Hohenheim 1493 1541 commonly called Paracelsus was both one of the most original medical thinkers of the sixteenth  
century and was the man who made opium as laudanum arsenic copper sulphate iron lead mercury potassium sulphate and  
sulphur part of the pharmacopoeia A man of many parts but a pioneer chemist Paracelsus can be regarded as the originator  
of a body of work which was the precursor of chemical pharmacology and therapeutics To no small extent he stands  
therefore as a father figure of the modern pharmaceutical industry Today s physician who wants to look at that industry since  
the days of Paracelsus and weigh the great gains against the problems soon encounters difficulties To diminish them this  
Enquiry approaches its subject from historical principles This gives increased perspective to questions asked late in the boo  
these questions being prompted by medical practice outside the industry and some twenty years of drug development activity  
within it In antiquity medicines often seem to have been used as part of magic and primitive man thought disease to be due  
to supernatural forces which he could influence The legacy remains and in trying to sort out what is rational in our use of  
drugs today we have to separate our small bits of science from the ancient magic and from modern commercial pressures
