Executive Documents Ohio, 1908 **Readers' Guide to Periodical Literature** Anna Lorraine Guthrie, Bertha Tannehill, Neltje Marie Tannehill Shimer, 1919 The New Collective Bargaining Gary Chaison, 2012-06-12 This book explains how collective bargaining has changed in important and lasting ways over the past decade We are now seeing a new and powerful strain of the concession bargaining that traces its roots back to the early 1980s The collective bargaining of the past decade can be characterized as ultra concession bargaining because it is an intense and self perpetuating deviation from earlier concession bargaining Employers now act and unions react rather than the other way around Employers no longer have to establish a credible case of financial hardship or commit to the traditional quid pro quo of saving jobs in return for lower labor costs or guarantee singularity that concession bargaining is a single even that will not have to be repeated Not all collective bargaining occurs as this extreme variant but it has become the prevailing form Essentially there has been a sea change in collective bargaining in America The book describes the transformation of collective bargaining in a lively and readable manner avoiding academic legalistic or technical jargon and it will appeal to persons interested in the future directions of collective bargaining and unionism in America e g the general public graduate and undergraduate students in human resource management and industrial relations courses and labor relations managers and union activists and staff The book deals with aspects of union revival as it asks whether ultra concession bargaining is cause or outcome of the unions declining influence in the American economy and society Above all by using published reports on bargaining and interviews and surveys of bargaining settlements the book shows where the concession bargaining is now and where it is heading

The Harvard Guide to African-American History Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America *Harley-Davidson* Greg Roza, 2013-12-15 Every gearhead bike enthusiast will love this title for its rich history of the legacy brand known as Harley Davidson This title profiles some of the company's most iconic models from the debut 1911 Model 7D to today's sleek and modern VRSCA V Rod Readers can immerse themselves in details such as horsepower torque transmission types exhaust systems wheelbase measurements and speed For more info there is also a spec sheet on each model The showroom worthy images of each of these beautiful bikes make this book a must read for anyone interested in the Harley legacy **Catalogue** Ohio State University, 1901 **Tapping the Pines** Robert B. Outland III, 2004-12 The extraction of raw turpentine and tar from the southern longleaf pine along with the manufacture of derivative products such as spirits of turpentine and rosin constitutes what was once the largest industry in North Carolina and one of the most important in the South naval stores production In a pathbreaking study that seamlessly weaves together business environmental labor and social history Robert B Outland III offers the first complete account of this sizable though little understood sector of the southern economy

Outland traces the South's naval stores industry from its colonial origins to the mid twentieth century when it was supplanted by the rising chemicals industry. A horror for workers and a scourge to the Southeast's pine forests, the methods and consequences of this expansive enterprise remained virtually unchanged for more than two centuries. An important part of the timber products trade, naval stores were originally used primarily in shipbuilding and maintenance. Over the course of the nineteenth century, these products came to be used in myriad ways including in the manufacture of paint thinner, soap, and a widely popular lamp oil, and demand soared. In response, North Carolina producers enlarged their operations and expanded throughout the Southeast, especially into Georgia and Florida, but the short-term economic development they initiated ultimately contributed to long-term underdevelopment. Outland vividly describes the primitive harvest and production methods that eventually destroyed the very trees the trade relied upon, forcing operators to relocate every few years. He introduces the many different people involved in the industry, from the wealthy owner to the powerless worker, and explores the reliance on forced labor, slavery before the Civil War, and afterwards debt peonage and convict leasing. He demonstrates how the isolated forest environment created harsh working and living conditions, making the life of a turpentine hand and his family exceedingly difficult. With an exacting attention to detail and exhaustive research, Outland offers not only the first definitive history of the naval stores industry but also a fresh interpretation of the socioeconomic development of the piney woods South. *Tapping the Pines* is an essential volume for anyone interested in the region.
