Economics for Beginners is a quick and simple explanation of basic economic ideas and principles. A common misconception about economics is that the study is all about money. Money is only one aspect of the economy. Economics is the study of the choices people, companies, or governments make when allocating their resources to create products and services. Those choices made are based on the scarcity of the resources, needs of the people, and the economic style of the community, creating traditional, command, market, or mixed economies. Additionally, this text offers a common language, an easily understandable discussion of the law of supply and demand, and the intersection of both known as equilibrium. Finally, this ebook explains the cause and effect relationship between the economy and taxes, interest rates, and other governmental influences that lead to inflation and deflation, or the growth and contraction of the economy.

Macroeconomics Nils Gottfries, 2017-09-16. Written in a clear and direct style, this is the ideal core textbook for students who seek a thorough understanding of the applications of macroeconomic theory. The book combines theoretical rigour with numerous illustrative examples and engaging policy discussions. This highly respected author has developed an innovative new approach to teaching macroeconomics based on combining microeconomic foundations with Keynesian style short run policy analysis to build one unified model. Gottfries' critically acclaimed and highly relevant approach reinforces learning and makes it easier for students to comprehend, providing the ideal preparation either for work or for further postgraduate study. The book is perfect for the higher level intermediate macroeconomics courses, as well as offering a potential bridge between undergraduate level study and the step up to postgraduate and research level theory and content. Key features of this book include: A real world approach that takes into account the many market imperfections and rigidities that characterize economies in action. An international approach using examples from a variety of world economies and the ongoing comparison of US, UK, and EU market behaviours. Theory supported and illustrated by the presentation and analysis of real world data. Detailed coverage of both long and short run approaches and the closed and open economies.

NBER International Seminar on Macroeconomics 2005 Jeffrey A. Frankel, 2007. The NBER International Seminar on Macroeconomics brings together leading American and European economists to discuss a broad range of current issues in global macroeconomics. An international companion to the more American focused NBER Macroeconomics Annual, the 2005 volume first explores macroeconomic issues of interest to all advanced economies, then analyzes topical questions concerning the eastward expansion of the European Monetary Union. Jeffrey A. Frankel is James W. Harpel Professor of Capital Formation and Economic Growth at Harvard University's John F. Kennedy School of Government. Christopher A. Pissarides is Professor of Economics at the London School of Economics. Both are Research Associates at the National Bureau of Economic Research.

Anaconda Jesús A. Rivas, 2020-08-18. Anaconda tells the unexpected story of the world's largest snake. Written by Jesús Rivas, the undisputed expert on the biology of anacondas, this is the first authoritative book on the biology of the green anaconda. In this book, Rivas describes his experiences over a quarter of a century exploring the secret life of these fantastic

snakes including their diet movement patterns life and tribulations survival behavior and fascinating reproductive life More than just presenting facts about anacondas Rivas tells his story about studying them in the field Anaconda presents a comprehensive treatment of the natural history of the elusive green anacondas Drawing on twenty five years of research on this reptile in the wild and in captivity Rivas delves into the biology behavior demography reproductive habits and diet of the anaconda as well as issues relating to its conservation Rivas uses an ecological and evolutionary framework to present his research and supplements hard data with descriptions of his research methods including how he tracked down the anaconda for observation and study in wild The resulting book is a complete and engaging examination of the world s largest snake The rich photographs provided paired with Rivas storytelling makes this the perfect book for anyone looking to learn or even learn more about this mysterious snake

The Macroeconomics of the Arab States of the Gulf Raphael Espinoza, Ghada Fayad, Ananthakrishnan Prasad, 2013-10-31 The economies of the Arab states of the Gulf have gone through considerable changes in the last decade spurred by high oil prices and ambitious diversification plans Large scale immigration provided the labour force while capital inflows and financial development leveraged oil wealth to finance diversification The collapse in real estate prices around the world followed by the global crisis slowed growth and raised questions on the appropriateness of what has been dubbed the GCC model The Gulf Cooperation Council GCC countries have thus far managed to leverage their large natural resource wealth to achieve economic prosperity and finance social advances and the region also emerged as an important source of funds for the other countries in the Middle East Nevertheless the GCC face several challenges Productivity growth must increase to fully reap the benefits of investment Jobs must be created for the nationals and the growing youth population State intervention which is prevalent given that oil revenues accrue to the government must become efficient and be used to diversify and modernize the economy In addition the recent crisis highlighted the importance of fiscal monetary and financial stability policies to manage macroeconomic cycles This book analyses these issues and combines data and econometric analysis with theoretical discussions It concludes with a discussion of the importance of the GCC for the wider region
