Herodotus World Exp Z World Explorers:

World Explorers And Discoverers Richard E. Bohlander, 1998-03-21 From pre Christianity to the 20th century this reference work provides portraits of over 275 of the world's explorers, geographers, chroniclers and inventors. Each profile details the subject's life, personality, adventures, achievements and the controversies if any surrounding the discovery. **The Cambridge Companion to Herodotus** Carolyn Dewald, John Marincola, 2006-06-08 Herodotus Histories is the first major surviving prose work from antiquity. Its range of interests is immense, covering the whole of the known world and much beyond, and it culminates in a detailed account of the Persian Wars of the early fifth century BC. Moreover, research has shown that Herodotus is a sophisticated and at times even ironic narrator and a pioneer and serious practitioner of historical research at a time when the Greeks' traditions about their past were still the fluid transmissions and memories of a largely oral society. This Companion provides a series of accessible chapters written by distinguished scholars, illuminating many aspects of Herodotus' work, his skill in language and his narrative art, his intellectual preconceptions, his working methods and techniques, his attitude towards nature and the gods, his attitude towards foreign cultures and peoples, and his view of human life and human history. **Literature of Travel and Exploration: R to Z, index** Jennifer Speake, 2003. Containing more than 600 entries, this valuable resource presents all aspects of travel writing. There are entries on places and routes: Afghanistan, Black Sea, Egypt, Gobi Desert, Hawaii, Himalayas, Italy, Northwest Passage, Samarkand, Silk Route, Timbuktu; writers: Isabella Bird, Ibn Battuta, Bruce Chatwin, Gustave Flaubert, Mary Kingsley, Walter Raleigh, Wilfrid Thesiger; methods of transport and types of journey: balloon, camel, grand tour, hunting and big game expeditions, pilgrimage, space travel and exploration; genres: buccaneer narratives, guidebooks, New World chronicles, postcards, companies and societies: East India Company, Royal Geographical Society, Society of Dilettanti; and issues and themes: censorship, exile, orientalism and tourism. For a full list of entries and contributors, a generous selection of sample entries and more, visit the Literature of Travel and Exploration An Encyclopedia website. Catalogue of the Everett Public Library Everett Public Library, 1890. **Brill's Companion to the Reception of Herodotus in Antiquity and Beyond**, 2016-01-19 Brill's Companion to the Reception of Herodotus in Antiquity and Beyond offers new insights on the reception and cultural transmission of one of the most controversial and influential texts to have survived from Classical Antiquity. Herodotus Histories has been adopted, adapted, imitated, contested, admired and criticized across diverse genres, historical periods and geographical boundaries. This companion, edited by Jessica Priestley and Vasiliki Zali, examines the reception of Herodotus in a range of cultural contexts from the fifth century BC to the twentieth century AD. The essays consider key topics such as Herodotus' place in the Western historiographical tradition, translation of and scholarly engagement with the Histories, and the use of the Histories as a model for describing and interpreting cultural and geographical material. Vast Expanses Helen M. Rozwadowski, 2018-10-15 Much of human experience can be distilled to saltwater tears sweat and an enduring connection to the sea In *Vast Expanses* Helen M Rozwadowski weaves a cultural environmental and geopolitical history of that relationship a journey of tides and titanic forces reaching around the globe and across geological and evolutionary time Our ancient connections with the sea have developed and multiplied through industrialization and globalization a trajectory that runs counter to Western depictions of the ocean as a place remote from and immune to human influence Rozwadowski argues that knowledge about the oceans created through work and play scientific investigation and also through human ambitions for profiting from the sea has played a central role in defining our relationship with this vast trackless and opaque place It has helped us to exploit marine resources control ocean space extend imperial or national power and attempt to refashion the sea into a more tractable arena for human activity But while deepening knowledge of the ocean has animated and strengthened connections between people and the world's seas to understand this history we must address questions of how by whom and why knowledge of the ocean was created and used and how we create and use this knowledge today Only then can we can

forge a healthier relationship with our future sea
