrality ideas of racial identity and the scope of violence The volume thus not only expands First World War studies but also contributes to the wider discourse on the

shifting nature of warfare in the nineteenth and twentieth centuries With chapters by leading scholars and early career researchers this volume draws on a diverse range of original archival research undertaken across disciplinary and national boundaries The contributions to the volume provide an analysis of the conflict that draws out its full breadth and complexity The First World War demonstrated the critically important relationship between national mobilisation and total war and saw multiple mobilisations and re mobilisations of European populations This theme is explored at the national regional and local levels through examinations of the Sicilian province of Catania the role of science in France and Britain and the utilisation of the narrative of maritime heroism surrounding the British sailor Jack Cornwell For Europe s neutrals the First World War was often as total in its effects as for those states engaged in military operations Chapters analyse the diverse range of these experiences of neutrality from the economy and people of the Netherlands to the attitudes of Switzerland s intellectuals Racial interpretations of modern conflict have defined much of the historiography of total war The complexities of racial analysis with respect to total war are highlighted in chapters dealing with white colonial internees in German East Africa the treatment of prisoners of war in Europe and the recruitment of India s primitive peoples for service in labour units The final section of the volume considers the scale and broad scope of the violence unleashed during the First World War Chapters on the continuation of German naval war culture after the conflict the shaping of personal narratives of the war in the Ottoman Empire and anti alien violence among veterans in Canada serve to reinforce the extent to which the conflict affected wider aspects of twentieth century history around the globe Other Combatants Other Fronts sheds light on the diverse experiences of neutral and belligerent states and their combatants and civilians during the tumultuous events of 1914 18 This brings to the fore the extent to which the mechanisms of conflict developed during the struggle had a truly global reach and the impact this has had ever since in defining modern conflict The collection reinforces the notion that although the First World War was a vast and often bewildering industrial conflict it was ultimately a very human phenomenon Healers on the Colonial

Market Liesbeth Hesselink, 2011-01-01 Healers on the Colonial Market is one of the few studies on the Dutch East Indies from a postcolonial perspective It provides an enthralling addition to research on both the history of the Dutch East Indies and the history of colonial medicine This book will be of interest to historians historians of science and medicine and anthropologists How successful were the two medical training programmes established in Jakarta by the colonial government in 1851 One was a medical school for Javanese boys and the other a school for midwives for Javanese girls and the graduates were supposed to replace native healers the dukun However the indigenous population was not prepared to use the services of these doctors and midwives Native doctors did in fact prove useful as vaccinators and assistant doctors but the school for midwives was closed in 1875 Even though there were many horror stories of mistakes made during dukun assisted deliveries the school was not reopened and instead a handful of girls received practical training from European physicians Under the Ethical Policy there was more attention for the welfare of the indigenous population and the need for doctors increased More

native boys received medical training and went to work as general practitioners Nevertheless not everybody accepted these native doctors as the colleagues of European physicians **Frank van der Goes, 1859-1939** Ron Blom, 2012 *Genezers op de koloniale markt* Elisabeth Quirine Hesselink, 2009 Medische geschiedschrijving over de Nederlandse koloniën is schaars Genezers op de koloniale markt voorziet in een lacune en werpt een nieuw licht op zowel de Europese als de inheemse gezondheidszorg en haar beoefenaars in de periode 1850-1915 In 1851 richtte de koloniale regering in Batavia twee opleidingen op een doktersschool voor Javaanse jongens en een vroedvrouwschool voor Javaanse meisjes De bedoeling was dat zij de traditionele inheemse geneeskundigen de doekoens zouden gaan vervangen De inheemse bevolking was echter niet bereid gebruik te maken van de diensten van de afgestudeerden De inheemse dokters bleken toch inzetbaar als vaccinateur en als hulpgeneesheer De vroedvrouwschool werd daarentegen in 1875 gesloten Ondanks allerlei gruwelverhalen over misstanden in het inheemse kraambed werd de school niet heropend Wel werden er mondjesmaat meisjes aan huis opgeleid door Nederlandse artsen Toen de koloniale politiek rond 1900 aandacht begon te krijgen voor het welzijn van de inheemse bevolking ontstond behoefte aan artsen Meer inheemse jongemannen kregen een betere medische opleiding en gingen als zelfstandige artsen werken Deze verandering leverde spanningen op lang niet iedereen accepteerde inheemse artsen als collega's van een Nederlandse arts **Buiten schot** Paul Moeyes, 2011-07-07 Terwijl Europa op de Franse en Vlaamse slagvelden op bloedige wijze kennismakte met de moderne tijd hield Nederland zich weliswaar in militair opzicht afzijdig maar speelde het een essentiële rol in de Duitse en Britse oorlogspolitiek Voor het Duitse keizerrijk was Nederland de belangrijkste doorvoerhaven en een onontbeerlijke handelspartner voor de Britten de zwakke schakel in hun economische zeeblokkade Vier jaar lang moest de Nederlandse regering zich verweren tegen de diplomatieke druk van de ene partij zonder de andere te bevoordelen Neutraliteit bleek een hoogst betrekkelijk begrip Eerste Wereldoorlogexpert Paul Moeyes werpt in Buiten schot licht op een veronachtzaamde periode in de geschiedenis van Nederland hij schetst het leven van alledag tijdens de oorlogsjaren 1914-1918 en brengt het politieke gemanoeuvreren en gekonkel voor en achter de schermen op aanstekelijke wijze in beeld **Gustav von Schmoller and Adolph Wagner** Jürgen Backhaus, Günther Chaloupek, Hans A. Frambach, 2018-07-28 This book discusses the work of German economists Gustav von Schmoller and Adolph Wagner its influence on the tradition of German and Austrian economic and social thought and its implications for the discipline today Schmoller and Wagner integrated philosophical historical sociological and political approaches into the science of economics focusing specifically on economic development Schmoller who is considered the head of the second generation of the German Historical School argued that general propositions of economic theory had to be based on historical empirical studies In contrast Wagner was a systematologist who preferred to start his investigations into economic problems from abstract principles Schmoller and Wagner share however a common focus on institutions and the role of the state Wagner favored state policy initiatives while Schmoller was concerned with the risks of state policy failure One hundred years after their

deaths the contributions to this book look into their approach trace the influence of their ideas and explore the relevance of their thought in a global economy This book will be useful for students and scholars interested in socio economics the history of economic thought economic policy and political science Priesterdom en celibaat Ph Isenkern,1873 *Herinneringen en dagboek van Ernst Heldring (1871-1954)* Ernst Heldring,1970 **Geschiedenis en nostalgie** P. religious household in the Netherlands where he first began painting Dutch farmhouses and sand dunes to his move to Paris where he embraced the work of Pablo Picasso Georges Seurat and C zanne to the 1920s and onward where surviving the turmoil of two world wars and embracing a rapidly shifting culture Mondrian challenged the concept of art and invented a new world of undiluted colors and rhythmic straight lines His work would go on to affect painting architecture fashion and design in decades to come Here is also an intimate portrait of a complex artist his solitude and avoidance of intimacy his eccentricities and his philosophy his passion for ballroom dancing and his unwavering belief in art as a vehicle to reveal universal truths
